

Application form - Pact for Skills

Fields marked with * are mandatory.

Introduction

The Pact for Skills is a shared engagement and approach to skills development. It is firmly anchored in the principles of the [European Pillar of Social Rights](#) and supports the goals of the [Green Deal](#) and the [digital transformation](#), as set out in the Commission communication “[A strong Social Europe for Just Transitions](#)”.

The Pact aims to mobilise and incentivise private and public stakeholders to take concrete action for the **up skilling and reskilling of people of working age**, and, when relevant, pool efforts in the partnerships.

The Pact can be joint by any private or public organisation or partnership of organisations which aim to upskill or reskill people of working age.

The organisation(s) need(s) to be based in one of the Member States, EFTA or candidate countries.

Joining the Pact:

1. All stakeholders joining the Pact **sign up to the Charter** and its key principles, which they agree to respect and uphold.
2. Signatories of the Pact are invited to **translate their engagement into concrete commitments** on upskilling and reskilling. Commitments must be in line with the key principles and can be built around a number of “enablers” that illustrate concrete ways of implementing the different principles.
3. Commitments are monitored by at least one **key performance indicator**, e.g. number of people taking part in upskilling or reskilling.

The Danish Committee for Health Education (DCHE) is a non-profit, non-governmental organisation, which was founded in 1964. More than 40 people are currently employed in DCHE.

DCHE has worked extensively with patient empowerment during the last 10-15 years by gaining specific expertise in developing, implementing and evaluating patient education, where the trainers consist of health professionals as well as volunteers of non-health professionals. DCHE has been implementing the programs in almost all 98 municipalities and at several hospitals in Denmark – using a combination of research, events, engagement activities, and political analysis to create European impetus – e.g. by the founding of ENOPE, the European Network on Patient Empowerment, leading the PiSCE project, participating in the PRO STEP project, and being the Danish representative in the Joint Action CHRODIS+.
