

# Application form - Pact for Skills

Fields marked with \* are mandatory.

## Introduction

---

The Pact for Skills is a shared engagement and approach to skills development. It is firmly anchored in the principles of the [European Pillar of Social Rights](#) and supports the goals of the [Green Deal](#) and the [digital transformation](#), as set out in the Commission communication “[A strong Social Europe for Just Transitions](#)”.

The Pact aims to mobilise and incentivise private and public stakeholders to take concrete action for the **up skilling and reskilling of people of working age**, and, when relevant, pool efforts in the partnerships.

The Pact can be joint by any private or public organisation or partnership of organisations which aim to upskill or reskill people of working age.

The organisation(s) need(s) to be based in one of the Member States, EFTA or candidate countries.

Joining the Pact:

1. All stakeholders joining the Pact **sign up to the Charter** and its key principles, which they agree to respect and uphold.
2. Signatories of the Pact are invited to **translate their engagement into concrete commitments** on upskilling and reskilling. Commitments must be in line with the key principles and can be built around a number of “enablers” that illustrate concrete ways of implementing the different principles.
3. Commitments are monitored by at least one **key performance indicator**, e.g. number of people taking part in upskilling or reskilling.

## Information on the organisation/partnership

---

- Textiles

### \* Give a short description of your organisation/partnership

1000 character(s) maximum

The Foundation Matera-Basilicata 2019 is the body responsible for the development and the delivery of the cultural program of Matera 2019, European Capital of Culture. The Foundation represents all the major institutions of the Region Basilicata and is part of the ECoCs network. The Dossier with which Matera was selected was aimed at enhancing culture and creativity in its broadest sense, considered as a structuring dimension of territorial development (collective well-being, improvement of urban quality and culture of living & hosting, tourism increase and qualification, economic development connected with the cultural and creative components, technological and social innovation). The slogan "Open Future" embraced the principle of openness as a key to define the collective future and implement a new model in which all citizens – of all abilities and ages – can be directly involved. Currently the Foundation is leading "DeuS", a EU project aimed at developing a new training path for CCS

## Signing up to the Charter

---

Please confirm your organisation/partnership subscribes to the [Charter of the Pact for Skills](#), understand and share the principles of quality upskilling and reskilling. Signature of the Charter does not constitute an endorsement of the signatory organisation and its activities by the European Commission.
