

# Application form - Pact for Skills

Fields marked with \* are mandatory.

## Introduction

---

The Pact for Skills is a shared engagement and approach to skills development. It is firmly anchored in the principles of the [European Pillar of Social Rights](#) and supports the goals of the [Green Deal](#) and the [digital transformation](#), as set out in the Commission communication “[A strong Social Europe for Just Transitions](#)”.

The Pact aims to mobilise and incentivise private and public stakeholders to take concrete action for the **up skilling and reskilling of people of working age**, and, when relevant, pool efforts in the partnerships.

The Pact can be joint by any private or public organisation or partnership of organisations which aim to upskill or reskill people of working age.

The organisation(s) need(s) to be based in one of the Member States, EFTA or candidate countries.

Joining the Pact:

1. All stakeholders joining the Pact **sign up to the Charter** and its key principles, which they agree to respect and uphold.
2. Signatories of the Pact are invited to **translate their engagement into concrete commitments** on upskilling and reskilling. Commitments must be in line with the key principles and can be built around a number of “enablers” that illustrate concrete ways of implementing the different principles.
3. Commitments are monitored by at least one **key performance indicator**, e.g. number of people taking part in upskilling or reskilling.

### \* Give a short description of your organisation/partnership

*1000 character(s) maximum*

CenSec is the official Danish cluster organization for companies specializing in high tech industries like defence, homeland security, space, aerospace and cyber security. CenSec currently has 150+ member companies with leading edge skills in advanced manufacturing and production, electronic- and software development and other related industry niches. Among our members are the leading Danish Universities and other knowledge institutions in the field. CenSec works with prime contractors, systems integrators, Ministry of Defence procurement, logistic and repair agencies etc. to identify, develop and recommend appropriate supplier and sub-contractor capabilities. CenSec bridges the gap between civilian businesses and the Armed Forces and other Governmental authorities. CenSec's object is to develop a strong defence-, space-, and security industry and to strengthen small and medium-sized Danish and international enterprises, which are - or want to become - part of the industry.

## Signing up to the Charter
