Annex 2: Underlying data and detailed information on measures to address energy poverty and high energy prices, and to cushion the impact of high inflation in general

This annex contains summary tables of the data provided by ISG delegates under the 2023 collection of administrative data on government measures to address energy poverty and high energy prices in Member States. Note that the data and results of the data collection are not comparable across countries. The measures in scope of the data collection have been rearranged into 3 categories of measures:

(a) *Measures to combat energy poverty by directly improving the affordability of residential energy*

- A.1) Ad-hoc income-support/heating allowance aimed at cushioning the impact of high energy prices
- A.2) Caps on energy prices or reduction in energy tariffs
- A.3) VAT or other tax reductions on energy consumption

(b) *Measures to ensure access to a certain (minimum) level of residential energy*

- B.1) Measures against energy disconnection (cut-offs)
- B.2) In-kind supply of energy (incl. minimum quota)

(c) *(Measures aimed at cushioning the impact of high inflation in general (thus measures whose specific purpose is not exclusively to face high energy prices but which are expected to contribute to help cope with them)).*

- C.1) Other ad-hoc income-support measures (not related to increases in standard benefits) aimed at cushioning the impact of high inflation in general
- C.2) Increases in standard benefits aimed at cushioning the impact of high inflation in general

Data was generally collected on the “main” measures for each type of measure. As an indication, the “main” measures for a given type of measure would be:

- The main two measures (i.e. largest in actual expenditure amount¹) – in the elapsed quarter - of the *not targeted measures* under this measure type.
- As well as the main two measures (i.e. largest in number of recipients) – in the elapsed quarter - of the *targeted measures* under this measure type.

It is important to highlight that any measure related to wages are excluded from this data collection.

The data collected on each measure covers the **name** of the measure (both in national language and in English translation), whether this measure is **targeted or not** to specific households/persons (and any relevant comment about this), and

- *For the measure types A1-A3, B1-B2 and C1:* Quarterly data on: 1) the number of recipients (incl. the unit, e.g. at person/household level) at the end of the elapsed quarter and on 2) the related expenditure amount (in national currency) during this quarter, for the main measures provided.
- *Only for the measure type C.2) Standard benefits:* Quarterly data on the actual level of increase (in % change from the previous quarter) in the amount of the considered benefit provided for the following standard benefits: i) minimum income benefits, ii) unemployment benefits, iii) family benefits, iv) housing benefits and v) pension benefits. The “actual level of increase (in %)” refers here to an increase in the amount of a standard benefit - whether this increase is related to indexation strictly speaking or not – with this increase aiming at partially or fully cushioning the impact of higher energy prices or of inflation in general.

¹ The number of recipients may also be used but, since not targeted measures are in principle targeting the whole population, this may not be a useful criterion to determine which ones of them are the 2 main ones.

(a) Energy poverty measures

– Number of recipients

Country	Name of measure (national language)	Name of measure (in English)	Category (codes A1... C2)	Permanent or temporary	Universal or targeted	Frequency of data	Type of recipients	Number of recipients

BE	Basispakket voor elektriciteit en gas, forfait de base pour l'électricité et le gaz	Basic package for electricity and gas	A1	temporary	universal	one-off	households												
BE	Stookoliecheque / Cheque mazout	Allowance for fuel oil or propane in bulk	A1	temporary	universal	one-off	households					894,352							
BE	Toelage voor pellets in bulk / allocation pour les pellets en vrac	Allowance for pellets in bulk	A1	temporary	universal	one-off	households					18,247							
BE	Eenmalig forfait van € 80 voor personen die recht hebben op het sociaal tarief voor elektriciteit / Montant forfaitaire unique de € 80 pour les personnes ayant droit au tarif social pour l'électricité	One-off allowance of € 80 for people entitled to the 'social rate' for electricity (for every household with a social rate on 30/09/2021)	A1	temporary	targeted	one-off	households				908,937								
BE	Sociaal tarief voor energie voor personen met een verhoogde tegemoetkoming / Tarif social pour l'énergie pour les personnes bénéficiant d'une intervention majorée	Social rate for energy for households with the increased reimbursement	A2	temporary	targeted	quarterly	households	871,301	894,172	908,937	924,456	880,024	913,729	943,955	979,052	948,560			
CY	Άπευθείας επιδότηση της αύξησης της διατίμησης στους λογαριασμούς ρεύματος νοικοκυριών και επιχειρήσεων	Direct subsidisation of the price increase on household and business electricity bills	A2	temporary	universal	one-off	households				467,936	468,795							
CZ	Zvýšení přídavku na dítě	An increase in child benefit	C2	permanent	targeted	monthly	households	218,600	229,700	226,900	233,100	249,000	256,400	271,200	288,500				
CZ	Zvýšení existenčního a životního minima	An increase in the existence and living minimum from July 2022	C2	permanent	targeted	monthly	households		66,700		65,000		60,300		61,200				
CZ	Změny u příspěvku na bydlení	Changes to the housing allowance	C2	permanent	targeted	monthly	households	147,300	154,500	148,000	146,000	147,200	154,600	158,700	168,300				

Note: For BE, some of the figures provided are only provisional. Also, for the "social rate for energy for households with the increased reimbursement" (last measure for BE on this page), these numbers reflect 'everyone' with a social rate, meaning the 'normal' group who has access due to receiving certain benefits or allowances and the 'new and extended' group who receives the 'increased reimbursement'.
