Fields marked with * are mandatory.

Introduction

The Pact for Skills is a shared engagement and approach to skills development. It is firmly anchored in the principles of the [European Pillar of Social Rights](#) and supports the goals of the [Green Deal](#) and the [digital transformation](#), as set out in the Commission communication “[A strong Social Europe for Just Transitions](#)”.

The Pact aims to mobilise and incentivise private and public stakeholders to take concrete action for the **up skilling and reskilling of people of working age**, and, when relevant, pool efforts in the partnerships.

The Pact can be joint by any private or public organisation or partnership of organisations which aim to upskill or reskill people of working age.

The organisation(s) need(s) to be based in one of the Member States, EFTA or candidate countries.

Joining the Pact:

1. All stakeholders joining the Pact **sign up to the Charter** and its key principles, which they agree to respect and uphold.
2. Signatories of the Pact are invited to **translate their engagement into concrete commitments** on upskilling and reskilling. Commitments must be in line with the key principles and can be built around a number of “enablers” that illustrate concrete ways of implementing the different principles.
3. Commitments are monitored by at least one **key performance indicator**, e.g. number of people taking part in upskilling or reskilling.

Navarra is one of the 17 Autonomous Communities in Spain. Navarra (regional capital: Pamplona-Iruña) is situated in the north of Spain, at the western end of the Pyrenees, where it shares a 163 kilometre stretch of frontier with France. It has a land area of 10,421 km². Navarre has more than 1,250 social economy businesses, giving employment to more than 20.000 people, representing more than 8,5% of the working population in the private sector. This means more than 2.5 billion euro estimated turnover, and more than 28,000 associates and volunteers at Social Economy companies. The majority of companies and employment –more than 60%– is concentrated around Cooperatives and Labour Companies, mainly associated work companies, although there is also a substantial number of entities and employment at Foundations –more than 20%. Navarra included in 2016 the social economy as one the key factors of business competitiveness. The S3 identifies the main tools required to develop this objective.
