

# Application form - Pact for Skills

Fields marked with \* are mandatory.

## Introduction

---

The Pact for Skills is a shared engagement and approach to skills development. It is firmly anchored in the principles of the [European Pillar of Social Rights](#) and supports the goals of the [Green Deal](#) and the [digital transformation](#), as set out in the Commission communication “[A strong Social Europe for Just Transitions](#)”.

The Pact aims to mobilise and incentivise private and public stakeholders to take concrete action for the **up skilling and reskilling of people of working age**, and, when relevant, pool efforts in the partnerships.

The Pact can be joint by any private or public organisation or partnership of organisations which aim to upskill or reskill people of working age.

The organisation(s) need(s) to be based in one of the Member States, EFTA or candidate countries.

Joining the Pact:

1. All stakeholders joining the Pact **sign up to the Charter** and its key principles, which they agree to respect and uphold.
2. Signatories of the Pact are invited to **translate their engagement into concrete commitments** on upskilling and reskilling. Commitments must be in line with the key principles and can be built around a number of “enablers” that illustrate concrete ways of implementing the different principles.
3. Commitments are monitored by at least one **key performance indicator**, e.g. number of people taking part in upskilling or reskilling.

## \* Give a short description of your organisation/partnership

1000 character(s) maximum

The core of the C-SHIP project is the notion of entrepreneurship applied to the Cultural and Creative Industries (CCIs). For more than 20 years, ICHEC has successfully developed various programs directly or indirectly linked to entrepreneurship (Cap'Ten, Eldorado, Dream, PME-Start, Start-Lab).

ICHEC has thus, contributed to better understanding the entrepreneurial fabric of Brussels and to improving it through innovative educational projects. Many of these projects are now accessible in a market that has become very competitive.

On the other hand, the application of this unique expertise to the cultural and creative sectors does not yet have an equivalent. The implementation of the C-SHIP project is in fact based on three cornerstones: sustainable and inclusive management expertise, application to the cultural and creative sectors, scientific knowledge in heritage economics and the economics of culture.
