INTERNAL SECURITY FUND POLICE (2014-2020)
2017 RESTRICTED CALL FOR PROPOSALS
ISFP-2017-AG-FORENSIC
IMPLEMENTATION OF THE EUROPEAN FORENSICS SCIENCE AREA 2020
ACTION PLAN IN MEMBER STATES

1. INTRODUCTION

Article 67(3) of the Treaty on the Functioning of the European Union ("TFEU") declares as the European Union’s objective ensuring a high level of security within an area of freedom, security and justice.

To achieve this objective, enhanced actions at European Union level should be taken to protect people and goods from increasingly transnational threats and to support the work carried out by Member States’ competent authorities.

The Internal Security Strategy for the European Union ("ISS"), adopted by the Council in February 2010, constituted a shared agenda for tackling these common security challenges and identified the following relevant strategic objectives for 2010-2014: to disrupt international crime networks, to prevent terrorism and address radicalisation and recruitment, to raise levels of security for citizens and businesses in cyberspace and to increase Europe’s resilience in the face of crises and disasters.

To promote the implementation of the ISS and to ensure that it becomes an operational reality, the Internal Security Fund ("ISF Police") was set up.

In April 2015 the European Commission adopted the European Agenda on Security ("EAS") for the coming five years, which builds on the actions undertaken under the previous Internal Security Strategy, thus ensuring consistent and continued action. The EAS identified the following three priorities: tackling terrorism and preventing radicalisation, disrupting organised crime and fighting cybercrime.

On the basis of the EAS, the Council adopted in June 2015 the renewed European Union Internal Security Strategy 2015-2020 confirming tackling and preventing terrorism, radicalisation to terrorism and recruitment as well as financing related to terrorism, preventing and fighting serious and organised crime and preventing and fighting cybercrime as the main priorities for European Union's actions.

The legal base of the Internal Security Fund ("ISF") Police is the following regulations:

The ISF Police Regulation sets out two specific objectives, respectively:
(i) crime prevention, combating cross-border, serious and organised crime including terrorism, and reinforcing coordination and cooperation between law enforcement authorities and other national authorities of Member States, including with Europol or other relevant Union bodies, and with relevant third countries and international organisations;

(ii) enhancing the capacity of Member States and the Union for managing effectively security-related risks and crises, and preparing for and protecting people and critical infrastructure against terrorist attacks and other security-related incidents.

In conformity with Regulation (EU) No 514/2014 Article 6.2, in order to implement the ISF Police, the Commission has adopted on 27 September 2017, the 2017 Annual Work Programme for Union actions\(^1\), which includes this Call for Proposals.

**Background:**

The Prüm Decisions 2008/615/JHA and 2008/616/JHA of 23 June 2008 on the stepping up of cross-border cooperation, particularly in combating terrorism and cross-border crime, require Member States to set-up the necessary infrastructure to perform cross-border exchange of DNA-profiles, fingerprinting data and vehicle registration data.

Council Framework Decision 2009/905/JHA of 30 November 2009 requires Member States to accredit their forensic service providers carrying out laboratory activities concerning DNA and fingerprints.

The Council adopted in December 2011 Conclusions regarding the realisation of a European Forensic Science Area by 2020, “where routine forensic processes for the collection, processing, use and delivery of forensic data should be based on equivalent minimum forensic science standards and where forensic service providers should work on the basis of a common approach to implementation of these standards that fosters closer cooperation between them and the criminal justice systems”.

The Council adopted in June 2016 Conclusions and a related Action Plan on the way forward in view of the creation of an European Forensic Science Area. The related action plan contains 6 specific actions: (1) Developing best Practice Manuals for forensic disciplines, (2) Stimulating exchange of forensic information from databases, for example in the areas of weapons and ammunition, explosives and drugs, (3) Developing proficiency tests and collaborative exercises for forensic disciplines, (4) Increasing forensic awareness and training for law enforcement and justice communities, (5) Stimulating the accreditation of forensic service providers and competence of forensic personnel on a voluntary basis, and (6) stimulating the exchange of forensic data via Prüm and improving its quality.

The main objective of the present call is to finance projects aiming to implement in EU Member States the relevant actions of the action plan accompanying the Council Conclusions of June 2016 on the way forward in view of the creation of a European Forensic Science Area. A specific focus is put on the full implementation of the Prüm decisions in EU Member States.

2. **Priorities of this Call for Proposals**

The present Call for Proposals aims at funding projects in the area of forensics science in the EU.

Project applications submitted under the present Call for Proposals must address the priority of achieving a European Forensic Science Area by 2020.

This call for proposals is addressed to transnational projects aiming at exchanging best practices, training, setting common procedures, joint procurement and deployment of the necessary equipment, and accreditation of forensics laboratories, including funding operational meetings, innovative projects and test runs.

\(^1\) C(2017) 6343 final
To meet this priority, projects must aim to achieve one or all of the 6 specific actions identified in the June 2016 Council Conclusions on the way forward in view of the creation of a European Forensic Science Area. A specific focus is put on action 6, which has the objective to stimulate the exchange of forensic data via Prüm and improving its quality.

This priority stems from the Council Conclusions of December 2011 and June 2016, as well as from the obligations flowing for Member States from the Prüm Decisions of June 2008 and the Council Framework Decision of 2009 on the accreditation of forensics laboratories for their DNA and fingerprint activities.

Any action under this Call for Proposals shall pay particular attention to avoiding duplication with the work currently ongoing or planned by ENFSI, the European Network of Forensics Science Institutes, on the June 2016 action plan on the way forward in view of the creation of a European Forensic Science Area.

Any action under this Call for Proposals shall respect and shall be implemented in line with the rights and principles enshrined in the Charter of Fundamental Rights of the European Union. Applications should pay appropriate attention to the effects of the project on individual rights and freedoms, as well as to possible remedies. In addition, any action under this Call for Proposals should comply with all relevant ethical principles and all applicable international, EU and national law on ethical issues while carrying out the project.

### 9. Award Criteria

Eligible applications and their proposed action will be assessed on the basis of the following award criteria:
Evaluation Step 1:

- Relevance: applications will be assessed on the extent to which they match the priorities and expected outcomes as identified in this Call for Proposals (section 2 above) and in the relevant EU strategic documents and/or action plans (section 1 above), and on whether the expected impact will be significant on the selected priority(ies) (30 points).

Applications receiving less than 21 points for the "relevance" criterion will not be evaluated further, i.e. will not go to Evaluation Step 2.

Evaluation Step 2:

- Quality: applications will be assessed with regards to the appropriateness of their design and planned implementation, taking into account the envisaged activities, methodology, organisation of work and strategy for project management, evaluation and dissemination (20 points);
- Cost-effectiveness: applications will be assessed with regards to whether the costs of the proposed action are adequate to the activities and proportionate to the expected results (20 points);
- European added value: the project activities, outcomes and impact should have a broad EU relevance; applications will be assessed on whether a suitable number of countries is involved in the project activities and on whether the expected impact will concern a significant number of countries (20 points);
- Expected results, dissemination, sustainability and long-term impact. (10 points).

Applications that pass the threshold of minimum 65 points will be considered for funding within the limits of the available budget.

10. Legal Commitments

The award of each grant is subject to the conclusion of a Grant Agreement in writing.

The coordinators of projects proposed for funding will be invited to engage in a grant agreement preparation process, which will be carried out via an online IT system (SYGMA). If successful, it will conclude with the signature of a Grant Agreement, drawn up in euro and detailing the conditions and level of funding.

The Grant Agreement must be signed electronically first by the coordinator on behalf of the consortium and then by the European Commission. All co-beneficiaries must accede to the Grant Agreement by signing electronically the accession form to the grant.
Please note, that if international organisations are involved in the application, no other specific clauses applicable to international organisations than the ones already included in the Model Grant Agreement will be added.

Please note that the award of a grant does not establish any entitlement for subsequent years.

11. **FINANCIAL PROVISIONS**

11.1. **General Principles**

a) **Non-cumulative award**

An action may only receive one grant from the EU budget.

In no circumstances shall the same costs be financed twice by the Union budget. To ensure this, applicants shall indicate the sources and amounts of Union funding received or applied for the same action or part of the action or for its functioning during the same financial year as well as any other funding received or applied for the same action (Submission Form Part B, section 6).

b) **Non-retroactivity**

No grant may be awarded retrospectively for actions already completed. A grant may be awarded for an action which has already begun only where the Applicant can demonstrate the need to start the action before the Grant Agreement is signed. In any case, costs eligible for financing may not have been incurred prior to the date of submission of the grant application.

c) **Co-financing**

Co-financing means that the resources which are necessary to carry out the action may not be entirely provided by the EU grant.

Co-financing of the action may take the form of:
- the Beneficiary’s own resources,
- income generated by the action,
- financial contributions from third parties.

d) **Balanced budget**

The Budget Estimate of the action is to be included in the Application Form. It must have revenue and expenditure in balance and must be drawn up in euro.

Beneficiaries with general accounts in a currency other than the euro shall convert costs incurred in another currency into euro at the average of the daily exchange rates published in the C series of Official Journal of the European Union, determined over the corresponding reporting period.\(^5\) Where no daily euro exchange rate is published in the Official Journal of the European Union for the currency in question, conversion shall be made at the average of the monthly accounting rates established by the Commission and published on its website, determined over the corresponding reporting period.

Beneficiaries with general accounts in euro shall convert costs incurred in another currency into euro according to their usual accounting practices.

Where the implementation of the action requires the award of procurement contracts (implementation contracts), the Beneficiary must award the contract to the bid offering best value for money or the lowest price (as appropriate), avoiding conflicts of interests and retaining the documentation for the event of an audit. Detailed information on subcontracting is provided in the Guide for Applicants.

---

\(^5\) For further guidance on exchange rate please consult the Guide for Applicants.
Financial support to third parties
The applications may not envisage provision of financial support to third parties.

Non-profit rule
EU grants may not have the purpose or effect of producing a profit within the framework of the action. Profit shall be defined as a surplus of the receipts over the eligible costs incurred by the Beneficiary, when the request is made for payment of the balance. In this respect, where a profit is made, the Commission shall be entitled to recover the percentage of the profit corresponding to the Union contribution to the eligible costs actually incurred by the Beneficiary to carry out the action.

11.2. Maximum amount requested
The EU grant is limited to a maximum co-funding rate of 90% of the total eligible costs of the action.
Consequently, part of the total eligible expenses must be financed from sources other than the EU grant (see section 11.1.c).

11.3. Payment arrangements
A pre-financing payment corresponding to maximum 80% of the EU grant amount will be transferred to the Coordinator after the signature of the Grant Agreement by both parties and in accordance with its terms.
The Commission will establish the amount of the final payment to be made to the Coordinator on the basis of the calculation of the final grant amount. If the total of earlier payments is higher than the final grant amount, the Beneficiaries will be required to reimburse the amount paid in excess by the Commission through a recovery order.

12. Procedure for the Submission of Applications

12.1. How to apply
Proposals must be submitted by the deadline indicated in section 3 via the Electronic Submission System. The list of available calls can be found at the calls for proposals page.
