

Romani people are European citizens. Equal and Diverse!

Making EU funding & finance work for Roma

Thursday 30 September, 13.00-15.30

Objective

Since the outbreak of the COVID-19 pandemic, the EU has worked relentlessly to protect the health and wellbeing of those living in the EU and beyond and to repair the economic and social damage brought about by COVID-19.

Cohesion Policy funds, together with the Recovery and Resilience Facility, the Instrument for Pre-Accession Assistance (IPA) and the InvestEU will be key in providing large-scale financial support to address the needs of people who have been disproportionately hit by the pandemic, including the Roma.

The workshop has the double objective of:

- Informing about different EU funds and programmes available for Roma inclusion and
- Showcasing examples of partnership alliances for the efficient use of EU funds

The event will also stress the importance of applying the partnership principle and code of conduct in engaging the voice of different stakeholders, especially Roma.
