

# Application form - Pact for Skills

Fields marked with \* are mandatory.

## Introduction

---

The Pact for Skills is a shared engagement and approach to skills development. It is firmly anchored in the principles of the [European Pillar of Social Rights](#) and supports the goals of the [Green Deal](#) and the [digital transformation](#), as set out in the Commission communication “[A strong Social Europe for Just Transitions](#)”.

The Pact aims to mobilise and incentivise private and public stakeholders to take concrete action for the **up skilling and reskilling of people of working age**, and, when relevant, pool efforts in the partnerships.

The Pact can be joint by any private or public organisation or partnership of organisations which aim to upskill or reskill people of working age.

The organisation(s) need(s) to be based in one of the Member States, EFTA or candidate countries.

Joining the Pact:

1. All stakeholders joining the Pact **sign up to the Charter** and its key principles, which they agree to respect and uphold.
2. Signatories of the Pact are invited to **translate their engagement into concrete commitments** on upskilling and reskilling. Commitments must be in line with the key principles and can be built around a number of “enablers” that illustrate concrete ways of implementing the different principles.
3. Commitments are monitored by at least one **key performance indicator**, e.g. number of people taking part in upskilling or reskilling.

The Institute for Future Research is bringing together people and organizations to reach a desired joint future through the design and realization of relevant research, projects, and training.

We are a trusted source for highlighting and sharing the factors that influence the economic, political, social, and environmental landscape through foresight studies designed with local and global stakeholders and shaping the future through training and joint innovative projects.

We enable decision-makers, researchers, and individuals who would like to be active in this field to strategically plan the future and continue their studies by assisting them in utilizing the necessary technological tools.

We aim to help create a better future for all. We perform at three major levels:

- Design projects for shaping the future
- Providing training, workshops, and insight through events
- prepare foresight studies, horizon-searches for defining and taking the actions for creating futures
