

Annual Implementation Reports 2014/15 ESF Performance Reports and Thematic Reports - VC20160064 Country Summary Tables – Ireland

Source: Data extraction from AIR February 23rd 2017

The aim of this factsheet is to provide an overview of the performance and progress of the operational ESF programmes by country. It shows the aggregated achievements on the output and result indicators, the financial implementation, also providing an overview per investment priority and category of region. However, given the early stage of implementation of most Operational Programmes, the information should be taken with caution and no inference on effectiveness and efficiency should be made.

Section 1 presents data relating to ESF only (excluding ESF matching of YEI); Section 2 presents data relating to YEI only (including ESF matching of YEI).

Introductory methodological note

These country summary tables have been prepared as an addition to the Synthesis Report of the ESF Annual Implementation Reports 2016, within the framework of Task 1 of the service “ESF Performance and Thematic Reports”. They provide a quantitative overview of ESF performance by presenting country level aggregated financial, output and result data provided by the Managing Authorities in the AIRs 2016 (covering implementation period 2014 and 2015) and extracted from SFC2014 as of 23 February 2017. The tables also provide a measurement of progress in target achievement and of success rates of individuals supported. Data is presented for both ESF and YEI.

Tables are created automatically based on predefined queries extracting data from the SFC2014 Infoview Platform. Each table is introduced by a short description and followed, when relevant, by explanatory notes/disclaimers. For a more detailed methodological explanation please refer to the Synthesis report, section 1.2 Methodology.

In addition to these, we present below some general comments.

For the ESF and YEI, participants should be understood as "participations" similarly to other widely used terms such as 'users', 'spectators' or 'airline passengers'. One participant may participate in several operations. At the same time, an ESF participant returning to the same operation is not counted multiple times. Moreover, indirect participations are excluded from the calculations.

Some of the data presented are susceptible to further changes as a few AIRs are still in the process of being accepted. Furthermore, Managing Authorities can choose whether to report on completed or partially implemented operations: in the first instance this might lead to a certain level of underestimation of achievements. Also note that financial implementation values are not associated to the indicators on physical progress (because the time for the certification of expenditure differs from programme to programme).

Finally, some data of approved AIRs are susceptible to changes in the next reporting periods, as Member States can retroactively modify or update data (e.g. when an individual participation record changes or in order to correct errors).

Country specific notes

No country specific comments.

1 ESF

1.1 Overview

This section provides an overview of key programming and implementation ESF data in the country.
YEI IS NOT INCLUDED IN THIS SECTION

1.1.1. Main achievements and participants at 31st Dec 2015

Output indicator	Participants	Share of total	Result indicator	Results
unemployed, including long-term unemployed	79,967	47.9%	inactive participants engaged in job searching upon leaving	157
inactive	66,108	39.6%	participants in education/training upon leaving	31,718
employed, including self-employed	20,970	12.6%	participants gaining a qualification upon leaving	48,344
Total	167,045	100.0%	participants in employment, including self-employment, upon leaving	2,628

Note: Total participants are calculated as the sum of COI 1, 3 and 5. The same individual can take part in one or more ESF/YEI intervention and be recorded as an individual participant each time. Indicators relating to YEI IPs are not included. Only common indicators are considered

1.1.2 Achievements at 31st Dec 2015 - projects and enterprises

No data available/does not apply

1.1.3 No. of ESF Operational programmes and funding by region

No. of ESF OPs (including multi-fund OPs)	Allocation of total EU funding by categories of region		
Total (incl. TA)	1	More developed	100.0%
- of which monofund ESF	1	Transition	0.0%
- of which multifund ESF/ERDF		Less developed	0.0%
- of which incl. YEI	1	Total	100.0%

Note: France, Greece and Spain each have one OP solely devoted to TA

1.1.4 Total ESF Budget

Budget		Budget allocation by Thematic Objective	
Source	MEUR		
Union support	474	TO11	0.0%
National co-financing	474	TO10	22.7%
Total	949	TO9	40.9%
		TO8	34.3%
		TA	2.1%

Note: Total budget including Union support and national co-financing. The YEI specific allocation and ESF matching contribution to YEI are not included in the table. The break-down on TO is based on "Total

1.2 Output and result indicators

This section provides an overview of the Common output and result indicators for ESF investments as listed in Annex I of the ESF regulation. Regarding the Performance Framework Indicators, these are based on the performance indicators in Table 6 in Operational Programmes.

1.2.1 Common output indicators - achievements

Output indicator	Achievements
Employment status	
unemployed, including long-term unemployed	79,967
of which long-term unemployed	41,999
inactive	66,108
of which inactive, not in education or training	283
employed, including self-employed	20,970
Total	167,045
Age	
below 25 years of age	46,880
above 54 years of age	26,964
above 54 years of age who are unemployed, including long term unemployed, or inactive not in education or training	3,160
between 25-54 years of age (calculated as residuals)	93,201
Education	
with primary (ISCED 1) or lower secondary education (ISCED 2)	79,584
with upper secondary (ISCED 3) or post-secondary education (ISCED 4)	67,761
with tertiary education (ISCED 5 to 8)	17,176
without educational attainment (calculated as residuals)	2,524
Other disadvantaged	
participants who live in jobless households	1,942
participants who live in jobless households with dependent children	1,850
participants who live in a single adult household with dependent children	8,716
migrants, participants with a foreign background, minorities (including marginalised communities such as the Roma)	12,334
participants with disabilities	24,986
other disadvantaged	78,914
homeless or affected by housing exclusion	747
from rural areas	3,534

Note: Some of the figures are not reported in the AIRs, but calculated as residuals based on total amount of participants.

1.2.2 Common output indicators - achievements continued

No data available/does not apply

1.2.3 Common result indicators - achievements

Results for ESF participants upon leaving	Achievements
inactive participants engaged in job searching upon leaving	157
participants in education/training upon leaving	31,718
participants gaining a qualification upon leaving	48,344
participants in employment, including self-employment, upon leaving	2,628
disadvantaged participants engaged in job searching, education/ training, gaining a qualification, or in employment, including self-employment , upon leaving	767
Results 6 months after leaving	Achievements
participants in employment, including self-employment, 6 months after leaving	4,575
participants above 54 years of age in employment, including self-employment, six months after leaving	107
disadvantaged participants in employment, including self-employment, 6 months after leaving	74

1.2.4 Common Output Indicators included in the Performance Framework

No data available/does not apply

Note: The data in this table is calculated by summing the cumulative achievement and 2018 milestone grouped by CCI number, Priority axis ID (PA_ID) and indicator ID (CO_ID). After that the achievement and milestone values are linked by CCI, PA_ID and CO_ID, so that only achievements from the corresponding priority axis and indicator is included when comparing to the indicator from the performance framework. Finally, the values are summed up at common indicator level. Only indicators that are also included in the Performance Framework Indicators in their respective programmes are considered (i.e., Table 6 in Operational Programmes).

1.2.5 Success rates

Success rates are calculated by dividing the total cumulative achievements of the common result indicator (CRI) by the total cumulative achievements of the corresponding common output indicator (COI). This way the output indicator is used as a basis for target setting.

Success rates are different from target achievement rates as they provide an indication of the extent to which participants achieved a given result.

No data available/does not apply

Note: Success rates can be calculated only for result indicators that have a reference output indicator and for which achievements are reported.

1.3 Financial implementation

This section provides an overview of financial progress. The traffic light at the end of this table provides a visual representation of the financial performance of the OPs at MS level (see note for interpretation).

1.3.1 Financial implementation (MEUR)

Total eligible cost of selected operations	Total eligible cost share of budget	Total eligible expenditure declared to MA	Expenditure share of 2018 milestone	Expenditure share of 2023 target
947	99.8%	0.0	0.0%	0.0%

1.3.2 Expenditure declared to MA by thematic objective (MEUR)

TO8	TO9	TO10	TO11	Total
0	0	0	0	0

1.3.3 Quick OR synthesis assessment of financial progress

Financial progress vs to 2018 milestone *			Financial progress compared to EU average milestone achievement *				
●	○	○	●	○	○		
Red				Red			

Note: The financial performance traffic light (Left) is based on the achievement rate of the 2018 milestone at the MS level. The trafficlight is green if the financial performance belongs to the 1st quartile (is among the 25% MS with the lowest value); and red if the financial performance belongs to the 4th quartile (is among the 25% MS with the highest value). The financial performance compared to EU traffic light (Right) measures progress towards milestone relative to EU average: Red, less than 33% of EU average; Yellow, 34% - 100% of EU average; Green, Higher than EU average.

* Expenditure declared to MAs

2 YEI

2.1 Overview

This section provides an overview of programming and implementation of YEI

2.1.1. Main outputs and results

Output indicator	Participants	
unemployed, including long-term unemployed	9,243	66.5%
inactive	4,666	33.5%
total	13,909	100.0%

Results for YEI participants upon leaving (Annex II of ESF Reg.)	Results
Unemployed participants who complete the YEI supported intervention	1,244
Long-term unemployed participants who complete the YEI supported intervention	721
Inactive participants not in education or training who complete the YEI supported intervention	29

Results for YEI participants upon leaving (Annex I of ESF Reg.)	Results
inactive participants engaged in job searching upon leaving	57
participants in education/training upon leaving	831
participants gaining a qualification upon leaving	3,857
participants in employment, including self-employment, upon leaving	488

The total number of participants reports on all participants, including indicators where no target is set. Note: Only YEI is included, and only common indicators are mentioned.

2.1.2 No. of YEI Operational programmes

No. of OPs	
No. of OPs with YEI funding	1

2.1.3 YEI Budget (including ESF contribution) (MEUR)

Fund	EU funding (includes ESF matching of YEI)	National funding	Total funding
YEI	136	68	204

2.2 Output and result indicators

This section provides an overview of COI and CRI achievements for the YEI (as per Annex I and Annex II of ESF Regulation)

2.2.1 Common output indicators - achievements

Output indicator	Achievements
Employment status	
unemployed, including long-term unemployed	9,243
of which long-term unemployed	6,141
inactive	4,666
of which inactive, not in education or training	1,993
Total	13,909
Age	
below 25 years of age	13,909
between 25-54 years of age (calculated as residuals)	0
Education	
with primary (ISCED 1) or lower secondary education (ISCED 2)	6,267
with upper secondary (ISCED 3) or post-secondary education (ISCED 4)	6,303
with tertiary education (ISCED 5 to 8)	1,139
without educational attainment (calculated as residuals)	200
Other disadvantaged	
participants who live in jobless households	1,914
participants who live in jobless households with dependent children	806
participants who live in a single adult household with dependent children	382
migrants, participants with a foreign background, minorities (including marginalised communities such as the Roma)	2,099
participants with disabilities	571
other disadvantaged	1,835
homeless or affected by housing exclusion	240
from rural areas	752

2.2.2 Common result indicators - achievements

Results for YEI participants upon leaving (Annex II of ESF Reg.)	Achievements
Unemployed participants who complete the YEI supported intervention	1,244
Unemployed participants who receive an offer of employment, continued education, apprenticeship or traineeship upon leaving	294
Unemployed participants who are in education/training, gaining a qualification, or in employment, including self-employment, upon leaving	434
Long-term unemployed participants who complete the YEI supported intervention	721
Long-term unemployed participants who receive an offer of employment, continued education, apprenticeship or traineeship upon leaving	191
Long-term unemployed participants who are in education/training, gaining a qualification, or in employment, including self-employment, upon leaving	240
Inactive participants not in education or training who complete the YEI supported intervention	29
Inactive participants not in education or training who receive an offer of employment, continued education, apprenticeship or traineeship upon leaving	6
Inactive participants not in education or training who are in education/training, gaining a qualification, or in employment, including self-employment, upon leaving	9
Results for YEI participants upon leaving (Annex I of ESF Reg.)	Achievements
inactive participants engaged in job searching upon leaving	57
participants in education/training upon leaving	831
participants gaining a qualification upon leaving	3,857
participants in employment, including self-employment, upon leaving	488
disadvantaged participants engaged in job searching, education/ training, gaining a qualification, or in employment, including self-employment , upon leaving	15
Results for YEI participants 6 months after leaving (Annex II of ESF Reg.)	Achievements
Participants in continued education, training programmes leading to a qualification, an apprenticeship or a traineeship 6 months after leaving	65
Participants in employment 6 months after leaving	73
Results for YEI participants 6 months after leaving (Annex I of ESF Reg.)	Achievements
participants in employment, including self-employment, 6 months after leaving	76

2.2.3 Success rates

Success rates are calculated by dividing the total cumulative value of the common result indicator (CRI) by the total cumulative value of the common reference output indicator (COI). Success rates are different from target achievement rates as they provide an indication of the extent to which participants achieved a given result

Results for ESF participants upon leaving	Success rate
Unemployed participants who complete the YEI supported intervention	13.5%
Unemployed participants who receive an offer of employment, continued education, apprenticeship or traineeship upon leaving	3.2%
Unemployed participants who are in education/training, gaining a qualification, or in employment, including self-employment, upon leaving	4.7%
Long-term unemployed participants who complete the YEI supported intervention	11.7%
Total upon leaving	8.0%
Long-term unemployed participants who receive an offer of employment, continued education, apprenticeship or traineeship upon leaving	3.1%

Results 6 months after leaving	Success rate
Long-term unemployed participants who are in education/training, gaining a qualification, or in employment, in	3.9%
Inactive participants not in education or training who complete the YEI supported intervention	1.5%

Note: Success rates can be calculated only for result indicators that have a reference output indicator and for which achievements are reported.

2.3 Financial implementation

This section provides an overview of financial progress of YEI. The traffic light at the end of this table provides a visual representation of the financial performance of at MS level (see note for interpretation).

2.3.1 Financial implementation (MEUR)

Financial performance Expenditure declared to MA vs. 2018 milestone			Financial performance compared to EU 28 Expenditure declared to MA vs. 2018 milestone				
●	○	○	●	○	○		
Red				Red			

2.3.2 Summarized financial assessment

Amount contracted by beneficiaries	Amount contracted share of budget	Expenditure declared to MA	Expenditure share of 2018 milestone	Expenditure share of 2023 target
409	100.0%	0.0	0.00%	0.00%

The financial performance traffic light (on the left) is based on the achievement rate of the 2018 milestone at the MS level: The trafficlight is green if the financial performance belongs to the 1st quartile (is among the 25% MS with the lowest value); and red if the financial performance belongs to the 4th quartile (is among the 25% MS with the highest value). The financial performance compared to EU trafficlight (on the right) measures progress towards milestone relative to EU average: Red, less than 33% of EU average; Yellow, 34% - 100% of EU average; Green, Higher than EU average.

* Expenditure declared to MAs.

2.4 Implementation efficiency

2.4.1 Expenditure declared to MA per output

Expenditure per participant is calculated by dividing total expenditure declared to MA by total participants (CO01 + CO03 + CO05).

Allocated budget (MEUR)	Amount contracted by beneficiaries (MEUR)	Expenditure declared to MA	Total participants	Expenditure per participant	EU avg. expenditure per participant	Expenditure deviation from EU avg.
204	204.4	0.0	13,909	0.0	607.0	-100.0%

Note: Expenditure is calculated based on YEI specific allocation and ESF matching allocation together.

3 Overview per OP

3.1 Participants, ESF (target achievements)

Participants are calculated as the sum of the common output indicators CO01, CO03 and CO05. Target achievement is measured against the 2023 total target value of corresponding output indicators. Indicators without a target is excluded.

CCI	Title	Participants Number	Target achievement
More developed			
2014IE05M9OP001	ESF Operational Programme 2014-2020	-	-

3.2 Participants, YEI

Participants are calculated as the sum of the common output indicators CO01, CO03 and CO05.

CCI	Title	Participants Number
More developed		
2014IE05M9OP001	ESF Operational Programme 2014-2020	13,909

3.3 Financial performance

CCI	Title	Expenditure declared to MA (MEUR)	2023 target (MEUR)	% of milestone	% of target	Financial performance	Performance relative to EU
More developed							
2014IE05M9OP001	ESF Operational Programme 2014-2020	0.0	901	0.0%	0.0%	Red	Red

Financial progress is calculated against the financial indicators in the performance framework. Include both ESF and YEI.

Annex 1: Overview per investment priority and category of region

A1.1 ESF achievements (CO01, CO03 and CO05)

Participants achievements is calculated as the cumulative number of participants (ie the sum of COI 1, 3 and 5) over the total targets. Indicators for which no targets are set are excluded from the calculation.

Note: The table above shows all IP's from the operational programmes. Also IP's where no output has been reported.

Region	Total participants reached	Output target achievements
Less developed		
More developed		
Transition		

Note: In a few cases, where the output target is not reported, it is not possible to calculate the percentual output target achievement.
