

Application form - Pact for Skills

Fields marked with * are mandatory.

Introduction

The Pact for Skills is a shared engagement and approach to skills development. It is firmly anchored in the principles of the [European Pillar of Social Rights](#) and supports the goals of the [Green Deal](#) and the [digital transformation](#), as set out in the Commission communication “[A strong Social Europe for Just Transitions](#)”.

The Pact aims to mobilise and incentivise private and public stakeholders to take concrete action for the **up skilling and reskilling of people of working age**, and, when relevant, pool efforts in the partnerships.

The Pact can be joint by any private or public organisation or partnership of organisations which aim to upskill or reskill people of working age.

The organisation(s) need(s) to be based in one of the Member States, EFTA or candidate countries.

Joining the Pact:

1. All stakeholders joining the Pact **sign up to the Charter** and its key principles, which they agree to respect and uphold.
2. Signatories of the Pact are invited to **translate their engagement into concrete commitments** on upskilling and reskilling. Commitments must be in line with the key principles and can be built around a number of “enablers” that illustrate concrete ways of implementing the different principles.
3. Commitments are monitored by at least one **key performance indicator**, e.g. number of people taking part in upskilling or reskilling.

Innovation is at the core of IE and its history. IE has emerged over four decades as a challenger to more traditional universities and has itself followed an innovative model of growth with little to no precedents in Europe. IE started as a Postgraduate Business School and evolved to a fully-fledged accredited University with five schools: IE Business School, IE Global and Public Affairs, IE School of Human Science and Technology, IE School of Law, IE School of Architecture and Design. Focus on Innovation and Technology is driven from the IE School of Human Science and Technology; We teach current and emerging digital technologies that are driving radical improvements in business processes and disrupting the economy. Our course participants gain practical know-how in innovation methodologies and learn to implement them within companies. IE is committed to upskill and reskill students from across all ages and all parts of the world.

Signing up to the Charter
