**Upskilling
Pathway!**

Social
Europe

The new European “**Upskilling Pathways**” initiative is a chance for adults who need to improve their literacy, numeracy and digital skills to:

Find out what knowledge and skills they possess, and have them recognised,

Get back into learning, with a tailor-made package that focuses on the skills they need most,

Progress towards a new qualification.

By 2018, every Member State should have started to set up Upskilling Pathways. Discover the initiative, join the debate and much more:
