

Application form - Pact for Skills

Fields marked with * are mandatory.

Introduction

The Pact for Skills is a shared engagement and approach to skills development. It is firmly anchored in the principles of the [European Pillar of Social Rights](#) and supports the goals of the [Green Deal](#) and the [digital transformation](#), as set out in the Commission communication “[A strong Social Europe for Just Transitions](#)”.

The Pact aims to mobilise and incentivise private and public stakeholders to take concrete action for the **up skilling and reskilling of people of working age**, and, when relevant, pool efforts in the partnerships.

The Pact can be joint by any private or public organisation or partnership of organisations which aim to upskill or reskill people of working age.

The organisation(s) need(s) to be based in one of the Member States, EFTA or candidate countries.

Joining the Pact:

1. All stakeholders joining the Pact **sign up to the Charter** and its key principles, which they agree to respect and uphold.
2. Signatories of the Pact are invited to **translate their engagement into concrete commitments** on upskilling and reskilling. Commitments must be in line with the key principles and can be built around a number of “enablers” that illustrate concrete ways of implementing the different principles.
3. Commitments are monitored by at least one **key performance indicator**, e.g. number of people taking part in upskilling or reskilling.

* Give a short description of your organisation/partnership

1000 character(s) maximum

Photonics Finland is a technology oriented association and cluster that drives the photonics industry and academia in Finland by connecting Finnish photonics companies, universities, research institutes, professionals, students, and public authorities. Photonics Finland has 272 individual and 102 company- or societal members.

Photonics Finland supports the development of the photonics field from basic research through to the deployment and market launch of products. It is the single point of contact for photonics ecosystem in Finland. Photonics Finland develops new business and research opportunities, and helps realize the full potential of the photonics industry in Finland in sectors like health care, energy efficiency, safety, manufacturing, and sustainability.

Signing up to the Charter

Please confirm your organisation/partnership subscribes to the [Charter of the Pact for Skills](#), understand and share the principles of quality upskilling and reskilling. Signature of the Charter does not constitute an endorsement of the signatory organisation and its activities by the European Commission.
