

Application form - Pact for Skills

Fields marked with * are mandatory.

Introduction

The Pact for Skills is a shared engagement and approach to skills development. It is firmly anchored in the principles of the [European Pillar of Social Rights](#) and supports the goals of the [Green Deal](#) and the [digital transformation](#), as set out in the Commission communication “[A strong Social Europe for Just Transitions](#)”.

The Pact aims to mobilise and incentivise private and public stakeholders to take concrete action for the **up skilling and reskilling of people of working age**, and, when relevant, pool efforts in the partnerships.

The Pact can be joint by any private or public organisation or partnership of organisations which aim to upskill or reskill people of working age.

The organisation(s) need(s) to be based in one of the Member States, EFTA or candidate countries.

Joining the Pact:

1. All stakeholders joining the Pact **sign up to the Charter** and its key principles, which they agree to respect and uphold.
2. Signatories of the Pact are invited to **translate their engagement into concrete commitments** on upskilling and reskilling. Commitments must be in line with the key principles and can be built around a number of “enablers” that illustrate concrete ways of implementing the different principles.
3. Commitments are monitored by at least one **key performance indicator**, e.g. number of people taking part in upskilling or reskilling.

Information on the organisation/partnership

*** You apply:**

- on your own (as one organisation)
- in partnership

* Give a short description of your organisation/partnership

1000 character(s) maximum

Workday is a leading provider of enterprise cloud applications for finance and human resources (HR). Our applications for financial management, HR, planning, spend management, and analytics have been adopted by thousands of organisations globally and across industries, including more than 45% of the Fortune 500. Workday recognises that workers need new skills to succeed in the transforming world of work. We see skills-based employment practices and secure digital credentials as critical in defining needed skills, and matching workers with opportunity, but skills-based practices require a common skills language. Workday Skills Cloud delivers that language by using machine learning to reduce 200 million+ skills down to 200,000 terms that represent expertise and critical hiring needs. It helps refine job skills data, allowing employers to identify workers with the skills needed for emerging roles, while helping workers understand which skills will support meaningful career advancement.

Signing up to the Charter

Please confirm your organisation/partnership subscribes to the [Charter of the Pact for Skills](#), understand and share the principles of quality upskilling and reskilling. Signature of the Charter does not constitute an endorsement of the signatory organisation and its activities by the European Commission.

Commitment

* Would you like to join the Pact with concrete commitment?

Commitment is a concrete action (set of actions), which aims to upskill or reskill people of working age. In the file you can find a [non-exhaustive list of actions](#) that could be implemented under the Pact for Skills.

- Yes
- No

Non-exhaustive list of actions that could be implemented under the Pact for Skills.
