ANNEX 1

ANNEX

to the

COMMISSION IMPLEMENTING REGULATION

laying down detailed rules on the application of fair use policy and on the methodology for assessing the sustainability of the abolition of retail roaming surcharges and on the application to be submitted by a roaming provider for the purposes of that assessment

{ SWD(2016) 464 final }

{ SWD(2016) 465 final }

{ SWD(2016) 466 final }

ANNEX
to the
COMMISSION IMPLEMENTING REGULATION

laying down detailed rules on the application of fair use policy and on the methodology for assessing the sustainability of the abolition of retail roaming surcharges and on the application to be submitted by a roaming provider for the purposes of that assessment

Proportional change in actual volumes of regulated roaming services under ‘roam-like-at-home’ compared with the same period in the previous year:

$$\left(\frac{\sum_1^n volume_k(t)}{\sum_1^n volume_k(t-1)} - 1 \right) * 100$$

where k = service (1 = voice, 2 =SMS, 3 = data); n is the number of days of ‘roam-like-at-home’ application (n ≥30) and t is the year of first ‘roam-like-at-home’ application.

This percentage should be used to estimate the change in volumes over the projected 12-month period by multiplying it by the volumes in the previous year.
