# EXECUTIVE SUMMARY

---

Beneficiaries/contractors must provide in the final technical implementation report, or upon specific request, an executive summary regarding the results /impact achieved by the project.

The executive summary will be published. It should be a stand-alone summary of the action and its implications. It should be concise (max 7500 characters), written in plain language and be made available to the Commission in **English**. Other EU languages are welcome but optional.

The executive summary must include the following::

## 1. Short description of the action:

Context and policy areas, main objectives, target group(s) and key activities and deliverables (provide also the publication and website address).

- **The context of the action.** Please describe why your organisation or consortium decided to implement this particular action. Is this action a follow-up to any previously implemented activities funded either by national or EU funds? Where does this action fit in the overall activities/strategy of your organisation? To which of the local/national/EU level policies your action contributes?
- **Main policy areas and sub-areas.** Please mention policy areas and sub-areas where your action is expected to take an effect. For example, a policy area can be indicated as 'social protection and social inclusion,' while 'long term care' could be a sub-area. Please elaborate where exactly your action aims to contribute in terms of the indicated policy areas and sub-areas.
- **Main objectives.** Please indicate what your action aimed to achieve.
- **Key activities.** Please indicate the main activities that you implemented to achieve the objectives listed in the section above. If you have introduced any significant changes to what was planned in the beginning of the project, please explain why these changes were necessary and what effect they had on the outcomes of the action.
- **Target groups.** Please indicate the target groups of your action. Please comment if you took any actions in order to involve groups that are vulnerable (e.g. young people, long-term unemployed). Did you take any actions in order to ensure that women and men are equally included in your activities?
- **Deliverables.** Please indicate what are the main deliverables of your action? Were they published in paper or on-line? If so, please provide the links/references to publications. Please explain how have the main deliverables of the project contributed to achievement of the project objectives listed above? If available, please also provide a website of your action.

## 2. Conclusions:

Description of results, impacts and EU added value.

- **Results of the action.** List all the relevant results of your action. Please directly address the issue whether your action achieved everything that you have planned. For this, please compare your results with the objectives that you have indicated above. In case you have not achieved everything that was planned, please explain why this was the case.
- **Impacts of the action.** Please list the impacts of your action (actual or expected). Since it might take time for the impacts to materialise, please also reflect on the expected impacts. Please indicate the impacts of your action on: the population (local, national or EU), your organisation, other national or EU organisations, policy (at the local, national, EU or international level). Will the achieved impacts be sustainable? What are the factors suggesting the sustainability or unsustainability of the impacts?
- **EU added value.** According to the Better Regulation Guidelines, EU-added value looks for changes, which (as it can be reasonably argued) are due to EU intervention rather than any other factors. EU added value may result from different factors e.g. co-ordination gains, improved legal certainty, greater effectiveness or complementarity. Please indicate:
  - a. Could you have implemented a similar action without the EU funding? Where exactly the EU funding has mostly contributed in your action's budget?
  - b. Has a given effect of the action been achieved at a lower cost for taxpayers because the intervention took place at EU level?
  - c. Has your action implemented or led to networking among the national/EU organisations?

In addition, depending on the type and nature of the action, please try to answer the following questions:

- d. Has your action contributed to implementing the EU legislation or ensuring that the legislation is correctly implemented?
- e. Have you implemented/promoted any "best practices" identified under your previous activities? Could you mention such practices?
- f. Have you implemented any activities that allowed for benchmarking among the Member States (such as peer reviews, mutual learning events)? Do you have any examples of decisions based on such benchmarking activities?
- g. Have your activities allowed for mitigation of any cross-border risks that might have harmed your activities if they were implemented only at the national level? Please explain.
- h. Has your action contributed to the free movement of persons? If yes, please explain how.

**When completing this part, please focus in particular on pointing out the potential good practices implemented during the project.**

Good practice is a process or a methodology that has been proven to work well and produce good results, and is therefore recommended as a model or as a useful example. To indicate the potential good practices, please consider the following questions:

- Are there any elements of the project that could be transferred/up-scaled to other similar contexts? Is it foreseen?

- Are there any elements of the project that you consider innovative?
- Was new policy evidence (studies, reports, methodologies, etc.) produced as a result of the project?
- What are the key impacts of your action?
- Were there any elements of the project that could not have been implemented without the EU support?
- Will the results/impacts of the project be sustainable after it finishes? How will the sustainability of the project impacts be ensured?
- Did you develop new partnerships (national/EU/international) as a result of this action? Are these partnerships lasting?

### 3. Policy follow-up:

Description of the policy follow up and recommendations.

- **The expected policy follow-up.** Please indicate whether your or other organisations (to the best of your knowledge) have plans to replicate or up-scale this action. Will the action be continued without the EU funding? Will other organisations implement a similar action because they have learned from your action? Will any other actions be taken as a follow-up for your action?
- **Lessons and recommendations.** Please provide a short list of lessons and recommendations resulting from your projects. What have you learned from the implementation of this action that could be used in the future by other organisations implementing similar actions? What obstacles have you faced and how did you react? Based on your action, what would you recommend for other similar organisations working in the same policy area?
