

Annual Implementation Reports 2017 ESF Performance Reports and Thematic Reports - VC20160064 Country Summary Tables – Austria

Source: Data extraction from AIR September 6th 2017

The aim of this factsheet is to provide an overview of the performance and progress of the operational ESF programmes by country. It shows the aggregated achievements on the output and result indicators, the financial implementation, also providing an overview per investment priority and category of region. However, given the early stage of implementation of most Operational Programmes, the information should be taken with caution and no inference on effectiveness and efficiency should be made.

Section 1 presents data relating to ESF only (excluding ESF matching of YEI); Section 2 presents data relating to YEI only (including ESF matching of YEI).

Introductory methodological note

These country summary tables have been prepared as an addition to the Synthesis Report of the ESF Annual Implementation Reports 2017, within the framework of Task 1 of the service “ESF Performance and Thematic Reports”. They provide a quantitative overview of ESF performance by presenting country level aggregated financial, output and result data provided by the Managing Authorities in the AIRs 2017 (covering implementation period 2014, 2015 and 2016) and extracted from SFC2014 as of 6 September 2017. The tables also provide a measurement of progress in target achievement and of success rates of individuals supported. Data is presented for both ESF and YEI.

Tables are created automatically based on predefined queries extracting data from the SFC2014 Infoview Platform. Each table is introduced by a short description and followed, when relevant, by explanatory notes/disclaimers. For a more detailed methodological explanation please refer to the Synthesis report.

In addition to these, we present below some general comments.

For the ESF and YEI, participants should be understood as "participations" similarly to other widely used terms such as 'users', 'spectators' or 'airline passengers'. One participant may participate in several operations. At the same time, an ESF participant returning to the same operation is not counted multiple times. Moreover, indirect participations are excluded from the calculations.

Some of the data presented are susceptible to further changes as a few AIRs are still in the process of being accepted. Furthermore, Managing Authorities can choose whether to report on completed or partially implemented operations: in the first instance this might lead to a certain level of underestimation of achievements. Also note that financial implementation values are not associated to the indicators on physical progress (because the time for the certification of expenditure differs from programme to programme).

Finally, some data of approved AIRs are susceptible to changes in the next reporting periods, as Member States can retroactively modify or update data (e.g. when an individual participation record changes or in order to correct errors).

Country specific notes

No country specific comments at this stage.

1 ESF

1.1 Overview

This section provides an overview of key programming and implementation ESF data in the country.
YEI IS NOT INCLUDED IN THIS SECTION

1.1.1. Main achievements and participants at 31st Dec 2016

Output indicator	Participants	Share of total	Result indicator	Results
unemployed, including long-term unemployed	28,020	66.9%	inactive participants engaged in job searching upon leaving	239
inactive	10,114	24.1%	participants in education/training upon leaving	405
employed, including self-employed	3,775	9.0%	participants gaining a qualification upon leaving	2,781
Total	41,909	100.0%	participants in employment, including self-employment, upon leaving	1,808

Note: Total participants are calculated as the sum of COI 1, 3 and 5. The same individual can take part in one or more ESF/YEI intervention and be recorded as an individual participant each time. Indicators relating to YEI IPs are not included. Only common indicators are considered

1.1.2 Achievements at 31st Dec 2016 - projects and enterprises

Output indicator	Output
CO20 number of projects fully or partially implemented by social partners or non-governmental organisations	115
CO21 number of projects dedicated at sustainable participation and progress of women in employment;	6
CO22 number of projects targeting public administrations or public services at national, regional or local level	0
CO23 number of supported micro, small and medium-sized enterprises (including cooperative enterprises, enterprises of the social economy)	0

1.1.3 No. of ESF Operational programmes and funding by region

No. of ESF OPs (including multi-fund OPs)	Allocation of total EU funding by categories of region		
Total (incl. TA)	1	More developed	95.2%
- of which monofund ESF	1	Transition	4.8%
- of which multifund ESF/ERDF		Less developed	0.0%
- of which incl. YEI		Total	100.0%

Note: France, Greece and Spain each have one OP solely devoted to TA

1.1.4 Total ESF Budget		
Budget		Budget allocation by Thematic Objective
Source	MEUR	
Union support	442	TA 5.9%
National co-financing	434	TO11 0.0%
Total	876	TO10 48.0%
		TO9 31.3%
		TO8 14.7%

Note: Total budget including Union support and national co-financing. The YEI specific allocation and ESF matching contribution to YEI are not included in the table. Break-down by TO is based on "Total Budget".

1.2 Output and result indicators

This section provides an overview of the Common output and result indicators for ESF investments as listed in Annex I of the ESF regulation. Regarding the Performance Framework Indicators, these are based on the performance indicators in Table 6 in Operational Programmes.

1.2.1 Common output indicators - achievements

Output indicator	Achievements
Employment status	
unemployed, including long-term unemployed	28,020
of which long-term unemployed	12,427
inactive	10,114
of which inactive, not in education or training	2,718
employed, including self-employed	3,775
Total	41,909
Age	
below 25 years of age	11,831
above 54 years of age	6,885
above 54 years of age who are unemployed, including long term unemployed, or inactive not in education or training	6,376
between 25-54 years of age (calculated as residuals)	23,193
Education	
with primary (ISCED 1) or lower secondary education (ISCED 2)	25,990
with upper secondary (ISCED 3) or post-secondary education (ISCED 4)	8,182
with tertiary education (ISCED 5 to 8)	4,380
without educational attainment (calculated as residuals)	3,357
Other disadvantaged	
participants who live in jobless households	22,631
participants who live in jobless households with dependent children	9,542
participants who live in a single adult household with dependent children	2,600
migrants, participants with a foreign background, minorities (including marginalised communities such as the Roma)	32,746
participants with disabilities	503
other disadvantaged	6,040
homeless or affected by housing exclusion	2,396
from rural areas	1,638

Note: Some of the figures are not reported in the AIRs, but calculated as residuals based on total amount of participants.

1.2.2 Common output indicators - achievements continued

Output indicator	Achievements
Projects	
number of projects fully or partially implemented by social partners or non-governmental organisations	115
number of projects dedicated at sustainable participation and progress of women in employment;	6
number of projects targeting public administrations or public services at national, regional or local level	0
Entities supported	
number of supported micro, small and medium-sized enterprises (including cooperative enterprises, enterprises of the social economy)	0

1.2.3 Common result indicators - achievements

Results for ESF participants upon leaving	Achievements
inactive participants engaged in job searching upon leaving	239
participants in education/training upon leaving	405
participants gaining a qualification upon leaving	2,781
participants in employment, including self-employment, upon leaving	1,808
disadvantaged participants engaged in job searching, education/ training, gaining a qualification, or in employment, including self-employment , upon leaving	4,428

1.2.4a Total milestone achievement in the Performance Framework

Less developed	More developed	Transition	ESF total	YEI total	Total (ESF + YEI)
	25%	4%	24%		24%

1.2.4b Common Output Indicators included in the Performance Framework

No data available/does not apply

Source: Performance Framework AIR Table 5. Only common indicators CO01 to CO11 are included.

Note: The data in this table is calculated by summing the cumulative achievement and 2018 milestone grouped by CCI number, Priority axis ID (PA_ID) and indicator ID (CO_ID). After that the achievement and milestone values are linked by CCI, PA_ID and CO_ID, so that only achievements from the corresponding priority axis and indicator is included when comparing to the indicator from the performance framework. Finally, the values are summed up at common indicator level.

1.2.5 Success rates

Success rates are calculated by dividing the total cumulative achievements of the common result indicator (CRI) by the total cumulative achievements of the corresponding common output indicator (COI). This way the output indicator is used as a basis for target setting.

Success rates are different from target achievement rates as they provide an indication of the extent to which participants achieved a given result.

No data available/does not apply

Note: Success rates can be calculated only for result indicators that have a reference output indicator and for which achievements are reported.

1.3 Financial implementation

This section provides an overview of financial progress. The traffic light at the end of this table provides a visual representation of the financial performance of the OPs at MS level (see note for interpretation).

1.3.1 Financial implementation (MEUR)

Total eligible cost of selected operations	Total eligible cost share of budget	Total eligible expenditure declared to MA	Expenditure share of 2018 milestone	Expenditure share of 2023 target
229	26.3%	0.0	0.0%	0.0%

1.3.2 Expenditure declared to MA by thematic objective (MEUR)

TO8	TO9	TO10	TO11	Total
0.0	0.0	0.0	0.0	0.0

1.3.3 Quick OR synthesis assessment of financial progress

Financial progress vs to 2018 milestone *				Financial progress compared to EU average milestone achievement *			
	○	○	●	●	○	○	
Green				Red			

Note: The financial performance traffic light (Left) is based on the achievement rate of the 2018 milestone at the MS level. The trafficlight is green if the financial performance belongs to the 1st quartile (is among the 25% MS with the lowest value); and red if the financial performance belongs to the 4th quartile (is among the 25% MS with the highest value). The financial performance compared to EU traffic light (Right) measures progress towards milestone relative to EU average: Red, less than 33% of EU average; Yellow, 34% - 100% of EU average; Green, Higher than EU average.

* Expenditure declared to MAs

3 Overview per OP

3.1 Participants, ESF (target achievements)

For "Common indicators", the number of participants are calculated as the sum of the common output indicators CO01, CO03 and CO05. For "Other indicators" the number of participants is calculated at the sum of all indicators marked as "Other" in the performance framework table 5.

Target achievement is measured against the 2023 total target value of corresponding output indicators. Indicators for which no target is set are excluded.

Other output indicators from Performance Framework table 5

CCI	Title	Participants Number	Target achievement
More developed			
2014AT05SFOP001	Operational Programme Employment Austria 2014-2020	11,984	7.3%

Data source: AIR performance framework table 5.

3.2 Participants, YEI

Does not apply (Austria not eligible for YEI)

3.3 Financial performance

CCI	Title	Expenditure declared to MA (MEUR)	2023 target (MEUR)	% of milestone	% of target	Financial performance	Performance relative to EU
More developed							
2014AT05SFOP001	Operational Programme Employment Austria 2014-2020	0.0	824	0.0%	0.0%	Red	Red

Financial progress is based on Expenditure declared to MA and measured against the financial indicators in the performance framework (AIR Table 5) and includes expenditure to both ESF and YEI.

Colors in column: Financial performance: Red: Expenditure below milestone. Yellow: Expenditure between 2018 milestone and 75% of total 2023 target. Green: Expenditure above 75% of 2023 target

Colors in column: Performance relative to EU. Red: Expenditure less 33% of average EU Expenditure. Yellow: Expenditure between 33% and 133% of average EU Expenditure. Green: Expenditure above 133% of average EU Expenditure.

Annex 1: Overview per investment priority and category of region

A1.1 ESF achievements (CO01, CO03 and CO05)

Participants achievements is calculated as the cumulative number of participants (i.e. the sum of COI 1, 3 and 5) over the total targets. Indicators for which no targets are set are excluded from the calculation.

IP	Total participants	Output target achievements
TO08		
8i	0	0.0%
8v	0	0.0%
TO08 total	0	0.0%
TO09		
9i	27	10.8%
TO09 total	27	10.8%
TO10		
10iii	0	0.0%
TO10 total	0	0.0%
Total	27	0.7%

Source: AIR table 2A.

Region	Total participants reached	Output target achievements
Less developed		
More developed		
Transition	27	0.7%
