2021 SPC Work Programme

- Final -

The Social Protection Committee (SPC) is an advisory policy Committee, established in accordance with art. 160 of the TFEU, providing a representative forum for multilateral social policy coordination, dialogue and cooperation at EU level. It brings together senior policy makers from all EU Member States and the Commission in an effort to discuss and identify the most appropriate policy measures necessary to respond to the social policy challenges across the EU. The Committee actively participates, on behalf of the Council of the European Union for employment, social affairs and health, in the European Semester process of policy coordination as per Article 2 (2b) of Council Decision (EU) 2015/773 establishing the SPC.

The Treaty-based mandate of the SPC stipulates that the Committee monitors the social situation in the EU and the development of social protection policies.¹ SPC delivers on this mandate through the use of the social open method of coordination as the main policy framework, including all major social policy strands: social inclusion, pensions, health and long-term care.

The SPC may, if necessary, prepare additional reports, formulate opinions or undertake other work within its fields of competence, at the request of the Council, the Commission or its own initiative as per Article 2(1c) of the Council Decision 2015/773, establishing the Committee. In addition, the Committee is tasked² to contribute to all aspects of the European Semester within its field of competence and report on them to the Council.

1. Priorities for SPC work in 2021

The 2021 SPC work programme takes into account the policy priorities of the Council of the European Union, the European Commission and forthcoming Portuguese and Slovenian presidencies. It focuses on two main interlinked areas of policy work, which also support the implementation European Pillar of Social Rights – one is related to the European Semester, as outlined by the 2021 Annual Sustainable Growth Strategy, while the second is focused on thematic in-depth work. In delivering on these areas, the Committee will continue to make full use of the opportunities provided by the social open method of coordination, including mutual learning.

In light of the current travel and meeting restrictions, a certain level of flexibility is to be foreseen in the SPC activities in 2021. To that end, the Committee will monitor the progress of its work and, **if necessary adapt its work programme in the course of 2021.**

¹ Art. 160 TFEU

² Council decision (EU) 2015/773, article 2b

The Committee will seek to align its activities with the work programme of the European Commission and the priorities of the forthcoming Portuguese and Slovenian presidencies.

The SPC will seek cooperation with the Employment Committee (EMCO) and the Economic Policy Committee (EPC) on these matters whenever relevant.

3.2 Thematic social reporting

Every year, the SPC Members engage in thematic social reporting on a topic chosen according to the current social policy priorities. For 2021, it is proposed that the reporting is focused on the implementation of the Council Recommendation on **Access to social protection for workers and the self-employed**, a key initiative part of the roll-out of the European Pillar of Social Rights.

To ensure comparability and the possibility of comprehensive analysis, the Member States' National Plans under the recommendation would form the basis for the thematic reporting. The consolidated feedback will feed into the Commission's review of the progress made in the implementation of this Recommendation.

3.3 Use of benchmarking frameworks

The SPC will continue to work, through its indicator Subgroup (SPC ISG) and in cooperation with the European Commission, on the development of benchmarking frameworks in the area of social protection and social inclusion, in line with the common approach agreed as concerns the use of benchmarking in the context of EPSCO work. In 2021, the Committee will finalise its work on developing benchmarking frameworks on *pension adequacy* and on *childcare and support to children*. It will further develop its **monitoring frameworks for health**, the portfolio of **indicators for long-term care**, and will further develop **the monitoring framework for the Council Recommendation on Access to Social Protection**.

A full overview of ISG activities is presented in the 2021 ISG work programme.

5. Working methods and relations with other Committees

In response to the travel and meeting restrictions introduced in 2020 in light of the Covid-19 pandemic and with the aim to protect the health and safety of its Members, the SPC has adapted its working methods. Heavier reliance on virtual meetings and enhanced written procedures allowed the Committee to successfully deliver the key items of its 2020 work programme. Nevertheless, physical meetings continue to be seen as enabling much richer and more interactive discussions.

In light of the continued uncertainties with regard to these restrictions, the **Committee meetings will continue to be held virtually in 2021, with physical meetings resuming as soon as it is deemed safe.** The SPC will monitor the progress of its work under the current restrictions and, **if necessary, adapt its work-programme in the course of 2021.**

In its cooperation with other policy Committees (EMCO, EPC, EFC, Education Committee) and with the Working Party on Public Health at Senior Level (WPPHSL), the SPC will be guided by Council Decision (EU) 2015/773 establishing the SPC, the European Council Conclusions of 24-15 October 2013 calling for more work to strengthen cooperation between the various Council configurations in order to ensure consistency of the economic, employment and social policies in line with the common EU objectives, as well as by the EPSCO Council Conclusions on Economy of Well-being, which call on the SPC to continue fostering a close cooperation with other Council Committees and preparatory bodies. This may include joint meetings, preparation of joint papers, as well as coordination of the views on cross-cutting policy issues.

6. Cooperation with the EU social partners' organizations and social NGOs

In delivering on its work programme, SPC will seek to continue its co-operation with social partners and EU-level social NGOs.
