Certificates and Diplomas

- The European Learning Model (ELM) allows interoperability of Learning Opportunities, Qualifications and Credentials in Europe
- The ELM is linked to existing frameworks and classifications (e.g. EQF/NQF, ESCO, ISCED-f)
- European Digital Credentials for Learning (EDCs) can describe any formal or non-formal learning
- EDCs are digital verifiable credentials that must be signed with an eIDAS-compliant electronic seal
- EDCs are securely stored in standard-compliant wallets (e.g. Europass), and controlled by their owners

The screenshot shows the 'My Library' page in the Europass system. At the top, there is a navigation bar with 'Learn in Europe', 'Work in Europe', 'Find a job', and 'Find a course'. Below this, a user profile section shows 'Me' and 'My Library' (highlighted with a red box), along with 'My Skills', 'My Interests', and 'My Applications'. The main content area is titled 'My Library' and includes an 'Exit' button. A message states: 'Use the Europass Library to store and organise your documents.' There are three sections: 1. 'CVs' with an 'Add' button and a 'Create a CV' button. A preview of a CV for 'Ana Andromeda' is shown, with the filename 'Ana_202110CV' and a timestamp 'Saved 20/10/2021 - 08:43 PM'. 2. 'Cover letters' with an 'Add' button and a 'Create a cover letter' button. A message below says 'There are currently no cover letter(s) added to your library.' 3. 'Certificates and diplomas' with an 'Add' button and a wallet ID address: 'europa.eu/europass/wallet/n006ahym'. Two certificate thumbnails are displayed: 'Certificate of Participation' and 'Graduate University Study of Civil Engineering', both issued to 'Ana Andromeda'.

ELM uses the multilingual classification of European Skills, Competences, Qualifications and Occupations (ESCO) to describe **knowledge and skills** achieved and **occupations** a person is entitled to practice
