IMPORTANT NOTICE

What is the Application Form?

The Application Form is the template for EU grants applications; it must be submitted via the EU Funding & Tenders Portal before the call deadline.

The Form consists of 2 parts:.

- Part A contains structured administrative information
- Part B is a narrative technical description of the project.

Part A is generated by the IT system. It is based on the information which you enter into the Portal Submission System screens.

Part B needs to be uploaded as PDF (+ annexes) in the Submission System. The templates to use are available there.

How to prepare and submit it?

The Application Form must be prepared by the consortium and submitted by a representative. Once submitted, you will receive a confirmation.

Character and page limits:

- page limit normally **70** pages (unless otherwise provided in the Call document)
- supporting documents can be provided as an annex and do not count towards the page limit
- minimum font size — Arial 9 points
- page size: A4
- margins (top, bottom, left and right): at least 15 mm (not including headers & footers).

Please abide by the formatting rules. They are NOT a target! Keep your text as concise as possible. Do not use hyperlinks to show information that is an essential part of your application.

⚠ If you attempt to upload an application that exceeds the specified limit, you will receive an automatic warning asking you to shorten and re-upload your application. For applications that are not shortened, the excess pages will be made invisible and thus disregarded by the evaluators.

⚠ Please do NOT delete any instructions in the document. The overall page limit has been raised to ensure equal treatment of all applicants.

What is ESF+?

The European Social Fund + (ESF+) is the European Union (EU)'s main instrument for investing in people. With a total budget of roughly €99 billion for the period 2021-2027, the ESF+ will continue to provide an important contribution to the EU's employment, social, education and skills policies, including structural reforms in these areas.

EaSI in your country

EaSI project examples and EaSI organisations

Under the previous Employment and Social Innovation programme (EaSI) 2014 -2020, reports were published on projects and organisations funded by the EaSI programme. The descriptions of the projects and organisation can help understanding better what EaSI does, what type of actions it finances through calls for proposals. It also provides information on the organisations involved in the EaSI programme.

Under the ESF+ EaSI Strand, projects will be promoted at the 'Projects & Results' section on the ESF+ EaSI page at the Funding and Tenders portal. There additional information and statistics on proposals, success rates, funded projects and participants will be available as well.

Selected and completed projects will also appear at this website at 'Projects'.

In addition, the EU's Financial Transparency System also provides information on the projects awarded under EaSI, including the organisations involved in these projects and can be consulted, selecting 'EMPL – Directorate General for Employment Social Affairs and Inclusion' as Responsible Department and '1.1.6 – Employment and Social Innovation (EaSI)' as action type. By clicking 'additional options' users can further differentiate between 'grants', 'prizes', 'public procurement', etc.

Last but not least, some selected EaSI projects can be consulted at the European Commission's overview 'Examples of EU funded projects', by clicking 'advanced search' and selecting 'Employment and Social Innovation' in the 'programme name' box.

Furthermore, the ESF+ EaSI page at the Funding and Tenders portal also hosts the 'What's New' section with news about the EaSI strand. Here the Commission will inform about events concerning EaSI, including those organised in your country and publish articles informing about the strand. This news will also be published at the ESF+ page at…

The ESF+ EaSI Technical Working Group representative of your country

The EaSI strand is supported by the EaSI Technical Working Group under the ESF+ Committee, which is composed of the European Commission and government representatives of the Member States, as well as of third countries associated to the strand. The EaSI TWG oversees that the voice of key stakeholders is heard when the EaSI Annual Work Programmes are being prepared. This EaSI TWG also discusses the implementation aspects of the EaSI strand.

For more information click here.

EaSI National Contact Points (EaSI NCPs)

Under the 2021 Annual Work Programme the Commission will establish National Contact Points operating on behalf or within the national, regional and/or local authorities to promote the EaSI strand and its results in the Member States and other participating countries. This will help increase the participation in the EaSI strand and assist in upscaling, replication and/or mainstreaming of results achieved by EaSI projects. The contact details of those NCPs will be made available in due time on this page.

European Commission

Q & As

Thank you for your attention

Who can be an NCP?

Which is the national / regional or local authority that has the authorisation to operate a NCP in a country?

This depends from the country's own institutional structures. In federal countries, the regions may have the authority to designate a body as part of the national contact point, while in other countries this is purely the competence of the national authority. The bottom-line is that this authority is responsible for the European Social Fund plus, and its Employment and Social Innovation strand. Only one contact point will be designated per country.
