

## **VT/2007/090**

### Question

Regarding Lot N° 10 Electricity, gas, water and waste, according to the NACE Rev.1.1 codes (40-41) waste is not included, but is regarded as a sector on its own. How shall we interpret this? Is waste to be disregarded in Lot n°10 of the tender?

### Answer

Waste is to be included in Lot n°10 of the tender, as it is included in the description and in the NACE Rev-2 codes (35-36-37-38-39). In addition to codes 40-41, the Nace Rev-1.1 codes should also include codes 23.3, 14.50, 24.15, 37 and 90. As a general principle for all lots the description and the NACE Rev-2 codes prevails over the Nace Rev-1.1 definition. An official correspondence table is available at the following link (MS Access database to download under the menu NACE/CPA database):
