

Application form - Pact for Skills

Fields marked with * are mandatory.

Introduction

The Pact for Skills is a shared engagement and approach to skills development. It is firmly anchored in the principles of the [European Pillar of Social Rights](#) and supports the goals of the [Green Deal](#) and the [digital transformation](#), as set out in the Commission communication “[A strong Social Europe for Just Transitions](#)”.

The Pact aims to mobilise and incentivise private and public stakeholders to take concrete action for the **up skilling and reskilling of people of working age**, and, when relevant, pool efforts in the partnerships.

The Pact can be joint by any private or public organisation or partnership of organisations which aim to upskill or reskill people of working age.

The organisation(s) need(s) to be based in one of the Member States, EFTA or candidate countries.

Joining the Pact:

1. All stakeholders joining the Pact **sign up to the Charter** and its key principles, which they agree to respect and uphold.
2. Signatories of the Pact are invited to **translate their engagement into concrete commitments** on upskilling and reskilling. Commitments must be in line with the key principles and can be built around a number of “enablers” that illustrate concrete ways of implementing the different principles.
3. Commitments are monitored by at least one **key performance indicator**, e.g. number of people taking part in upskilling or reskilling.

The Automotive Vocational Training Consortium is a public law entity whose purpose is to contribute to the training and qualification of professionals, and to the development of automotive companies and other related sectors.

The main challenge of the Consortium is to promote the formation of the professional profiles necessary for the automotive sector as an engine of growth and competitiveness of the Catalan economy. In this context, training and innovation become fundamental tools for shaping the sector's future.

The Consortium ensures that the sector's training offer is made up of a portfolio with quality proposals, in line with the requirements and needs of the Automotive Industry Cluster of Catalonia and the Catalan Government.

It also works to detect and determine trends in new professional and technical profiles and to promote actions to strengthen the links between training and production systems, as well as new innovation projects related to the activity of the sector.

Signing up to the Charter
