

# Designing regional ecosystem Talentjourney stakeholder

Workshop agenda

# Welcome and introduction

10.00 – 10.05: Welcome; Miran Saksida

10.05 – 10.20: Talentjourney presentation and presentation of workshop goals; Adrijana Hodak

10.20 – 10.35: Ice breaking – One team, one goal; Nataša Kristan

10.35 – 10.45: Motivation questions on IIOT; Sašo Stanojev

## ***Session 1: Industrial IoT now and in the next 10 to 20 years – business processes in companies;*** moderator Egon Pipan

10.45 – 11.45: co-creative group work on the topics,

- what do we know about IIOT so far
- what is the most possible IIOT business model
- which processes happen/will happen inside the model
- who and what will be the core drivers of the processes.

Co-creation will happen in 5 groups consisting of teachers/tutors, learners, company experts, school and company leadership. It will be concluded by presenting the outputs of individual group work.

11.45 – 12.00: networking break

## ***Session 2: Providing industry with skilled IIOT-ers;*** moderator Boris Klančnik

12.00 – 12.10: Motivation questions on educational and working environment & collaboration in the next 10-20 years; Sašo Stanojev

12.10 – 13.10: co-creative group work on the topics,

- what could be the ideal competency framework for IIOT expert (professional knowledge, transversal competences, green skills, personal skills, hobbies etc.)
- what do we get when transforming processes into knowledge, skills, competences

Co-creation will happen in 5 groups consisting of teachers, learners, company experts, school and company leadership. It will be concluded by presenting the outputs of individual group work.

### **Session 3: What is the ideal IIOT-er profile;** moderators

Nataša Kristan and Saša Kocijančič

13.10 - 13.45: co-creative group work on the topic,

- do we need to create an IIOT expert with a holistic view on business processes who will possess interdisciplinary knowledge, skills, competences or do we need to create an expert with very specific competences

Co-creation will happen in 5 groups consisting of teachers, learners, company experts, school and company leadership. It will be concluded by presenting the outputs of individual group work.

### **Conclusions and next steps;** Adrijana Hodak

13.45 - 14.00

- Collecting feedback from similar co-creative workshops in Italy, Finland and Estonia, comparing results and designing the EU IIOT competence framework
- Follow up co-creation workshop in September 2020 in collaboration with Smart specialisation chains.

### **Lunch and networking**
