Delivering on a more social and fair Europe is a key priority for the European Commission. The European Pillar of Social Rights, adopted on 26 April 2017, is supported by a 'Social Scoreboard' of key indicators that screen employment and social performances of participating Member States.

The scoreboard serves as a reference framework to monitor 'societal progress', in a tangible, holistic and objective way. It detects in a timely way the most significant employment and social challenges facing the Member States, the EU and the euro area, as well as progress achieved over time.

The Social Scoreboard builds on 12 areas.
