- ❖ Statistics
- ❖ FEAD projects in Lithuania
- ❖ Lithuania's Child Day Care Centres – the main focus on the children
- ❖ Accompanying measures delivered in Lithuania
- ❖ Challenges

Statistics

People at risk of poverty, %	Number of Children in Social Risk Families	FEAD Target Group (number of people)	Children aged 15 years or below (FEAD projects) (number of people)	Children Day Care Centers	Children who Visits Day Care Centers
29,6 (2017)	18 145 (2017)	238 229 (2017-2018)	64 075	Around 100	About 2000

FEAD projects in Lithuania

- ❖ 17 different food products in 2017 – 2018;
- ❖ 5 different hygiene goods in 2018;
- ❖ Target group – people whose average monthly earnings do not exceed a certain limit (183 euro).
- ❖ 63 partner organizations;

The Lithuanian children day care centres association

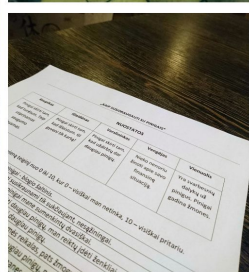

- ❖ The association covers about 100 children day care centres all over around Lithuania;
- ❖ Target groups are children and families whom are at risk of social exclusion;
- ❖ Day care centres have a big amount of partners: city police departments, universities and colleges, city's municipalities, NGO's, business organizations;

Asociación's main focus is the pursuit of children's well-being through the range of services provided by Day Centers, guided by Christian values, to develop and implement social, educational, psychological and rehabilitation programs for children and their families.

Children day care centers combains children, their families, communities and volunteers.

Activities for the adults and families

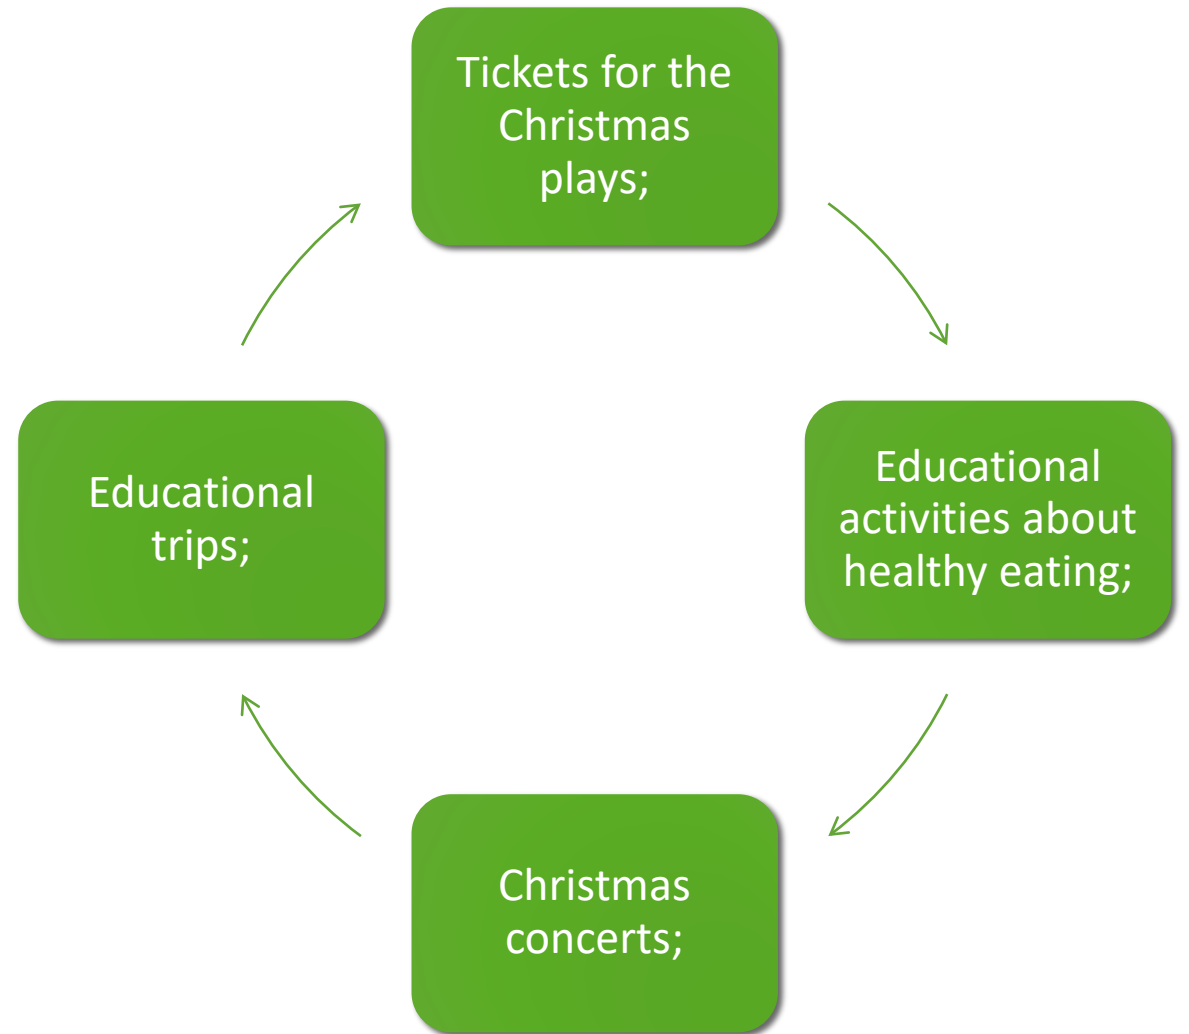

Accompanying measures delivered in Lithuania and focused on the children

Visit at the dentist's office

Visit at the dentist's office

The knowledge: why, how and for what...

The understanding: why is important to decorate, to serve and enjoy the time together...

Cooking sessions: how to make simple meals from simple products...

Spending time together and taking care of each other...

Challenges

Hygiene problems, when parents and children don't have enough skills;

Psychological problems, social workers have to find a way to communicate with children and parents;

Children from remote area needs to be driven home, so volunteers are needed;
