

Application form - Pact for Skills

Fields marked with * are mandatory.

Introduction

The Pact for Skills is a shared engagement and approach to skills development. It is firmly anchored in the principles of the [European Pillar of Social Rights](#) and supports the goals of the [Green Deal](#) and the [digital transformation](#), as set out in the Commission communication “[A strong Social Europe for Just Transitions](#)”.

The Pact aims to mobilise and incentivise private and public stakeholders to take concrete action for the **up skilling and reskilling of people of working age**, and, when relevant, pool efforts in the partnerships.

The Pact can be joint by any private or public organisation or partnership of organisations which aim to upskill or reskill people of working age.

The organisation(s) need(s) to be based in one of the Member States, EFTA or candidate countries.

Joining the Pact:

1. All stakeholders joining the Pact **sign up to the Charter** and its key principles, which they agree to respect and uphold.
2. Signatories of the Pact are invited to **translate their engagement into concrete commitments** on upskilling and reskilling. Commitments must be in line with the key principles and can be built around a number of “enablers” that illustrate concrete ways of implementing the different principles.
3. Commitments are monitored by at least one **key performance indicator**, e.g. number of people taking part in upskilling or reskilling.

MOBINOV - Automotive Cluster Association was founded in 2016, to promote the convergence of various players in the national automotive industry, including global manufacturers and suppliers present in Portugal, national suppliers, associations and knowledge centers and universities, around an ambitious action plan and structured in programs aimed at the development of this industry.

Our Mission is to push the growth of the national automotive sector through initiatives and mobilizing projects that strengthen international competitiveness through increased cooperation and coordination between enterprises, associations, public administration bodies and entities of SI&I.

The Main goals are: reinforce the competitiveness of the automotive sector, promoting the increase of exports and its internationalization and prepare a new cycle of the automotive industry on a trajectory for the "car as a service", and other automotive global trends.
