

Cedefop Skills Forecast- Future prospects for the Health sector

Supporting apprenticeships, upskilling and reskilling in the health sector: the role of regions and cities

Ilias Livanos, Expert
Department for skills and the labour market

Employment,
Social Affairs
and Inclusion

What is the skills forecast?

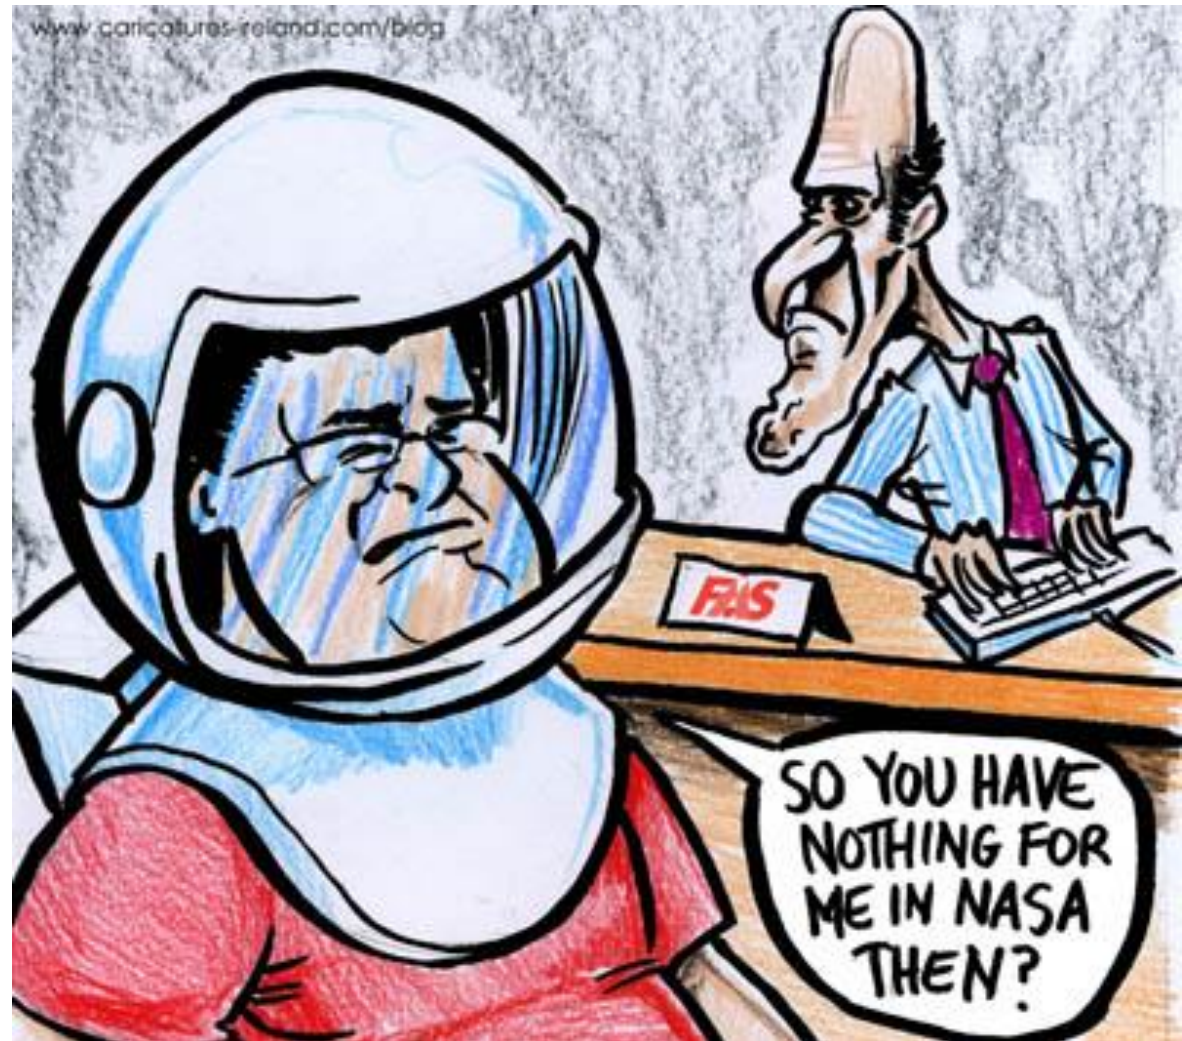

- 01 A unique database
- 02 A single methodology - harmonised and comparable data
- 03 Skills: proxied by occupations and qualifications
- 04 Supply: qualifications of working-age population/labour force
- 05 Demand: employment by sector, occupation, qualification
- 06 42 sectors 41 occupations 3 levels of qualifications
- 07 Projections for 10-15 years, EU-27+

Why do we need a skills forecast?

‘The skills mix is like a Rubik’s cube. It has multiple facets, you need to twist it to get it right.’

Why do we
need a skills
forecast?

Foundations of the forecast

The 'most likely to happen' scenario

GDP to show relatively slow growth rates

GDP to sectoral employment driven by:

- ▶ ageing
- ▶ technological change
- ▶ changing GDP composition

Human health and social work activities
