Chapter 1: Introduction

The European Commission’s Online Submission Service (hereinafter referred to as Submission Service) is designed to automate the documentation submission process for organisations and individuals interested in submitting proposals for funding under various EC programme initiatives.

Document scope

The purpose of the Proposal Submission User Manual is to describe how Participants can prepare and submit a Proposal using the Submission system.

Document structure

The following sections of information are available:

- **Chapter 1: Introduction** provides information and links to the relevant resources, a high level description of what you will need to prepare prior to your submission, a list of user actions, and contact and support information.

- **Chapter 2: Submitting your proposal through the online submission system** provides step-by-step guidance on how to submit your information using the Commission’s online system.

- **Chapter 3: Reference guide to screens, roles & access to user actions** describes the screens and the basic tasks you can perform using the system, as well as a description of the user roles in the system.

- **Appendix A: Compatibility & system configuration** provides general information on recommended system configuration to be used for the submission of your proposal.

- **Appendix B: Registration** provides instructions on how to register a new account with the European Commission Authentication Service (EU Login).

The Glossary section contains descriptions of the most common specialised terms that you might come upon in this document.

The proposal submission process

**Learning about the EC Grants proposal process**

It is very important that you familiarize yourself with the overall research and innovation grant process by first consulting the How to participate page on the Funding & Tenders Portal. There you will find a wealth of information including the Online Manual and numerous Reference Documents, the Participant register, and a comprehensive set of support documentation. Please read through all these resources prior to starting your Submission process.

**Proposal submission preparatory checklist**

In preparation for your online application submission process, you must go through the following steps:
1. Decide on the funding opportunity that you want to apply for Funding Opportunities are categorised as Calls, Topics and Types of Actions.

2. Select your Participants. Most calls require a consortium. Relevant information can be found on the Funding & Tenders Portal.

3. Register as a user in the European Commission Authentication Service (EU Login). For instructions also see Appendix B at the end of this document.

4. All organisations participating in a proposal must register in the Participant register through the Funding & Tenders Portal and receive a Participant Identification Code (PIC). Additional information is available in the Participant register Manual.

Quick steps to the online submission process

The following basic tasks summarize in the online submission process. Refer to Chapter 2 for the detailed step-by-step procedures:

1. Log into the Funding & Tenders Portal and select your topic.

2. Create a draft for your proposal.

3. Manage Participants (i.e. proposal consortium). The participants will be invited to the process by the system.

4. Edit the proposal draft form, download templates and complete all required information. Engage the other participants to maintain their organisation contacts and the details in the corresponding sections of the proposal form Part A.

5. Upload Part B and the rest of annex files and submit your proposal.

6. Following submission, you can update, download or withdraw your proposal until closure date is reached.

Accessing your draft and submitted proposals

You can access your saved proposal drafts as well as your submitted proposals at any time, from the My Proposal(s) page in the Funding & Tenders Portal (you must be logged in).

Contact and support

For any IT-related problems that you might experience with the submission system, please contact the IT Helpdesk using the form below, and selecting the domain Submission of proposals:

IT Helpdesk contact form in the Funding & Tenders Portal

Once you have started the submission process, additional contact information is available at the different screens of the wizard.
Chapter 2: Submitting your proposal through the online submission service wizard

Once you have your EU Login username and password, your PIC and the other participants PICs, you can start the submission process by logging into the Funding & Tenders Portal and using the European Commission online submission service wizard.

The submission process consists of 5 differentiated steps. Please, see below the different actions to be taken for each one of these steps.

Log in

To log in, perform the following steps:

1. Go to the Funding & Tenders Portal (F&T Portal):
   https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/home

2. Click the **Login** button. You will be prompted to authenticate through the **Sign in** screen:
3. Enter your EU Login (i.e. your registered email address, check Appendix B: EU Login registration if you do not have an EU Login yet). Click Next.

4. Enter your password; and then click the button (please note, Password is the authentication method by default, but under Chose your verification method, you will have the possibility to select different methods to authenticate. Please check How to authenticate with EU Login to learn more).

![Sign in to continue](image)

**Topic selection**

1. Once logged into the Portal, you will need to select the call topic for which you will submit your proposal.

   **Note:** A Programme comprises many Calls and each Call can have one or more Topics. A submitted proposal is always for one Topic and one Type of Action.

2. Click on **Search funding & tenders:**
3. Filters are displayed on the left side, between the elements of Manage my area and the search results, which are displayed on the right side. First, untick the Tenders box:
4. Then use the different filters. You can use one filter or combine several ones. This is a description of the different available filters:

**Programme filter**: select a specific programme from the list (only one programme can be selected for each search).

Some programmes may contain further filtering options, whereas other programmes do not contain any further filtering options.

**Status**: to filter the results by status, tick the corresponding status under Submission status. By default, **Forthcoming** and **Open for submission** are already selected. A tick means that the status is included in the search. Click on it to select or unselect it:
**Text search**: to search by a keyword, type a relevant word in the box on the top of the **Filter menu** and click on the magnifier icon, or hit **Enter** in your keyboard, to perform the search. The results are shown as topic cards on the right of the screen, which are overviews of each topic. Check this example where the different elements of topic cards are outlined:

The input provided in the search box looks for 2 different types of matches:

- Matches for any text appearing in the topic card.
- Matches for keywords.

⚠️ CPV code refers to keywords in the context of tenders. In the domain of funding opportunities, we use keywords.

⚠️ When you start typing, a list of keywords matching what is being typed will display, scroll down in the list to locate the exact keyword. These suggestions correspond only to keywords, not to any existing text in the topic card:
Please mind the **Match whole words only** checkbox. If ticked, it means that the results will exclude all potential matches which do not contain the exact word you typed.

When you do not tick this checkbox, however, all topics containing keywords and text in the topic card which partially match what you typed will be given as results (i.e., in the case of "fronti" above the results would include "frontier" and "frontier research" keywords if you do not tick **Match whole words only**).

Also, please note that this field can be used to search not only on keywords, but on the text of the call page. Therefore, if you know the topic ID or the topic name, you can type it directly in the box without the need to select a programme first.

5. When you have obtained a list of results, you can use the **Sort by** options on the top to display them by opening date, title, ID or deadline. By default, results are displayed by Submission status:

6. Click on the topic title to access the call description page:
7. Either scroll down to the **Select your type of action to start submission** in the call page (1), or select **Submission Service** in the table of contents on the left (2). Then click on the **Start Submission** button next to the selected type of action:

Create proposal

You are now in the **Submission system**. Carry out the following steps to create your call proposal. Please note, proposals coordinators are advised to submit their proposals at least 48 hours before call closure.
You can resubmit your proposal if needed until the closure of the call. Once the call is closed, the last submitted version will be the one being evaluated.

1. Enter your organisation's PIC. If you do not have the full PIC number, you can search by name or select from a previously associated organisation:

Entering the PIC will automatically populate the Short name field and highlight the address, as shown in the picture below:
Note: If the entered PIC is incorrect and you click on the **Search for your organisation** button, the following message appears:
2. Select your role (Main Contact or Contact person):

You would typically select the top-level role (Main Contact for most calls) for the Proposal Coordinator organisation during the initial proposal draft creation. If you select the Contact person role (or another role if the call uses specific roles) for yourself, you will need to specify a top-level role (Main Contact) for your organisation in the next step. The person holding the Main Contact role will become the Coordinator of the proposal.

Note: For more information about roles in the system, see section Roles, Proposal Coordinator, Partner and Contact Person at the beginning of Chapter 3.

IMPORTANT: Most calls use the standard Main Contact and Contact person roles for the Proposal Coordinator organisation. However, some calls may require more specific roles, such as Principal Investigator, Main Host Institution Contact, Researcher, Supervisor, Applicant, etc. Calls of this type are pre-configured accordingly and their proposal submission forms contain special sections to address the specific roles and the respective data as needed. Likewise, the Proposal Submission Wizard for these calls will display the respective role options, as configured for each call.

3. Fill in the Acronym field. Acronyms can be changed later on by the proposal coordinator, by editing the Administrative form in Part A (see Proposal forms below), in the section A1 Content within the form.

4. Fill in the Summary field.

5. Click on Save and go to next step:
Organisations in the consortium would usually get a notification of their involvement when the proposal is submitted, as well as being notified if the proposal where they were participating is withdrawn, as suggested by the warning below:

Warning

Please be aware that the organisation you have chosen will be automatically notified at submission about their involvement in the proposal. Do you want to continue?

Yes  No
6. After clicking on Yes, you will be presented with the following disclaimer. To accept it, click on OK and proceed.

Click on Cancel to decline and to cancel the proposal submission:

7. The following message confirms that your draft proposal has been created, and your draft will be given a temporary Proposal ID. You will also receive a confirmation email.

8. Click on Continue with this proposal to proceed to the next step.
To postpone this action for a later time and return to your list of proposals in the Funding & Tenders Portal, click on **Go to My Proposals**.

**Participants**

In this step you can add, remove, and manage additional partner organisations and their contact persons (roles). You can also edit the contact person’s details of the main organisation. In the following steps, we cover the creation of the consortium.

1. **In order to manage the Participants, click on Continue with the proposal after the Create proposal screen.** You will see the **Participants** screen, similar to the following one. Click on the Add Partner button to add or change the partners for the proposal:

   ![Participants Screen](image)

   Alternatively, you can also access this step from the list of your proposals from the Funding & Tenders Portal, click on the **Actions** button next to the proposal and select **Edit Draft**:  

   ![Edit Draft](image)
Once you are in the proposal, you will see the **Back to Participants list** button; click it in order to display the **Participants** screen and the **Add Partner** button:

![Proposal Submission Service](image)

**Note:** Before you can invite a Partner, your partner must have a PIC (see the **Submission Preparatory Checklist** section above).

The requirements for a minimum number of participants are specific for each call. A message specifying the Consortium Eligibility requirements will be displayed under the **Add Partner** button, if applicable.

⚠️ **Note about eligibility:** Eligibility problems indicated by the submission application are merely illustrative, and it is likely that not all applicable ones are indicated by the Portal submission system. Please check the topic page to get to know the exact eligibility conditions applicable to your proposal. See the specific requirements for your proposal by checking the **Topic conditions and documents** section in the topic page of the Portal.

2. Click on **Add Partner**. The **Add Partner** screen will be displayed:
3. Enter your Partner organisation's name or PIC and click on **Search**. This will give you a list of organisations matching the term in the search field.
4. Find your Partner organisation and click the **Use** button. The **Add contact** window will be displayed now. Click on the question mark to read the applicable rules for adding a contact:

5. Select the appropriate project role of the Partner Contact:

6. Please note that at least one **Main Contact** must be provided for each partner or following message will be displayed when trying to move to the following step. Not specifying a main contact for each Partner (i.e. clicking on **Save anyway** in the pop-up message) will block the submission at the final step and require that you go back to the consortium structure in the wizard later on and validate the Part A again.
7. Select the access rights that you want to grant to your Partner contact. Only the person assigned the Main Contact role and having full access rights can submit an application:

![Image of the access rights selection interface]

**Note:** Once you grant full access rights to a Contact person, they will not be allowed to alter their own access level to ‘read-only’. This can only be done by you in your role of the Proposal Coordinator (or by another user with full access rights).

8. Fill in the fields and click **Add contact**:
Note: If the Contact persons do not have an EU Login account yet, the system will use the provided email address to send them an invitation and grant access to the application.

9. Repeat the same steps for the remaining Partner organisations. You will see the additional contacts appear in the Partner information section:

There is a limitation of the amount of new invitations sent per minute (i.e., contacts which will be invited to register an EU Login). To avoid any errors, if you are entering many contacts at
the same time, you are advised to save from time to time, instead of saving all changes at once. For instance, click on the **Save** button after entering about 10 contacts, then proceed entering another 10 contacts and save again, and so on.

10. For certain calls, you will also have the possibility to add Associated Partners and Affiliated Entities linked to the Coordinator and/or to the Partners, by clicking on the **Add Affiliated Entity** and the **Add Associated Partner** buttons.

Please note that for the Affiliated Entities and the Associated Partners it is not possible to define Contacts:

<table>
<thead>
<tr>
<th>Coordinator</th>
<th>Affiliated Entity</th>
<th>Partner</th>
<th>Associated Partner</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>ONERA</strong></td>
<td><strong>DT GLOBAL</strong></td>
<td><strong>Test Test</strong></td>
<td><strong>ONERA</strong></td>
</tr>
<tr>
<td>Change organisation</td>
<td>Contact organisation</td>
<td>Change organisation</td>
<td>Contact organisation</td>
</tr>
<tr>
<td><strong>Contacts:</strong> 0</td>
<td><strong>Contacts:</strong> 0</td>
<td><strong>Contacts:</strong> 0</td>
<td><strong>Contacts:</strong> 0</td>
</tr>
</tbody>
</table>

![Image of the User Interface](image.png)
Please note that all the provided contacts are processed by the system when you click the **Save and go to next step** button at the bottom of the screen.

Once you have completed this task, click on **Save and go to next step**. At this point, the system will automatically send emails to all the provided participant contacts. The emails include the details of the proposal and links to access it, and if they need to create an EU Login, the link will take them to the EU Login creation screen (see **Appendix B: EU Login registration**).

Once you performed the actions described above, you can always click on the **Back to Participants list** button and change the consortium structure or the partner data. Please note that every change in the consortium requires that you go to the new/modified partner organisation section in the form Part A (see **Editing and Completing the Form**) if the form has been already filled in before the change. You will see a warning message after having changed the consortium structure and clicking **Save and go to next step** button:

**Modifying consortium and actions needed in the form Part A (Proposal forms screen)**

The consortium data may be changed at any time before the submission. To do so, access your proposal from the Funding & Tenders Portal, click on the **Actions** button next to the proposal and select **Edit Draft**:

Once you are in the proposal, you will see the **Back to Participants list** button; click it in order to display the **Participants** screen and the **Add Partner** button:
Any modifications in the consortium require that you (the coordinator, who can do it for all partners, or the main contact of a participating organisation, who can do it only for their own organisation) go to the corresponding participant sections in the form Part A, provide the data for the participant, as well as filing in other corresponding sections such as the budget table line for a newly added participant organisation, and save the form after each change to the consortium structure. Please follow these steps:

1. **Add the new partner and the partner contacts.**
   Click on **Save and go to next step** at the bottom of the page.

2. In the **Proposal forms** screen, click on **Edit forms:**
3. In the form, navigate to the **Participants** section (when opening the form, scroll down to the table of contents and click on Show):

**Table of contents**

<table>
<thead>
<tr>
<th>Section</th>
<th>Title</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>General information</td>
<td>Show</td>
</tr>
<tr>
<td>2</td>
<td>Participants</td>
<td>Show</td>
</tr>
<tr>
<td>3</td>
<td>Budget</td>
<td>Show</td>
</tr>
<tr>
<td>4</td>
<td>Other questions</td>
<td>Show</td>
</tr>
</tbody>
</table>

4. Then, click on **Show Participants details** for the added/modified partner and fill in the details as usual. You need to do this for each partner added/modified in the proposal consortium. Afterwards, save the form, this will prevent errors in the validation of the proposal before submitting:
5. Also, navigate to the **Budget** section and fill in the data for the corresponding partner. Save the form afterwards.

### Notification system for deleted contacts

When a contact is deleted from the list of contacts for an organisation, their access rights to a proposal will be revoked. As a result, this person will no longer be able to view or edit the proposal. If you can no longer view or edit proposals that you were previously able to work on then it is very likely that your profile was deleted from the list of contacts resulting in a revocation of access rights. If this happens, you will be informed by email that your access rights to a particular proposal have been revoked.

![Notification system for deleted contacts](image)

**Other eligibility issues when selecting a PIC (SME status, for profit status, etc.)**

In addition to the consortium eligibility requirements, if applicable; there may be also a set of criteria which must be met by the participating organisations depending on each call. For instance, sometimes the participants need to have specific values for their legal status, such as being *for profit* or being registered as an SME or specific policy values need to be set for their organisation in the Participant Register, such as a gender equality plan, etc.
In order to participate with the selected PIC in these cases, the LEAR or the Self-registrant of the participant will need to update the participant's information and, if applicable, submit the supporting documentation to justify the change. For instance, for calls that have as eligibility requirement that applicants are categorised as SME, the LEAR/Account Administrator will have to complete the SME Self-Assessment in the Participant. Otherwise, the applicant will need to select a correct organisation in order to participate in those specific calls.

Please refer to the Participant register online documentation in order to learn how to maintain your organization data. Applicants are requested to carefully study the eligibility criteria of each call before actually trying to apply for a topic for which they are not eligible.

⚠️ Note about eligibility: Eligibility problems indicated by the submission application are merely illustrative, and it is likely that not all applicable ones are indicated by the tool. Please check the topic page to get to know the exact eligibility conditions applicable to your proposal.
Proposal Forms

This step is the core of the submission process. Click on in the submission wizard if you just created the draft proposal, or, to access a previously saved draft proposal form, take following steps:

In the Funding & Tenders Portal, click on the Actions button next to the proposal and select Edit Draft:

Your proposal will open showing the Proposal forms screen:
When clicking the **Edit forms** button, the administrative form (Part A) opens.

**The action buttons of the wizard**

The action buttons shown in the **Proposal forms** screen of the submission wizard are:

<table>
<thead>
<tr>
<th><strong>Button</strong></th>
<th><strong>Description</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image" alt="Edit forms" /></td>
<td><strong>Click to open the form Part A that you need to complete.</strong></td>
</tr>
</tbody>
</table>
| ![View history](image) | **Click to view in detail the list of all system and user actions on the form. This function enables:**  
  - the Proposal Coordinator to verify that partners have updated their forms  
  - Partners to verify that the coordinator has submitted the proposal in a timely fashion. |
| ![Print preview](image) | **Click to **download** and save the Part A locally on your computer in PDF format. This PDF cannot be edited nor submitted, but it gives you an idea of what has been filled in so far and what the EC would see if you submit your proposal right now.** |
| ![Download part B templates](image) | **Click this button to download all Part B templates at once before the draft proposal is created. The latest proposal requirements package will get downloaded, in a readily editable (RTF) template.**  
  **Once completed, you must convert the proposal templates into PDF files.** |
| ![Upload](image) | **Click to upload the respective file.**  
  The upload process for the complete set of files can take between a few seconds and a few minutes, depending on the speed of your Internet connection. When the upload is complete, the system displays a confirmation message and creates the respective entry in the history log. Please check the requirements for uploading your files Part B. |

**Familiarising yourself with the wizard and the form**

Click the first ![button](image) button at the top of the screen to read the general help instructions for editing proposal forms, as shown in the picture below:
Click the button in the Administrative forms section to read the help instructions for editing the administrative forms of the proposal, as shown in the picture below:
Click \[ Edit \] to start editing the forms. You can check Appendix A at the end of this manual for further information about the compatibility recommendations to work with the form.

**What you need to know about completing the form**

**Who can fill in the form?**

Any contact with full access from the coordinator organisation can submit the proposal, and can also modify the whole form Part A on behalf of the rest of participants. The rest of participants can preview the form and the main contact/contacts with full access can edit the contact details information of their organisation and the line in the budget table corresponding to their own organisation.

Click the \[ Edit \] button to access the forms.

**Read-only fields**

The list of participants and contact persons, the Participant Identification Code (PIC) and the respective summary data of the participants (shown in blue in the form) are read-only fields. To modify the list of participants or contact persons, please go back to the Participants step. To modify the legal data of the organisation, please read more about it in this Data Updates section.

**Guidance in the form**

If you click on the question marks in blue, you can read more information about the sections.

Each box of the form contains a short text with guidance on the format, the length and required information. Guidance for the fields displays when you bring your cursor over the boxes. Once you click on the text or start editing the information, it disappears automatically.

**Navigation in the form**

To view the different sections, you may either use the navigation in the header of the form or click on the Show buttons in the table of contents (cover page).

**Validation**

The form has built in checks and gives error or warning messages in case fields are not completed.

Please click the \[ Validate \] button to check your data. Errors and warnings will be listed at the end of the form. Error fields will be highlighted in red, whereas warnings will be highlighted in yellow.

Errors mean that mandatory information is missing (such as the Proposal Title). The proposal cannot be submitted until these errors are corrected.

Warning messages do not block submission, but they indicate missing information that may be important for the proposal. Ideally, these warning messages should be addressed by correcting the information provided.

By clicking on the Show button, you can easily get back to the respective fields to correct them. See Validating, saving and closing the form for more details.
Saving the data

Clicking the **Save** button saves your input at any moment. Please note that no data is actually saved until you perform the saving action. You can continue editing after clicking on **Save**.

Before closing the form, click the **Save&Close** button. It just saves the data and closes the form for further editing later on, but it does not mean that the proposal is submitted yet. This will take you back to **Proposal forms**, where you can upload the technical annex and any additional documents. You may return to edit the form as many times as you wish before the closing date of the call. However, remember that any changes saved in the form need to be resubmitted, if you already submitted the form once.

Please note, the eForm allows you to go back to **Proposal forms** in the submission wizard by either clicking the Proposal forms button in the cover page of the proposal (backwards button) or the Proposal forms button of the validation results page (forward button). In any of the two cases, leaving the form using these buttons does not save your changes, so please make sure to save the form first:

Action buttons within the form

The action buttons in the form help you find and verify the information easily. Two of them correspond to saving actions, as explained above, the other one checks for errors in the form:

<table>
<thead>
<tr>
<th>Button</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Validate Form</td>
<td>When you click this button, all data fields in the form will be validated against a set of rules.</td>
</tr>
<tr>
<td></td>
<td>The system assesses if the available data is valid, checks the data formats, performs computations, and checks interlinked data for consistency.</td>
</tr>
<tr>
<td></td>
<td>Any issues found in the form are reported at the end of the form.</td>
</tr>
<tr>
<td>Save&amp;Close</td>
<td>Click to save your input in the administrative form and close it for later editing.</td>
</tr>
<tr>
<td></td>
<td>You can save your form data even if the form is not completely filled in - you can edit it at any moment prior to the deadline. <strong>Save&amp;Close</strong> does not validate the data nor submit your proposal.</td>
</tr>
<tr>
<td>Save</td>
<td>Click to save your input until that moment, and continue entering new input afterwards.</td>
</tr>
<tr>
<td></td>
<td>No data gets saved until the <strong>Save</strong> or the <strong>Save&amp;Close</strong> buttons are clicked.</td>
</tr>
</tbody>
</table>
Editing and completing the form

When clicking the button in the submission wizard, Proposal forms screen; the form opens in the first page within your browser. This first page includes the table of contents and the Call information. You can return to this screen by clicking the button at any moment, to be able to navigate to any of the sections in the form by clicking the Show button in the Table of contents:

To start completing the form, use the navigation buttons on the banner in order to advance through the different sections:
Then, fill in the corresponding fields for each section:
When filling the form, if you need a clarification about a section you can click on the question mark buttons to get a text explaining about what to provide for that field/section:
Important note: If changes are applied to the consortium data (Participants screen) while the form is open or after having been edited, you need to reopen the form and validate it before being able to submit your proposal. Check Validating, saving and closing the form to know how to do so.

Validating, saving and closing the form

You can click the Validate Form button to make sure that your proposal form is correct and complete. Validating the form must be done before being able to submit. If you do not run it via the Validate Form button, when you finish filling the form you will automatically arrive to the validation step, as the last step in completing the form.

Note: For the calls with multiple participants, every participant’s page needs to be visited at least once to be able to validate the section. Otherwise, you will receive a blocking error: “This section has not been validated yet”.

You will be presented with any errors/warnings. Validate your results by reviewing the indicated errors/warnings. Click on the Show Error / Show Warning buttons to go to the affected parts:

The error/warning will be highlighted for you in the form. Amend contents accordingly. Any errors must be corrected in order to be able to submit your proposal. Warnings will not prevent you from submitting.
If the errors/warnings are related to missing data for the participating organisations or main contacts in the consortium, the **Show Error / Show Warning** buttons will take you to the part in the form where you find those problems, but to fix this specific issues you need to **Save and close** the form and go back to the **Participants** screen in the wizard. After any change in **Participants**, you need to re-validate the form.

When all issues are fixed, click the **Save & Close** button. Your form has now been saved on the Commission servers, but it is not yet submitted. Your proposal submission takes place next.

**Part B - Downloading and completing the annex forms**

Click on **Download part B templates** to download all the latest **proposal requirements templates** as editable files.
The template describes the information that must be included in your application and how to structure that information. You will need to complete this package as thoroughly as possible. You can receive assistance from the contacts listed in the Get Support section on the topic page from the Funding & Tenders Portal. It is important that you remain within the file size and page limits that a proposal may have. Once you have completed your proposal based on the downloaded template, you must convert it into a PDF file, which you will then upload as an Annex form of the proposal. This is referred to as Part B of your proposal.

In the Part B and Annexes section, you will see a small coloured vertical line at the left side of the different fields to upload documents: if this line is green, it means that the field is completed successfully and, if the line is red, it means the field is incomplete.

**Part B - Uploading the annex forms**

When you complete the annex forms, you must prepare them for uploading. Only the coordinator of the proposal can upload files in Part B. All annexes must be in PDF format, except if a different format is specifically mentioned in the attachment info (under File type).

A number of limitations and requirements are in place for each of the forms, depending on the call – such as, page size and page limit, document size limit, etc.

⚠️ **Important:** Please avoid encrypting and/or using digital signatures in your PDF forms, as technical issues may occur in the process of uploading them.

**Note:** Make sure that you first familiarize yourself with all the specific annex form limitations and requirements in the documentation available in the respective call information package on the Funding & Tenders Portal. Depending on the file, your proposal could be considered ineligible if any of these formal requirements are not met. Click the question mark for each attachment in order to display the specific limitations applying to that specific attachment:

The breach of certain limitations, such as document size limits, could result in failure to upload. As a result, you may need to amend the documents and upload them again. If you exceed the page number
limit, when applicable, you will be still able to upload the document but all of the excess pages will contain just a watermark as content.

You will also see the following warning, informing that the content of those water marked pages will be dismissed during the evaluation session:

In the process of completing your annex forms, and prior to uploading them, make sure that your documents comply with the mentioned requirements and recommendations, as generally outlined below:

1. **PDF conversion issues and checks:**
   - Before you start the conversion to PDF, **clean up** your document - accept all tracked changes, delete internal review notes or comments, check for any formatting issues, and so on. The document to be converted into PDF must **only** contain the final, "clean" content.
   - Check that your PDF conversion software has successfully converted **all the pages** of your original document (e.g. check for any problems with page limits, tables, graphics or footnotes).
   - Check that your PDF conversion software has not cut down pages with **landscape** orientation to fit them into **portrait** orientation format.
- Check that captions and labels have not been lost from your diagrams.
- Embed all fonts in the PDF file (math symbols, non-Latin alphabet text, etc.).

2. Limitations in document page number, font size, and page margins: each form template, depending on the specific call, may impose certain limitations in the document formatting with regard to the maximum number of pages in the document, the minimum/maximum font size allowed, and/or the minimum margins you must allow for the page layout.

Always make sure to check and apply the guidance for the specific call, available on the Funding & Tenders Portal, as well as the instructions at the beginning of the annex form templates for each specific call.

If you attempt to upload an annex form that contains more pages than the specified limit, you will not be blocked by the system. However, after the upload, the system will display a warning message, advising you to shorten and re-upload the proposal.

If the number of pages in one of the uploaded documents still exceeds the allowed limit and the deadline has not yet expired, you will see an Eligibility Warning advising you to shorten and re-upload the file.

3. Document files size: the allowed file size of annex forms may be limited, too. Check the guidance documentation available in the Topic page information package on the Funding & Tenders Portal.

When the document file size exceeds the allowed limit, the file will not be uploaded and the system will display an error message immediately during the upload process, as shown in the picture below:

4. Graphical resolution: use a maximum resolution of 300 dpi for all graphics and text (photocopy quality). This can considerably reduce the PDF file size.

5. Documents file name and security:
   - Ensure that the annex forms file names contain alphanumerical characters only (A-Z, 0-9).
   - Do not protect the uploaded files with a password.
   - Make sure that the uploaded files are not electronically signed nor encrypted.
6. **Post-upload verification:** once you upload your files, check their quality - download them to check whether the file transfer was successful and if the file is complete. If not, make the necessary corrections and upload again.

**Note:** Make sure that the files you upload can be opened without any problems. If the Commission encounters a problem when opening a file you have uploaded as part of a proposal, the complete proposal may be considered ineligible if it is one of the required annexes.

Also note that only one file per category can be uploaded. That means that if you have several documents (e.g. CVs) they need to get merged in a single PDF file with a maximum size of up to 10MB.

Once the downloaded templates have been completed and are ready to upload, follow these steps to upload them:

1. **Click the button for the respective document in Proposal forms of the submission wizard:**

2. Select the file to upload from the **Open** window. If your file has blank spaces in its name, the system will upload it filing the blank spaces with "_".
3. Click on **Open**.

**Note:** If the file uploaded is not in a PDF format, an error message will appear, you need to convert the file into pdf before uploading:

![Image showing file management interface](image)

4. Optionally, you can click on **Delete** an uploaded file to remove it and replace it with a new file.
Part C

Depending on the type of call, filling in an additional form will be required: Part C. This web form can be found in the wizard as shown below:

After clicking on the **Edit Part C** button, the web form will open:
When you have completed it, click on the **Save data** button.

**Validate and submit your proposal**

To make sure that your application meets the requirements run a validation of your draft proposal. To do so, you click on the **Validate** button at the bottom of the submission application. In order to make your application meet the requirements of partners, file sizes, number of pages, etc., you will be prompted to correct any errors that have been detected in the forms. Any errors will be displayed as indicated below:

![Validation Screen](image)

Please note that this action is not exactly the same as clicking on **Validate form** within the form. When you run a validation from within the form, the validation checks only the content of the form, i.e. the administrative form in **Part A**.

When you run a validation from the submission application via **Validate**, you run a validation of your whole draft proposal. This includes all fields in **Part A**, the uploaded files under **Part B and Annexes** and the presence of a saved **Part C** (if available for the call).

The following screen shows the results of validating the whole draft proposal:
You have links for the errors and warnings. Clicking on them will expand the details for the error with new links. By clicking on these new links, you will access the affected parts in the form.

You are advised to run both validations in different moments. When filling in the form, use the Validate form functionality within the form. Before submitting your proposal, run a validation from the submission application to check if your application is ready to be sent by clicking on the action button Validate.

Part of the validation can include reviewing previous steps, such as the Participants screen, or they can be related to the Part B annexes, and not only the form Part A.

When the issue is that the consortium has been modified after having edited the form Part A, you will get the following message. Click Edit Form, review the participants section and click on Save and Close. Then click on Validate again, back in the Proposal Forms screen.

If only warnings are found, and not blocking errors, you may submit any way. After submitting, you will have the opportunity to enter a justification for the remaining warnings:
The Submitted status will also be shown on the My Proposal(s) page of the Funding & Tenders Portal. The Proposal Coordinator will also receive a submission confirmation e-mail, including details about the submitted proposal. Note that the e-mail could end up in the spam folder or get blocked by the anti-spam software of your organisation, so make sure that you check your inbox regularly.

The submission is completed when the Proposal Coordinator clicks on Submit, and the confirmation email has been received. Uploading the Annex documents only, does not finalise the submission process.

It is highly recommended to submit your proposal as early as possible and at least 48 hours prior to the call deadline. This will avoid being confronted with incompatible local IT configuration settings shortly before the call deadline, when insufficient time would be left to handle it. There is no reason in delaying the submission for confidentiality concerns as the system does not allow any access to the proposals before call deadline or cut-off (other than to selected data that is part of the Terms and Conditions for the Submission of Applications). You can submit the proposal as many times as you wish up to the deadline. Every submitted version will replace the previously submitted one.

Each time you upload a new Annex document, you must click Submit to formally submit your changes.

Submit

Reaching Submit screen means that your proposal has been successfully submitted and therefore sent to the European Commission services for evaluation.

In this screen, you can carry out the following actions, as indicated in the picture below:
Update the proposal

If you need to revise your proposal, click the Update proposal button to go back to Proposal forms. The Proposal Coordinator may continue to modify the proposal and submit revised versions overwriting each preceding one right up until the deadline.

**Note:** It will not be possible to edit proposals for calls which are already closed.

eReceipt: download the submitted proposal package

After submission of the proposal, it is advised to download your proposal in order to check that it has been correctly submitted.

A digitally signed and time-stamped version of the latest submitted version of your proposal can be viewed / downloaded.

Click the Download button to download your proposal.

**Note:** Depending on the volume of proposals submitted, this signed and time stamped version can take from a few seconds up to several hours to be visible in the submission application. If you cannot wait, alternatively you can go back to the Proposal forms and use the print-preview button to download the form A, except if the call has reached already the deadline and the status is closed.

Withdraw a submitted proposal

If your proposal is withdrawn, it will not be considered for evaluation. However, the system will keep the proposal draft and the withdraw action may be reversed by re-submitting the proposal before the call deadline. You will have to enter a reason for the withdrawal.

When a proposal is withdrawn, a message is displayed on the screen informing that the proposal currently holds that status. An e-mail is also sent to the Proposal Coordinator, including the details of the withdrawn proposal. Note that the e-mail might get lost in your spam folder or get blocked by the anti-spam system of your organisations, so make sure that you check for it as needed.

To complete this action, click on the Withdraw proposal button.

If you wish to withdraw a proposal after the deadline, you need to request it via the IT Helpdesk. For more information see the Online Manual.

Partners

To be added, a partner must have both an EU login and a PIC for his/her organisation. When the Proposal Coordinator clicks save in the Participants screen, an automatic email will be sent to all the Partner contacts with the proposal related links.

A partner contact without an EU Login will be prompted in the proposal notification email to register in the application.
Once the Partners enter the electronic submission system, they will launch into the Proposal **forms** screen of the submission process where the **button enables them to access the electronic administrative forms and the rest of the proposal package and maintain the parts related to their organisation, only.**

To access the consortium contact details, they will need to click the **button – thus going back to the Participants screen of the submission process.**

**Completing the forms**

When the form is opened, the partner will have to verify or fill in their administrative form and make sure to correct any validation errors. To check for validation errors, partners must use the Validate form button located at the top of the form. The process is the same as explained under the section **Validating, Saving and Closing the Form** above.

Please note that only the proposal coordinator will be able to upload files for the Part B.
Chapter 3: Reference guide to roles, screens and tasks

Roles: Proposal Coordinator, Partner and Contact Person

The roles that are available in the system are the Proposal Coordinator, Partners, and Contact Persons (optionally). The Proposal Coordinator and each of the Partners have a Main Contact and can optionally have one or more additional Contact Persons. Depending on the proposal you participate in, you might act on behalf of one or more of these roles and your current role will determine the actions you will be able to carry out, as well as determine the information that you will be required to provide.

- **Proposal Coordinator**: the Proposal Coordinator acts as the single point of contact between the participants and the Commission for any given proposal. The Proposal Coordinator is generally responsible for the overall planning of the proposal; for building up the consortium that will do the work, and (s)he is always the first participant. Note that for some calls, only one participant is needed and the participant will be the Proposal Coordinator of the given proposal by default.

- **Partner**: if you are a Partner to a proposal, you will be invited by the Proposal Coordinator to fill the administrative forms that contain the contact and address details. Most of the fields will be pre-filled with information already provided to the Commission services in order to save time and to ensure better data quality.

- Partners may also have **Affiliated Entities** linked to them (through a permanent legal or capital link or as members of an association; former Linked Third Parties). Affiliated Entities are allowed to fully participate in the grant and claim costs. They must comply with all eligibility conditions (same as a Partner).

- **Associated Partners**: this kind of participating organisation contributes to the project but cannot claim costs. They are normally not linked to any Partner and do not need to comply with the eligibility conditions.

- **Contact Person**: optionally, a Proposal Coordinator or a Partner may decide to delegate some of the work involved in filling in or reviewing parts of the proposal submission forms to one or more additional Contact Persons. You can grant each Contact Person full access rights or read-only access to the forms data. A Contact Person will only be entitled to edit/view the parts of the proposal that his/her organisation is responsible for.

**Note**: A Contact Person with full access rights cannot change their own access rights level to ‘read-only’ – this can only be done by the Proposal Coordinator or another user with full access rights.

However, a contact person with access rights to a proposal will be notified whenever they are deleted from the list of contacts pertaining to an organisation. When an entire organisation (including all of their contacts) is deleted, all contact persons will receive an email informing them that their access rights to this particular proposal have been revoked.

- **Calls with Specific Contact Roles**: most calls use the standard Main Contact and Contact person roles for the Proposal Coordinator organisation. However, some calls may require more specific roles, such as **Principal Investigator**, **Main Host Institution Contact**, **Researcher**, **Supervisor**, **Applicant**, and so on. Calls of this type are pre-configured accordingly so that the
Proposal submission forms for them contain special sections to address the specific roles and the respective data as needed. Likewise, the Proposal Submission Wizard for these calls will display the respective role options, as configured for each call.

Changing Main Contact information

Only one Main Contact is allowed for each organisation. However, for business reasons, you may need to change the Main Contact person details after the initial Main Contact assignment. For example, you can edit the Main Contact details of the existing person, or you can assign an existing Contact Person as the Main Contact replacing the original one, or you can first delete the Main Contact and then add a new one, etc.

When the information about the existing Main Contact changes (or when you delete it), the system will display a confirmation prompt warning you that you would lose the previous Main Contact data. If you change an existing Contact Person as a Main Contact, or if you add a new contact person in the Main Contact role, the previous Main Contact will automatically become a Contact Person – the two roles will be reversed.

Role rights

Differences between a Proposal Coordinator’s and a Partner’s actions:

<table>
<thead>
<tr>
<th>Action</th>
<th>Proposal Coordinator</th>
<th>Partner</th>
</tr>
</thead>
<tbody>
<tr>
<td>Select the call</td>
<td>Yes</td>
<td>No</td>
</tr>
<tr>
<td>Add, Invite Participants</td>
<td>Yes</td>
<td>No</td>

<td>Yes</td>
<td>No</td>
</tr>
<tr>
<td>Read complete proposal</td>
<td>Yes</td>
<td>Yes</td>
</tr>
<tr>
<td>Define the budget tables</td>
<td>Yes</td>
<td>Yes, with rights to fill in only the row for their organisation.</td>
</tr>
<tr>
<td>Create Contacts for a Partner</td>
<td>Yes</td>
<td>Yes, with rights to fill in only the information for their organisation.</td>
</tr>
</tbody>
</table>

The timeline around the deadline

Proposals can be submitted multiple times before the call deadline specified in the information package of the call, available from the Funding & Tenders Portal. Calls deadlines are fixed and will normally not be extended. Only the most recently submitted version will be evaluated, and each newly submitted version overwrites the previous one. After the call deadline, the proposal can no longer be modified and no further participants can be invited. Practise the proposal submission procedure well before the deadline to ensure a risk-free submission of your proposal and proper correction of errors and warnings.
After the deadline, the proposal remains available in read-only mode and can be accessed by the coordinator and the proposal participants.

The Online Submission Wizard: available actions per screen

The electronic submission system screen is composed of different elements. See below to get familiar with them:

1. Progress bar

A progress bar banner, which shows the proposal completion progress. It shows in which step of the process you are right now, marked with a red indicator. The previous steps are colored in
green once you have completed them, taking into account that the first two steps are performed in the Funding and Tenders Portal prior to accessing the submission wizard. **Proposal information panel**

Displayed on the left hand side of the screen, it is the ID card of your proposal. The information displayed there is completed as the user progresses. It also shows useful information such as the submission deadline for the corresponding call.

2. **Configuration status check tool**

It is displayed at the bottom left part of the screen. In the visual example above, the configuration complies with the minimum requirements.

This part also allows downloading the Part B templates in RTF format, and it includes links to the help wiki site and the Online Manual.

3. **Action buttons**

Buttons for the available actions. They will be different depending on the step in which you are. The ones above, corresponding to the **Proposal forms** screen, are connected to editing the administrative form Part A and uploading the Part B documentation. In the **Participants** screen, they will consist of actions to add/remove partners, etc.

4. **Proposal navigation buttons**

Available at the bottom right corner, they allow you to go from one step to another, validate the content of the proposal and to submit your proposal.

There are no more navigation buttons in the **Submit** screen, where only action buttons will be available as explained in the **Submit section**.

**Create proposal**

The picture below shows the **Create proposal** screen of the wizard. 7 actions are available there, each one indicated below with a number shown in the image that follows:

1. Enter your organisation search criteria.
2. Alternatively, select a previously associated organisation.
3. Click on the **Search** button to start the organisation search procedure.
4. Select your role, either **Main Contact** or **Contact person**.
5. Enter a proposal acronym.
6. Enter a proposal short summary.
7. Click the **Save and go to next step** button.
Participants

The picture below shows the **Participants** screen within the wizard. You will be able to perform these 8 actions, indicated on the picture via a number:

1. Click on the **Add Partner** button to add a new Partner.
2. Click to display guidance on the Participants section of proposals.
3. Warning on the required number of participants. It will be different from call to call.
4. Add contact: it will allow you to specify a contact for that organisation.
5. Displays information about Main contacts, access rights and invitation sent by the system.
6. Edit contact, allowing you to modify the contact details (i.e. name, access right and project role) or remove it.
7. Displays the email address and access rights in the project for a given contact.
8. **Save and go to next step** button, allowing you to move into the **Proposal Forms** screen.
9. Edit participant name within the project.
Buttons in the Participants screen

You can perform the following actions for an existing partner organisation using the buttons described below:

1. Delete participant
Click this button to delete any participant except the coordinator. Clicking this button for a given participant will remove the organisation from the partner list. This includes any contacts which were provided. Therefore, those contacts will lose their access to the proposal.

2. **Info**

Click this button to display a help window explaining how you can manage the contact person(s) and what the **Main Contact person** role means, as well as what kind of access rights the contacts you provide will receive.

### Add contact (where applicable)

You can manage the list of organisations and access right of persons at Step Participants. You may identify and give access to as many contact persons of the selected organisations as you wish. The identification is based upon the e-mail address of the person. When you add a contact person, you will be prompted to supply the contact details: name, e-mail, phone.

**Main contact person:** Each organisation needs to have one main contact person identified; the main contact person will have to fill in full contact details in the administrative form. The ‘Main Contact Person’ for the coordinating organisation (Participant no. 1) will become the primary contact person for the Services. Other contact persons may also be identified and may receive read-only or full access rights. Contact persons with full access rights of the coordinator (Participant no. 1) will be called ‘Coordinator contacts’ in the Funding & Tenders Portal, while for the other participants ‘Participant Contacts’; contact persons with read-only rights will be called ‘Team Members’. Other contact persons are listed with basic details in the administrative form.

**Access rights:** The main contact person and contact persons of the coordinator with full access rights have the same level of rights: they can manage the list of participants and contacts, edit any part of the administrative part of the proposal and upload any attachments (e.g. technical annex), and submit the proposal. Contact persons with read-only rights can only view/download the information. Participant contacts with full access rights can only edit their section of the administrative form and view all proposal data.

Access rights can be revoked by the Coordinating Organisation contacts. The person who created the proposal cannot be deleted.

**Invitation:** All contacts will receive an e-mail and a notification to the Portal about the invitation to the proposal upon saving the data at Step Participants.

3. **Add contact**

Click this button to add a new contact to an existing partner company.

4. **Edit existing contact:** Click this button to edit an existing contact.

5. **Delete existing contact**

Click this button to delete an existing contact.

**Note:** You cannot delete a contact when this user is currently logged in.
6. **Contact information**

Click this button to see more information about that specific contact. The name field will expand showing the email address and access level of the contact within the proposal.

7. **Change organisation**

Click this button to replace the existing organisation (PIC). Upon clicking on this button, following message will be displayed:

![Confirm organisation change](image)

If you proceed, you will replace the current PIC number and the details of the organisation with a new one. All existing contact persons and their access rights will be kept, but under the new PIC number.

Next steps following the changes:
- Please review and manage the access rights linked to the new PIC number.
- Open/re-open the Part A, administrative form to modify/save the new organisation and contact details.

Are you sure you want to proceed?

After clicking **Yes**, you will get the **PIC search** window. Coordinator contacts with full access rights can change the contacts for the new selected partner if needed.

8. **Contact organisation**

Click this button to contact the LEAR or/and the Account administrator of an organisation.
Proposal Forms

The picture below shows the **Edit proposal** screen of the wizard:

1. Click to open guidance on editing the proposal forms.
2. Click to open guidance on editing the Administrative forms (Part A).
3. Action buttons for the Administrative forms in Part A.
4. Click to open guidance on annexes and Part B forms.
5. Click to upload required Part B document.
6. PDFNavigation buttons.

Submit

The picture below shows the **Submit** screen of the wizard. There are basically 3 actions that you can take in this screen:
1. **Update proposal**: allowing you to change the content of your proposal. Please note that you will need to submit again for the changes to be reflected. Also, this action is available only until the call closure date/time is reached.

2. **Download**: allowing you to download a digitally signed copy of your proposal. This will not be available immediately after submission. If the copy is not available yet, you will get a message asking you to wait a bit longer.

3. **Withdraw proposal**: this allows you to withdraw your proposal so that it does not go to the validation phase.

   If the call is still open when withdrawing, the entered data will be available and you will able to edit and submit again. The button **Update proposal** will be again active for such an aim.

   If withdrawn, a message in red will appear on the screen, informing that the proposal will not be considered for evaluation.

   This proposal was withdrawn on: 09 February 2021 23:46:04 (Brussels Local Time) and will not be considered for evaluation. You may still submit your proposal before the deadline by clicking on the "Update proposal" button below.
The Funding & Tenders Portal: screens and access to submission tasks

The Funding & Tenders Portal is your entry point to the Online Submission Service. It allows you to carry out the following actions:

- Familiarize yourself with the overall research and innovation grant process by first consulting the How to participate tab on the Portal.
- Decide on the funding opportunity that you want to apply for.
- Select your Partners – check Partner information in the Participant register section.
- Register as a user for the EU Services by creating an EU Login.
- Register your organisation and your Partner organisations in the Participant register section.
- Log into the Funding & Tenders Portal and select your topic to access the Online Submission Service.
- Use the Manage my area, My Proposal(s) and My Organisation(s) pages to access your draft and submitted proposals.

Funding & Tenders Portal: before you log in

Create an EU Login or, if you already have an account, log in with your registered email address. Before logging in, familiarize yourself with the grant process, the funding opportunities and check the Partner information:

Funding & Tenders Portal: the EU Sign in screen

When you click Login, you will be prompted to log in through the EU login screen, as shown in the picture below. This screen appears in the same window. After entering your credentials and logging in, you will be redirected to the Home page of the Funding & Tenders Portal:
Funding & Tenders Portal: the EU Login and Manage my area

Once logged in, your personalised My area displays on the left, under Manage my area. Here you can access your Organisations, Proposals, Projects, Notifications, etc. Please note, Manage my area shows only the section for which there is existing data. For instance, if you do not have any proposals yet, you will not see My Proposal(s) on the left:
Funding & Tenders Portal: the How to participate page

Select **How to participate** from the upper menu. This page is your main source of information as you prepare for submitting your proposal:

- Have an overview of the submission process by clicking on **Key steps**.
- Access the Reference documents for each funding programme by selecting **Reference documents**. Then select a funding programme and the different available reference documents will be displayed:
  - Register an organisation via the **Participant register** section, by selecting **Participant register** under **How to participate**.
  - Look for potential partners using the **Partner Search** functionality.

**Funding & Tenders Portal: the Participant register page**

The Participant register page is accessible via the **How to participate** tab. It allows you to:
- **Search** the registered organisations database and check if your desired Partners’ organisations are already registered with the European Commission.
- **Start** (or **Resume**) your organisation registration process via the [Participant Register](#) application.

## Appendix A: Compatibility and system configuration

### Recommended system configuration

The electronic submission system of the European Commission is a web application. Therefore, a working Internet connection is needed in order to use it. Although the system has been tested with a set of typical reference configurations, it is not guaranteed that the application will be fully functional on your computer. The system provides a diagnostic window that will warn you about some possible incompatibilities.

To use the electronic submission system, ensure that your computer configuration complies with the following mandatory system requirements:

<table>
<thead>
<tr>
<th>Component</th>
<th>Recommended configuration</th>
</tr>
</thead>
<tbody>
<tr>
<td>Internet connection</td>
<td>DSL Line, 2.0 Mb/s or faster</td>
</tr>
<tr>
<td>Memory</td>
<td>RAM – 4 GB or more</td>
</tr>
<tr>
<td>------------</td>
<td>--------------------</td>
</tr>
<tr>
<td>Screen resolution</td>
<td>Minimum 1680 x 1050 of higher</td>
</tr>
<tr>
<td>JavaScript</td>
<td>JavaScript must be enabled</td>
</tr>
<tr>
<td>Cookies</td>
<td>Cookies must be enabled</td>
</tr>
<tr>
<td>Pop-up blocker</td>
<td>Website should be white-listed in the pop-up blocker</td>
</tr>
<tr>
<td>User ID</td>
<td>A valid EU Login account</td>
</tr>
<tr>
<td>PDF Reader</td>
<td>A PDF reader application will be needed in order to use the functionality of print preview, as well as being able to check the annexes in Part B, since they have to be uploaded in PDF format.</td>
</tr>
</tbody>
</table>

**Recommended browsers**

The following table shows the operating systems and browsers actively supported by the system. This configuration will provide you with a fully enhanced experience:

<table>
<thead>
<tr>
<th>Operating system</th>
<th>Internet browser</th>
</tr>
</thead>
<tbody>
<tr>
<td>Windows 7, 8 &amp; 10</td>
<td>Chrome 86 or newer</td>
</tr>
<tr>
<td></td>
<td>Firefox 78 or newer</td>
</tr>
<tr>
<td></td>
<td>Microsoft Edge 44 or newer</td>
</tr>
<tr>
<td>Mac OS X from 10.10</td>
<td>Chrome 86 or newer</td>
</tr>
<tr>
<td></td>
<td>Firefox 78 or newer</td>
</tr>
<tr>
<td></td>
<td>Safari 13 or newer</td>
</tr>
</tbody>
</table>

**Note:** The use of mobile devices for online submission of research proposals is not supported for now.
Troubleshooting document structure (eReceipt: *Signature not verified message*)

You receive the following message: "The European Commission digital signature (eReceipt) of the submitted proposal is not validated" after downloading your submitted proposal.

The following procedure is only applicable for Windows operating systems. After downloading the submitted proposal:

1. Click **signature** located at the table of contents page.
2. Click **Signature Properties…** in the Signature Validation Status window:

   ![Signature Properties](image1)

3. In the Signature Properties window click **Show Signer’s Certificate…**

   ![Show Signer's Certificate](image2)

4. Select the **Trust** tab and Click **Add to Trusted Identities** in the Certificate Viewer window:

   ![Add to Trusted Identities](image3)

5. Click **OK** in the Acrobat Security pop-up window to confirm.
6. The **Import Contact Settings** window should be displayed:

7. Tick **Use this certificate as a trusted root**; and then click **OK**.
   **Note**: ticking **Certified documents** is not required.

8. In the **Signature Properties** window click first **Validate Signature** and then **Close**:

9. The Commission digital signature or eReceipt should be validated now:
Appendix B: EU Login registration

To use the Online Submission Service, you need to have a personal user account with the European Commission Authentication Service (i.e. an EU Login).

To create an EU login, follow the instructions below.

**Note:** For additional information, see the [Online Manual](#).

**EU Login registration steps:**

1. Go to the Funding & Tenders Portal:
   
   https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/home

2. Click **Register**.

3. The **EU Login – Create an Account** screen will be displayed, fill in the fields accordingly:
All fields in the registration form are mandatory.

5. Enter your First name and your Last name.

6. Enter your E-mail. When registration is complete, a confirmation email will be sent to this email address.

7. Enter your e-mail address again in the Confirm e-mail field. You will receive an error message and you will have to enter the email again if it does not match the e-mail address provided in the Submit step of the submission wizard.

8. Select the E-mail language that you want the European Commission to use in the e-mail communications sent to you.

9. In the Enter the code field, enter the five characters shown in the blue box above the field. For security reasons, the characters are not displayed clearly and may not be copied from the blue box.

   If you cannot read the characters in the blue box or if you are entering them but you are receiving an error message, try the following:

   a. Click ![Reload](#) to reload a different character combination and enter it in the Enter the code field.

   b. Alternatively, click on ![Listen](#) to hear an audio recording of the characters in English. You will need to use your computer speakers or headphones – make sure you have adjusted the volume to a comfortable level.

10. Read the privacy statement by clicking on the link. If you agree with it, close the privacy statement window and tick the privacy statement box acceptance under the Enter the code field.

11. Click Create an account.
12. If you have not provided the required information in the fields, or you have entered a wrong code or an email address in an incorrect email format, the system will prompt you to go back and correct the errors before you can sign up.

13. A message displays confirming the creation of the account. The system will send you a confirmation email to the email address you provided in the sign-up form. Open the email and click the activation link provided to activate your account. You have a maximum of 24 hrs, starting from the time the message was sent, to create your password.

   **Note:** Make sure to check your spam folder if you cannot find the confirmation email in your inbox.

14. Enter a valid password following the instructions on the screen.

15. A message on the screen will confirm that the password has been changed (‘changed’ in this context means that your password has been set).

16. Click on **Proceed** to log in automatically to your new account, or go back to the Funding & Tenders Portal:

   Then click **Login**.
## Glossary

This is a glossary concerning the current document; check here the Funding & Tenders glossary for more terminology:

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
</table>
| Applicant           | Generic term for any person/organisation that prepares and/or submits a proposal. There are two types of applicants:  
- The proposal coordinator  
- The partner  
  
The Proposal Coordinator role is allowed to register and to submit the proposal, while the Partner role is only involved in the preparation of the proposal.  
  
Synonyms: Partner |
| Beneficiary/Participant | A beneficiary or beneficiary of the European Union funds refers to the legal entity that signs a grant agreement and/or procurement contract (i.e. the grant beneficiary and/or contractor) with an "entity managing EU funds". Depending on the management mode this entity may be the European Commission, a beneficiary country, an international organisation, or a Community or national agency.  
  
Subcontractors or suppliers as well as partners/consortia members of the beneficiaries are not concerned (http://ec.europa.eu/europeaid/work/funding/beneficiaries_en.htm)  
  
Synonyms: Participant  
  
Broader term: Partner |
| Call                | An invitation for third-parties to submit a proposal in order to get funding. Calls cover specific research areas and are always issued in the context of a Work Programme.  
  
**Call for proposals**  
Procedure to invite applicants to submit project proposals with the objective of receiving funds from the European Union.  
  
The European Commission publishes calls for proposals. It is an official invitation to submit a project proposal for a specific area of a framework programme by a specific date. Calls specify very clearly what is required in the Work Programme. Calls for proposals on the Funding & Tenders Portal. |
| Consortium          | A Consortium is a group of Participants, one of which is identified as the Proposal Coordinator in the proposal submission. A nominated Proposal Coordinator Contact, who is normally an employee of the Proposal Coordinator Organisation, but acting on behalf of all for most aspects of the project, will represent the Consortium to the EU. In the context of a running project, the following constraints shall hold:  
- There shall be exactly one Proposal Coordinator Contact within each Project Consortium.  
- The Coordinator Contact identified in the Project proposal shall be a person, nominated from within the Coordinator Organisation, to be recognised by the Commission as the primary point of contact between it and the Consortium.  
- Each Partner in the Consortium shall nominate a Partner Contact as its representative in the Project, who shall also be identified to the Commission.  
  |
| Deadline            | For each particular call, this is the moment after which proposals cannot be submitted to the Commission. At this point the Submission system closes for the respective call. Deadlines are fixed and strictly enforced. |
| ECAS                | The old name for the European Commission's Authentication Service. Its name has been changed into EU Login, but you could encounter some documents or screens still referring to the EU Login as ECAS. See EU Login below for more information. |
If your proposal is successful, you will also need to know about the following (see the Online Manual available from the Portal under the Support section):

- **Participant register**: An electronic system that enables organisations to register their details once and then use this registration for one or more participations, thus eliminating the need to provide the same information for multiple proposal submissions. The Web interface of the Participant register is accessible from the Funding & Tenders Portal:
  - https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/how-to-participate/participant-register
  - The Participant register also provides an organisation search tool where you can check if your organisation has already been registered as a participant.

- **Part A**: This is the part of a proposal dealing with administrative data. It is completed using the web-based electronic Submission system.

- **Part B – Template**: This is the part of a proposal that explains the work that must be carried out, and the roles and aptitudes of the participants in the consortium. This part is uploaded to the electronic Submission system as a PDF file. The template documents are intended to provide you the topics needing development as part of the proposal. They are supplied by the Commission and downloadable in Proposal forms of the Submission wizard. They are provided in RTF format, consisting of a template of all chapter headings, forms and tables required to prepare a proposal Part B.

- **Part C**: Depending on the type of call, filling this additional web form will be required.

- **Proposal Coordinator**: The Proposal Coordinator leads the submission process of the proposal and is the only applicant recognised by the Commission.

To avoid the existing confusion, a difference is made between a Proposal Coordinator Contact and a Proposal Coordinator Organisation. See Proposal Coordinator below for more information.

If you want to participate in a project proposal, your organisation needs to be registered with the Commission. Registration available from the Funding & Tenders Portal via the Participant register page, where you can check if your organisation is already registered. If not registered, you can start the registration process on the same page and you will be redirected to the Participant register to complete the process. The same process applies for participant registration data updates – you access your organisation from the Portal / My Organisation(s) page and from there you can go to the Participant register to update your organisation data.

If your proposal is successful, you will also need to know about the following (see the Online Manual available from the Portal under the Support section):
### Term | Definition
---|---
the checks carried out on the information you provide on registering  
appointing a representative (LEAR)  

Ideally, a **LEAR** is identified to be responsible for provision and maintenance of the Participant's legal and financial data. However, until a LEAR is identified and validated, this data may be maintained by the person who initially registered the organisation.

**Participant Identification Code (PIC)**

The Participant Identification Code (PIC) is a 9-digit unique identifier for every validated organisation. Participants will not have to submit their legal and financial information (and supporting documents) each time they submit a proposal or negotiate a grant agreement, but just their PIC.

However, if there has been a substantial change in the legal or the financial information since validation took place, they could be requested to provide supporting documents for the change via the **Participant register**.

**Proposal**

A set of documents submitted by third-parties in response to a particular call, in an effort to get funded by the EC after evaluation. The main elements of a proposal are the administrative forms and the proposal text.

A proposal is a proposed project. Proposals are submitted following a call for proposals by consortium/partners with the goal to be selected and get funded.

In order to get funding for a project, applicants have to write a complete and detailed proposal describing the objectives, planned activities and relevance with the corresponding Call's Activity(-ies). Proposals are individually evaluated by a team of independent experts. Only the very best project proposals will get funding.

A description of the planned research activities, information on who will carry them out, how much they will cost, and how much funding is requested should be included in the proposal description.

**Proposal Coordinator**

Individuals and legal entities such as companies, consortia, universities, etc. are allowed to submit proposals requesting financial support. The Proposal Coordinator leads the submission process of the proposal and is the only applicant recognised by the Commission.

To avoid the existing confusion, a difference is made between a Proposal Coordinator Contact and a Proposal Coordinator Organisation.

The **Proposal Coordinator Contact** is either an individual or empowered individual of an organisation having the responsibility to request financial support via the submission of a proposal.

The **Proposal Coordinator Organisation** is the organisation to which the Proposal Coordinator Contact belongs or is linked to, and/or that has given the Proposal Coordinator Contact the responsibility to submit a proposal to request financial support.

Broader Term: **Beneficiary, Partner**

**Proposal ID**

An identifier assigned to a proposal after it was submitted. Once a proposal is funded, its Proposal ID becomes its Project ID.

Drafts of proposals are assigned a Draft ID, different from the final one when submitting. Both of them display on the left side in the tool.
<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Submission</td>
<td>The formal act to submit a proposal to the Commission via a web based application. Proposals can be modified and submitted several times as long as the call has not been closed. After call closure the submission is prohibited and proposals are locked. Eligible proposals are thereafter made available to the evaluation system. The <strong>Submission System</strong> is the tool used for sending a proposal for an open call. It is accessible via the Funding &amp; Tenders Portal, and it is often referred as <strong>SEP IT System</strong>.</td>
</tr>
<tr>
<td>SEP IT System</td>
<td>The Funding &amp; Tenders Portal Proposal Submission and Evaluation System.</td>
</tr>
</tbody>
</table>
| Types of Action      | The type of action specifies:  
  ✓ the scope of what is funded  
  ✓ the reimbursement rate  
  ✓ specific evaluation criteria to qualify for funding  
  See the **Online Manual** for more information.                                                                                                                                                                                                                                                                                                                            |
| Topic                | Calls for proposals are subdivided into topics. A topic defines a specific research and innovation subject or area for which applicants are invited to submit proposals. The description of a topic comprises its specific scope and expected impact of the projects to be funded, and also the type of project, evaluation criteria and deadline for submission of proposals.                                                                                                      |
