Brussels, 1 February 2018

Abstracts of the successful proposals

Call for action grants: REC-DATA-2016

Topic REC-RDAT-TRAI-AG-2016: Support training activities on the data protection reform

Publication date: 22 June 2016
Types of action: REC Action Grant
Opening date: 29 November 2016
Single-stage Deadline: 25 January 2017 17:00:00
Call's budget: 2.300.000 EUR

Number of proposals submitted: 15
Number of ineligible proposals: 0
Number of proposals recommended for funding: 6 (for the total amount of EUR 1.857.041,74)
Number of proposals rejected due to insufficient relevance and/or quality: 9

The results of the evaluation were communicated to the applicants via Participants Portal on 13 July 2017.
PROJECT ABSTRACT – 769009 – TRADATA

Call: REC-DATA-2016-01

ABSTRACT:

Objectives:

- To train 630 lawyers from 8 jurisdictions (Germany, France, Spain, Italy, Belgium, Ireland, Northern Ireland and England & Wales) on EU data protection reform
- To have those lawyers as potential trainers to spread nationally what they have learnt
- To create a training scheme on data protection reform for lawyers that can be used after the project ends
- To help the EU to its objective of half of EU legal practitioners participating in European judicial training activities by 2020, following also recommendations in the “Study on the state of play of lawyers training in EU Law”

Activities:

- 21 seminars for lawyers on EU data protection reform in 21 cities in partner countries
- Each seminar to last 1 day, delivered in national languages - but participants will need a good command of English as there will be training material in English
- Each seminar to focus on theoretical and practical issues
Partners to appoint the speakers but the coordinator has a list of experts on EU data protection reform available on request.

Type and number of persons benefiting from the project:

- 630 lawyers to be trained (30 in each of the 21 seminars)
- Partners to select speakers for their own seminar. Two speakers per seminar to have their travel and accommodation costs covered so that partners have the option of selecting speakers from different cities or EU countries.
- Networking opportunities to be created between participants and speakers

Expected results:

- To train 630 lawyers in 21 seminars
- To improve lawyers’ knowledge of the EU data protection reform and discover good practices from expert speakers
- To make training material on data protection reform available on the European Lawyers Foundation’s website, which can be used by participants or any interested lawyer

Type and number of outputs to be produced:

- 21 seminars in 8 jurisdictions
- Training material used in the seminars

**ABSTRACT:**

The objective of the project is to provide support for training of data protection supervisory authorities (DPAs) and the (future or current) Data Protection Officers (DPOs) of public bodies on the practical implications and possible interpretations of the GDPR. The partnership combines the involvement of Data protection authorities (DPAs) from different European countries (Italy, Spain, Poland, Bulgaria and Croatia) with European data protection experts with extensive experience in training of legal officials including judges and DPAs in various countries. The project will support DPAs in interpreting and enforcing the Regulation 2016/679, with particular regard to accountability requirements applying to public bodies and authorities and the mandatory designation of DPOs as well as public authorities and bodies in implementing GDPR obligations related to accountability and designation of DPOs. Both target groups will benefit from the training activities at two levels: transnational and local.

For transnational trainings, the “training of trainers” methodology will be adopted. After the first and second transnational “training for trainers” events, the staff of the relevant DPAs will be able to organize further trainings of their own, for a range of end-beneficiaries (civil servants), in their own country and languages, with reference to their own legal systems. “Transnational trainings” will also foster the exchange of views and practical experience among DPAs at EU level on the implications and possible interpretations of the new rules.

For local trainings will take the form of both local workshops and webinars, organized and implemented by the national DPAs. Local trainings will follow a practical approach, in order to provide participants with practical tools and knowledge on how to comply with the GDPR requirements.

ABSTRACT:

The STAR project (Support Training Activities on the data protection Reform) will provide support to the training activities of European Union (EU) Data Protection Authorities (DPAs) and data protection officers (DPOs) on the EU data protection reform, especially the General Data Protection Regulation (GDPR). The GDPR requires these two categories of data protection actors to undertake training activities (Arts 57(1) and 39(1)(b)). Each DPA developing such materials in isolation increases the overall cost, risks undermining the harmonising effect of the GDPR and puts greater pressure on its consistency mechanisms. STAR will thus provide them with necessary and efficient training materials and resources. In particular, STAR will: 1) formulate the training topics in close cooperation with stakeholders, 2) author the actual training materials, 3) validate and test them in pilot trainings. This output will be freely and publicly available in a digital form. STAR is directly addressed to EU DPAs and DPOs; it also offers a benefit to other privacy professionals in the EU and beyond.

STAR supports the legal obligations of DPAs and DPOs to undertake training activities and, in order to facilitate their work, will provide them with ready-made, easy-to-customise and easy-to-run training materials, easily adaptable to specific training situations. STAR will also provide to the European Data Protection Board (EDPB) the common training programmes (Art 70 GDPR). The main outputs are thus the training materials and resources themselves. While their exact format and nature will be refined in cooperation with stakeholders, the following will at least be included: 1) Training scenarios for each training category, 2) A Seminars’ Topics List, based on the training scenarios, 3) Seminar Material for each one of the seminars, 4) Webinars (selected from the Seminars’ Topics List), 5) A training Handbook, 6) A takeaway reference GDPR checklist, 7) a ten-point GDPR introductory list.

ABSTRACT:

Objectives:

- To introduce local public authorities (LPA) employees to the European Data Protection Reform, General Data Protection Regulation (GDPR) in particular to enable them to fulfill their professional duties lawfully and with respect to fundamental human rights
- To elaborate tailored training materials and methodology addressing the training needs of LPA employees
- To train at least 2 trainers from each of partner country on the to-be elaborated materials
- To train at least 200 Data Protection Officers (DPOs) working in LPA in partner countries on GDPR provisions and on the functions and responsibilities of a DPO on a LPA level
- To increase the readiness of at least 180 LPA on the Data Protection Reform
- To launch an e-Learning platform providing to stakeholders the elaborated training materials under the form of online modules

Activities:

- ProLegis Survey
- Development of tailored training materials and tailored training methodology
- Development and launch of an e-Learning platform
- Training-of-Trainers (ToT) workshop
- National tranings in each partner country
- Dissemination activities

Type and number of persons benefiting from the project:
• 12 trainers
• 360 local public authorities employees
• 200 DPOs engaged in the public sector completed the e-Learning modules
• 90 Final conference participants

Expected results:

• Trained LPA employees and other DPOs, engaged in the public sector familiar with the details of the Data Protection Reform with regards to their day-to-day activities
• Trainers empowered to transfer knowledge and provide in-depth skills on how to lawfully process all categories of personal data

Type and number of outputs to be produced:

• ProLegis Summary
• Elaborated training materials
• Elaborated tailored training methodology
• ProLegis e-Learning Platform
• International ToT workshop
• 12 national workshops
• ProLegis website
• Social media accounts – Facebook, Twitter, LinkedIn
• Project dissemination materials
• 12 Articles
• Final conference
PROJECT ABSTRACT – 769169 – TRAIN-GR-CY

ABSTRACT:

Objectives:

- develop common training content and material to support the implementation of the new data protection instruments in GR and CY;
- to offer problem – based training to data protection officers, judges and lawyers in GR and CY and a selected group of trainers;
- to provide a context for the exchange of views and experience through a transnational networking event and awareness events.

Activities:

- WP 2: Development of training content and material
- A2.1. Training needs Assessment; A2.2. Development of training modules; A2.3 Development of training material; A2.4 Platform
- WP 3: Capacity building seminars
- A3.1. Organisation of training seminars for data protection officers in GR and CY; A3.2. Organisation of training seminars for judges; A3.3 Organisation of training seminars for lawyers; A3.4. Selection of 12 trainers and further training
- WP4: Exchange of good practice and dissemination
- A4.1 Organisation of a transnational networking event for the exchange of good practice; A4.2 Development of a code of practice; A4.3. Organisation of awareness event in the participating countries

Type and number of persons benefiting from the project:
- A total of 40-50 Data protection officers in two MS;
- 40-50 Judges in two MS; 40-50 Lawyers in two MS;
- 12 trainers;
- 15 professionals who will take part in the transnational networking event;
- at least 40 practitioners working on data protection at national level (awareness event).

Expected results:

- a total of 40-50 Data Protection Officers, 40-50 Judges and 40-50 Lawyers in GR and CY trained;
- specific problem-based training material developed;
- network of 12 trainers in two countries selected and trained;
- networking, dialogue and exchange of good practice promoted;
- contribution to the effective implementation of the data reform package through a code of practice.

Outputs:

- Training modules and material for 3 professional groups;
- training report and training evaluation report;
- Manual / code of practice;
- Project Platform.

ABSTRACT:

Objectives

The project aims to realize course on Training activities to implement the Data Protection Reform, to prepare professionals to operate as Data Protection Officer. The course will be provided in three countries, i.e. Spain, Italy and the UK, with 30 participants per country (90 in total). Different learning approaches are used, combining theoretical framework, adaptable approach in relation to participants’ background and Challenge Based Learning, in performing experiences in use cases.

The objectives are the following: (i) to train professionals to understand privacy rules and supporting them in becoming DPO; (ii) to make learners capable of developing strategic and operational aspects of the personal data processing in different types of organizations.

Activities

The courses will regard theoretical and practical issues divided into three modules: (i) legal, (ii) technical, organisational and impact assessment and (iii) behavioural and security. It will be provided simulations of legal cases, related to issues that might normally occur in a DPO daily practice. Activities will also take account compliance and risk assessment, including the drafting of models aimed at organizing the privacy internal management.

Type and number of persons benefiting from the project

Each course is addressed to professionals who have privacy as part of their responsibilities in the private sector and professionals, scholars and members of the public authorities.

Expected results
The project intends to provide a comprehensive and deep understanding of the Data Protection Reform, without leaving aside the practical aspects, in order to increase the knowledge of the European Privacy Regulation.

Type and number of deliverables to be produced

Different typologies of deliverables will be produced during the projects, such as dissemination materials (project website, leaflets, videos etc.) and training contents of the different courses areas (legal, behavioural, technical and organisational).
