

MISSION

LOCAL SOCIAL SERVICE PROVIDERS

Rights, benefits, services

*Treatment as usual
=
Non take up*

Employment

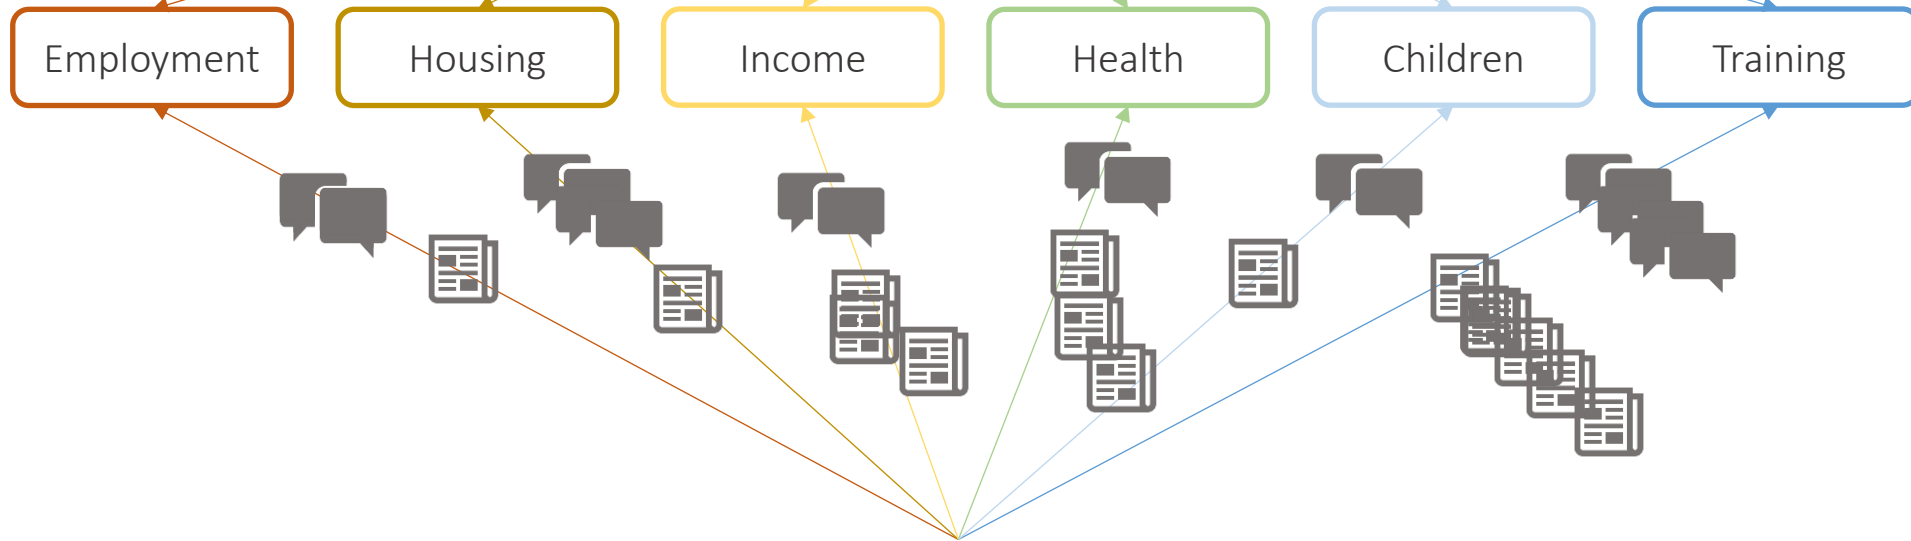

Housing

Income

Health

Children

Training

LOCAL SOCIAL SERVICE PROVIDERS

Rights, benefits, services

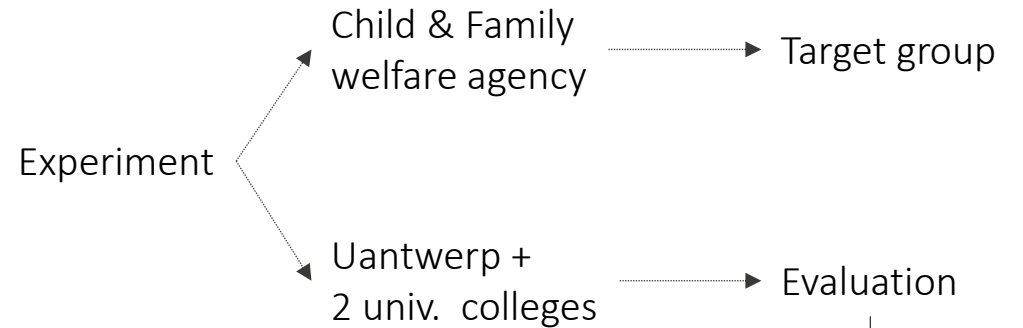

More effective than TAU?

1/ to increase take up of employment support services.

2/ for a wider range of outcomes: income, housing, well being, service use, benefit receipt.

⇒ Does it work? Why? How? For whom? When?

⇒ **Scale up**

SUSTAINABILITY

- MISSION = evidence-based practice => scaling up = project objective
- Stakeholder involvement = key
 - Steering group => different levels of government & experts
 - Local stakeholder platform => all service providers
- Start = project development phase!

CHALLENGES

- Nature of social experiment \Leftrightarrow scaling up during project duration
- Tension between research – policy – practice

Public centre of social welfare – Kortrijk
