

Application form - Pact for Skills

Fields marked with * are mandatory.

Introduction

The Pact for Skills is a shared engagement and approach to skills development. It is firmly anchored in the principles of the [European Pillar of Social Rights](#) and supports the goals of the [Green Deal](#) and the [digital transformation](#), as set out in the Commission communication “[A strong Social Europe for Just Transitions](#)”.

The Pact aims to mobilise and incentivise private and public stakeholders to take concrete action for the **up skilling and reskilling of people of working age**, and, when relevant, pool efforts in the partnerships.

The Pact can be joint by any private or public organisation or partnership of organisations which aim to upskill or reskill people of working age.

The organisation(s) need(s) to be based in one of the Member States, EFTA or candidate countries.

Joining the Pact:

1. All stakeholders joining the Pact **sign up to the Charter** and its key principles, which they agree to respect and uphold.
2. Signatories of the Pact are invited to **translate their engagement into concrete commitments** on upskilling and reskilling. Commitments must be in line with the key principles and can be built around a number of “enablers” that illustrate concrete ways of implementing the different principles.
3. Commitments are monitored by at least one **key performance indicator**, e.g. number of people taking part in upskilling or reskilling.

Open Recognition Nederland is a not-for-profit organisation that was founded to support the ideal of an inclusive society. We believe that inclusiveness starts with access to learning and thus the recognition of all learning (formal and non-formal), lifelong. To support (the recognition of) learning, we organise on- and offline (expert)meetings with our national partners and we offer organisations the possibility to share their projects on our website (for free). Besides sharing knowledge and best practices, we create and share new relevant knowledge and tools that support the recognition of learning. To be able to do so, we are involved in Erasmus+ projects, together with our European partners. We focus on the use of the Open Badges infrastructure because at the moment Open Badges, digital (micro-)credentials, is the most open, accessible and reliable instrument worldwide, to show skills and support lifelong learning.
