

Application form - Pact for Skills

Fields marked with * are mandatory.

Introduction

The Pact for Skills is a shared engagement and approach to skills development. It is firmly anchored in the principles of the [European Pillar of Social Rights](#) and supports the goals of the [Green Deal](#) and the [digital transformation](#), as set out in the Commission communication “[A strong Social Europe for Just Transitions](#)”.

The Pact aims to mobilise and incentivise private and public stakeholders to take concrete action for the **up skilling and reskilling of people of working age**, and, when relevant, pool efforts in the partnerships.

Joining the Pact:

1. All stakeholders joining the Pact **sign up to the Charter** and its key principles, which they agree to respect and uphold.
2. Signatories of the Pact are invited to **translate their engagement into concrete commitments** on upskilling and reskilling. Commitments must be in line with the key principles and can be built around a number of “enablers” that illustrate concrete ways of implementing the different principles.
3. Commitments are monitored by at least one **key performance indicator**, e.g. number of people taking part in upskilling or reskilling.

Give a short description of your organisation/partnership

1000 character(s) maximum

At Fundación Laboral de la Construcción, we have worked since 1992 to provide companies and employees alike the resources to be more professional, secure, qualified and with a more successful future ahead. The sector is increasingly more united and connected, and works closer with society and the rest of sectors than ever before, to face the challenges of new times.

This is the ultimate goal of the union of Confederación Nacional de la Construcción (CNC), CCOO de Construcción y Servicios and Federación de Industria, Construcción y Agro de UGT (UGT-FICA), which all together form this joint non-profit organisation.

Our goal is that the prevention of occupational risks, training, innovation, sustainability and new technologies are capable of assisting us to continue building this progressing sector that we all believe possible.
