

Application form - Pact for Skills

Fields marked with * are mandatory.

Introduction

The Pact for Skills is a shared engagement and approach to skills development. It is firmly anchored in the principles of the [European Pillar of Social Rights](#) and supports the goals of the [Green Deal](#) and the [digital transformation](#), as set out in the Commission communication “[A strong Social Europe for Just Transitions](#)”.

The Pact aims to mobilise and incentivise private and public stakeholders to take concrete action for the **up skilling and reskilling of people of working age**, and, when relevant, pool efforts in the partnerships.

The Pact can be joint by any private or public organisation or partnership of organisations which aim to upskill or reskill people of working age.

The organisation(s) need(s) to be based in one of the Member States, EFTA or candidate countries.

Joining the Pact:

1. All stakeholders joining the Pact **sign up to the Charter** and its key principles, which they agree to respect and uphold.
2. Signatories of the Pact are invited to **translate their engagement into concrete commitments** on upskilling and reskilling. Commitments must be in line with the key principles and can be built around a number of “enablers” that illustrate concrete ways of implementing the different principles.
3. Commitments are monitored by at least one **key performance indicator**, e.g. number of people taking part in upskilling or reskilling.

Information on the organisation/partnership

*** You apply:**

- on your own (as one organisation)
- in partnership

*** Organisation/partnership name:**

iptsar

*** What type of stakeholder does your organisation represent?**

- | | | |
|--|---|--|

*** Give a short description of your organisation/partnership**

1000 character(s) maximum

iptsat has long been engaged in the development of solutions for management and monitoring of land and environmental analysis with the GIS (Geographic Information Systems) and Remote Sensing technologies, providing high level outputs and demonstrating high professional qualities in all aspects of GIS projects. Founded in 1987 energies in GIS, operating in developing applications for the management of geographic resources. Since 1996 iptsat has drawn a new economic planning and organizational strategy to meet the growing demand in remote sensing data, realizing the need to create a new GIS solution to be always in line with the ever-changing technology. In 1999 iptsat joined the Business Network of ESRI Italy (world Leader in GIS technology), dealing with sales, assistance and development of customized software ArcGIS suite. With the growth of its know-how, iptsat has focused in training activities, offering tutorial courses for professionals, experts and students.
