Fields marked with * are mandatory.

Introduction

The Pact for Skills is a shared engagement and approach to skills development. It is firmly anchored in the principles of the [European Pillar of Social Rights](#) and supports the goals of the [Green Deal](#) and the [digital transformation](#), as set out in the Commission communication "[A strong Social Europe for Just Transitions](#)".

The Pact aims to mobilise and incentivise private and public stakeholders to take concrete action for the **up skilling and reskilling of people of working age**, and, when relevant, pool efforts in the partnerships.

Joining the Pact:

1. All stakeholders joining the Pact **sign up to the Charter** and its key principles, which they agree to respect and uphold.
2. Signatories of the Pact are invited to **translate their engagement into concrete commitments** on upskilling and reskilling. Commitments must be in line with the key principles and can be built around a number of "enablers" that illustrate concrete ways of implementing the different principles.
3. Commitments are monitored by at least one **key performance indicator**, e.g. number of people taking part in upskilling or reskilling.

Impronta Etica is a non profit organisation born in 2001 to promote sustainability and corporate social responsibility. Its mission is to promote processes towards sustainability at Italian and European levels, encouraging its members to transform their efforts towards innovation into leadership experiences of sustainable competitiveness. We have 30 company members. We are keen on the topic of reskilling and upskilling, in fact, we are the Italian partner of the project Upskill4Future launched by CSR Europe and with the support of JP Morgan. The aim of the project is to investigate how HR transformation can support the employability of vulnerable workers, who are at risk of losing their jobs due to technological progress and companies' restructuring.
