The purpose of this document is to enable applicants to prepare their grant applications.

Please be sure to read these guidelines carefully before replying to the current call for proposals.

Main financial and management rules

Disclaimer: this document provides the applicants with a quick summary of the main legal and financial rules contained in the Financial Regulation (FR) applicable to the general budget of the European Communities¹ and its Implementing Rules (IR)². The information given is not exhaustive and beneficiaries are therefore asked to carefully read the agreement sent to them, as it will constitute the legal basis for the grant.

1 General principles

Grants are subject to the principles laid down in the Financial Regulation, in particular the principles of co-financing, prohibition of double financing and non-profit.

Co-financing principle

European Union grants may not finance the entire cost of the action to be subsidised. The applicant must contribute to the implementation of the action either by way of own resources or by financial contribution from third parties (in the form of public or private assistance obtained elsewhere).³

No double financing rule

Each action may give rise to the award of only one grant, there can be no duplicate European Union funding of the same expenditure. The applicant must indicate the sources and amounts of any other funding received or applied for in the same financial year for the same action or for any other action and for routine activities (running costs).⁴

Non-profit rule

The EU grant may not have the purpose or effect of producing a profit for the beneficiary. Profit is defined as a surplus of total actual receipts over the total actual costs of the action. Any income of the action must be indicated in the estimated budget and the final financial statement. The amount of the grant will be reduced by the amount of any surplus.⁵

2 Rules related to the grant requested

- The rules on co-financing rates can be found in the text of the call for proposals.
- The grant does not cover ineligible costs (see below for definition).

¹ Council Regulation (EC, Euratom), n° 1605/2002 of 25.06.2002 (OJ L 248, 16.09.2002), as last amended by Regulation (EU, Euratom) n°1081/2010 of the European Parliament and of the Council of 24 November 2010, http://ec.europa.eu/budget/biblio/documents/regulations/regulations_en.cfm#2

² Commission Regulation (EC, Euratom) n° 2342/2002 of 23.12.2002, (OJ L 357, 31.12.2002) and subsequent amendments: Commission Regulation (EC, Euratom) n° 1261/2005 of 20.07.2005 (OJ L 201, 02.08.2005), Commission Regulation (EC, Euratom) n° 1248 of 07.08.2006 (OJ L 227, 07.08.2006) and Commission Regulation n° 478/2007 (OJ L 111, 28.04.2007) (<http://eur-lex.europa.eu/LexUriServ/site/en/consleg/2002/R/02002R2342-20070501-en.pdf>)

³ Art. 113 FR and 172 IR

⁴ Art. 111 FR and 173(5) IR

⁵ Art. 109(2) FR and 165(1) IR

- Contributions in kind (i.e. contributions for which no financial flow can be traced in the written accounts like unpaid charity work by a private individual or corporate body, etc.) cannot be accepted.
- Signed letters of commitment from the applicant organisation and/or other sources must be provided stating the precise amount of each financial (cash) contribution to the budget. If other institutions or organisations (partners) are involved in carrying out the project, the letter of commitment/partnership, from each of the partners, should also provide the name, address and person responsible and explain the nature of their involvement as well as, where applicable, their financial contribution in cash.
- Costs incurred by partners will be eligible in the same way as those incurred by the beneficiary.
- The beneficiary alone shall be accountable to the Commission for the implementation of the action. It shall undertake that the conditions applicable to it under Articles II.14 (eligible costs) and II.19 (checks and audits) of the Grant Agreement shall also apply to the partners.
- An external audit report of the previous accounts of the applicant organisation produced by an approved external auditor must be provided for grant applications where the cost to be financed exceeds EUR 500.000. No audit report is required from public bodies or international organisations.⁶ The report must certify the accounts for the last financial year available.
- The partial or total withholding by the applicant of any information that may have an impact on the Commission's final decision concerning the application will entail the automatic disqualification of the application or, if discovered at a later stage, will entitle the Commission to impose financial and administrative penalties⁷.

3 The estimated budget of the action

3.1 The budget must be detailed and balanced

Grant applications must include a detailed estimated budget presented in Euro (see application form). Applicants established in countries outside the Euro zone must use the conversion rates published in the Official Journal of the European Union (OJ) (<http://ec.europa.eu/budget/inforeuro/index.cfm?Language=en>). Applicants should be aware that they fully carry the exchange rate risk.

The budget estimate must be properly balanced: the two totals (income and expenditure) must be the same, since the available income (including the grant requested from the Commission) will have to finance the planned expenditure⁸. Please make sure that all the items related to the implementation of the action are included and not just those for which financing is being sought.

⁶ Art. 173(4) IR

⁷ Art. 175 IR

⁸ Art. 173(3) IR

3.2 Expenditure

Expenditure must include the estimated costs exclusively for the implementation of the action.

3.2.1 General criteria for eligibility of costs

In order to be eligible for EU funding, costs actually incurred must meet the following criteria⁹:

- (a) be incurred during the duration of the action, with the exception of costs relating to final reports and audit certificates;
- (b) be indicated in the estimated overall budget of the action attached to the grant agreement;
- (c) be necessary for the implementation of the action which is the subject of the grant;
- (d) be identifiable and verifiable, in particular being recorded in the accounting records of the beneficiary and determined according to the applicable accounting standards of the country where the beneficiary is established and according to the usual cost-accounting practices of the beneficiary;
- (e) comply with the requirements of applicable tax and social legislation;
- (f) be reasonable, justified and comply with the requirements of sound financial management, in particular regarding economy and efficiency.

The successful applicant must take care to avoid any unnecessary or unnecessarily high expenditure.

The beneficiary's internal accounting and auditing procedures must permit a direct reconciliation of the costs and revenue declared in respect of the action with the corresponding accounting statements and supporting documents.

Documentation justifying costs must be kept by the beneficiary for **five years** following final payment by the Commission.

Expenditure eligible for financing may not have been incurred before the grant application was lodged. Please note that the call might precise a specific reference date for the eligibility of costs.

Extra costs associated with the participation of people with disabilities are also eligible. These costs may be required to cover the use, for example, of special means of transport, personal assistants or sign language interpreters.

3.2.2 Eligible direct costs

The eligible direct costs for the action are those costs which, provided that they satisfy the criteria of eligibility set out above, are identifiable as specific costs directly linked to the performance of the action and which can therefore be booked to it directly.

⁹ Art. 172a IR

In particular, the following direct costs may be considered eligible:

Staff costs

The costs of staff (permanent or temporary staff employed by the beneficiary or the partners) assigned to the implementation of the action, comprising actual salaries plus social security charges and other statutory costs included in the remuneration, are eligible. The salary costs should not exceed the average rates corresponding to the beneficiary's usual policy on remuneration. In addition, they should not be higher than the generally accepted market rates for the same kind of task.

The costs of personnel of national administrations may be considered as eligible to the extent that they relate to the cost of activities which are additional and which the relevant public authority would not carry out if the project concerned was not undertaken.

Please fill in the form reserved for these costs in the budget estimate (see application form) by indicating the persons to be remunerated (full-time/part-time), the number of days of work to be performed and the daily rate calculated on the basis of an average of 225 workable days per year. The determination of the workable days should be made respecting the standard working time either under national laws, collective agreements or under the organisations' normal accounting practice. An example for determining the total workable days per year could be as follows (provided what is established in the appropriate legislation):

Days/year	365 days
Less 52 weekends	104 days
Less annual holidays	25 days
<u>Less statutory holidays</u>	<u>11 days</u>
Total workable days =	225 days

Daily rate =
$$\frac{\text{Gross actual salaries plus social security charges + statutory costs}}{\text{Total workable days}}$$

Should your proposal be financed by the Commission, only the real costs (i.e. actual salaries) will be considered as eligible costs.

The actual time spent on the action must be recorded on a regular basis using timesheets or an equivalent time registration system established and certified by the employer. Timesheets must be dated and signed by the individual concerned and validated by the employer. It is recommended to adopt a single timesheet encompassing the overall time worked by each staff member (not just the time worked by the employee on the particular EU supported action).

Timesheets should not be sent to the Commission, except if specifically requested. For instance, when submitting the request for final payment, the beneficiary might be requested to provide pay slips and timesheets justifying the actual staff costs declared, as well as the basis for the calculation of daily rates and workable days.

Only persons who are directly employed by the promoter and/or the partners and who receive a salary are considered staff. All other persons, i.e. persons who receive a fee and/or submit an invoice for their services are considered external experts and are subject to the rules governing the award of contracts (see subcontracting below). The

cost of any work to be performed by external experts must not be included in staff costs but under services.

Travel, accommodation and subsistence allowances

Travel costs must not exceed the most reasonable rates available on the market. Accommodation and subsistence costs for staff taking part in the action are eligible provided that they are in line with the beneficiary's usual practices on travel costs and do not exceed the scales approved periodically by the Commission which are set out in the table below.

Expenses for participants from non-partner organisations (i.e. in conferences) could also be declared under "travel".

Journeys must be carried out by the most direct and economic route. Economy class fares will be used as the benchmark for analysing air travel costs. Air travel is acceptable only for distances above 400 km, i.e. return flight above 800 km. For other modes of transport, the benchmark is the first-class rail fare. Car journeys: equivalent of corresponding first-class train ticket.

The *Daily subsistence allowances (DSA)* are paid in addition to costs for accommodation as a flat-rate amount and are considered to cover breakfast and two main meals, local transport, the cost of telecommunications and all other sundries. Daily subsistence allowances are to be calculated as follows according to the length of the mission:

- stays less or equal to 6 hours: reimbursement of actual costs (on production of supporting documents);
- more than 6 hours up to 12 hours inclusive: 0.5 DSA;
- more than 12 hours up to 24 hours inclusive: 1 DSA;
- more than 24 hours up to 36 hours inclusive: 1.5 DSA;
- more than 36 hours up to 48 hours inclusive: 2 DSA;
- more than 48 hours up to 60 hours inclusive: 2.5 DSA, etc.

The maximum amounts (in Euro per calendar day) accepted for each country are set out in the table below, and applicants are advised to adhere to these rates in their budget estimates¹⁰. Please note that this is a general list; please check the call for proposals to find out the eligible countries for your specific call.

¹⁰ The daily allowance rates are subject to periodic review by the Commission.

Destinations		DSA in EUR	Maximum hotel price in EUR	Destinations		DSA in EUR	Maximum hotel price in EUR
AL	Albania	50,00	160,00	LI	Liechtenstein	80,00	95,00
AT	Austria	95,00	130,00	LT	Lithuania	68,00	115,00

IS	Iceland	85,00	160,00	XK	Kosovo	80,00	140,00
IT	Italy	95,00	135,00				

Please note that the Commission and the other European Institutions cover the travel and subsistence costs of their own officials when they participate in an event organised by the beneficiary and these should therefore not be included in the budget estimate.

Catering

The total amount calculated according to the above mentioned rules regarding Daily subsistence allowances shall constitute a maximum. If catering services are provided by the organisers, the DSAs directly paid to participants must be reduced accordingly. In such cases, the daily allowance would be reduced by 30% for each meal provided, and by 15% for breakfast.

Costs of services

Information dissemination and publications costs can be taken into account provided that they are directly related to the action. Please give, for each publication and/or other materials, a description, an estimate of the number of pages and copies planned the frequency and language of publication, an indication of the production costs per copy as well as an estimate of the distribution costs where appropriate.

Translation costs must include the following details: the number of languages, the number of pages to be translated and the rate applied per page. These rates may not exceed the most reasonable market rates.

Interpretation: the different components must be specified. In particular, the number of languages, the number of interpreters, the number of days and the daily rates must be specified. The accepted daily fee of an interpreter may not exceed EUR 700 (including VAT). Interpreters should be hired locally. For their travel and subsistence expenses to be covered by the grant, it must be impossible to hire them locally and it must be explained why this is so.

Evaluation: if the action proposed requires some form of evaluation, monitoring and evaluation methods must be developed, as well as tools to assess, on an on-going basis, the progress of the action in relation to the objectives defined at the beginning and the results. The cost of such work will be regarded as eligible expenditure.

Financial support to young people and SMEs: The beneficiary will provide financial support to both mobile young people and SMEs from the sub-items "*Financial support to young people*"¹¹ and "*Financial support to SME*" respectively to be included under the sub-heading "Other costs". Flat-rate financing is the funding mechanism applicable. The rules governing the calculation and allocation of grants to those target groups are duly detailed in sections 4 to 7 of the annex to the call for proposals VP/2012/006, 'Implementing Guide'.

Subcontracting and provision of services

This heading can cover the costs of subcontracting or provision of services by an external party in connection with the implementation of the action (consultancy fees, production of documents, studies, preparatory training for young mobile workers¹², external evaluation etc.).

Work and tasks carried out by the project partners (as described in the letters of commitment) are not subject to these rules of subcontracting. However, it is not permissible to include normal commercial suppliers of goods and services as project partners in order to avoid these rules. By way of example, the Commission does not find it appropriate to include as project partners independent consultants, conference organisers, and so on.

Applicants should have the operational capacity to complete the action to be supported. However, if the staff does not have the skills required, when justified and necessary, parts of the project may be subcontracted to another person or organisation. In this case, the beneficiary shall ensure that¹³ the relevant terms applicable to itself under the agreement are also applicable to the subcontractors.

It must be clearly specified which tasks will be subcontracted and why this subcontracting is necessary, in the annex foreseen for this purpose in the electronic application form ("Contracts for implementing the action").

In principle, only contracts that exceed the threshold of € 5 000 should be included in this annex. The general rules on subcontracting should however be observed.

Main rules related to subcontracting activities

When concluding external contracts in order to implement the action, the beneficiary must seek competitive tenders from potential contractors and award the contract in writing to the bid offering **the best value for money, i.e. the best price-quality ratio**. In doing so, the beneficiary shall observe the principles of transparency and equal treatment of potential contractors and shall take care to avoid any conflict of interests¹⁴.

¹¹ For a swifter management of the budget, this item can be divided into the following two sub-categories : "*Job interview abroad for young people*" and "*Job placement abroad for young people*"

¹² If the preparatory training is provided by the applicant organisation's staff, then the related costs should be covered under the heading "Staff costs"

¹³ The terms related to liability, conflict of interests, confidentiality, publicity, evaluation, assignment and checks and audits

¹⁴ Art. 120FR, 184 IR

Sub-contracts by a "public" beneficiary/partner must be awarded in accordance with the applicable national rules on public tendering and in conformity with EU Directives on public tendering procedures.

Where the value of the procurement contract awarded exceeds EUR 60 000, the beneficiary shall, in addition to the above general rules, abide by the following rules: beneficiaries must, if requested, be able to prove (including proof of posting) that they have sought bids from at least three different tenderers.

Contracts as referred above may be awarded only in the following cases:

- a) They may only cover the execution of a limited part of the action;
- b) Recourse to the award of contracts must be justified in relation to the nature of the tasks necessary for the implementation of the action;
- c) The tasks to be subcontracted and the corresponding estimated costs must be set out in detail in the budget estimate;
- d) Any recourse to the award of contracts while the action is underway shall be subject to prior written authorisation by the Commission;
- e) The beneficiary shall retain sole responsibility for the implementation of the action and for compliance with the provisions of the agreement. The beneficiary must undertake the necessary arrangements to ensure that the subcontractor waives all rights in respect of the Commission under the agreement;
- f) The beneficiary must undertake to ensure that the terms, mentioned above, applicable to itself under the agreement are also applicable to the subcontractor.

Administration costs

Depreciation for purchase of equipment¹⁵: the purchase cost of equipment (new or second-hand) is eligible provided that it is written off in accordance with the tax and accounting rules applicable to the beneficiary and generally accepted for items of the same kind. Only the portion of the equipment's depreciation corresponding to the period of eligibility for EU funding covered by the grant agreement and the rate of actual use for the purposes of the action may be taken into account by the Commission. A justification for the need of purchasing such equipment is to be annexed to the budget estimate.

Other eligible administrative costs are: rental of meeting rooms (coffee breaks included), rental of interpretation booths, communication costs (other than overheads), videoconference, charges for financial services, costs relating to a bank guarantee and to external audits, etc. Indicative amounts for rental of booths, excluding technical equipment: EUR 750 (excluding VAT) per booth per day; rental of booths with equipment and technical assistance: EUR 1200 (excluding VAT) per booth per day.

3.2.3 Eligible indirect costs - Overheads

Indirect costs are general administrative costs – overhead costs incurred in connection with the eligible direct costs of the action. They are limited to a maximum flat-rate of 7% of the total eligible direct costs for the action. These can include maintenance, stationery, photocopying, mailing postage, telephone and fax costs, heating, electricity or other forms of energy, water, office furniture, insurance and any other expenditure necessary for the successful completion of the project. Postage costs are considered

¹⁵ Art. 172 IR

as overhead costs and cannot be accepted under the headings "publications" or "administration".

If the accepted budget includes a provision for flat-rate funding in respect of indirect costs, such costs do not need to be supported by accounting documents.

Indirect costs are not eligible for an action where the beneficiary already receives an operating grant from the EU budget during the period in question.

3.2.4 Non-eligible costs

The following expenses are ineligible and therefore not accepted:

- contributions in kind: these are contributions that are not invoiced, such as voluntary work, equipment or premises made available free of charge;
- return on capital;
- debt and debt service charges;
- doubtful debts;
- provisions for losses or potential future liabilities;
- interest owed;
- exchange losses;
- VAT, unless the beneficiary can show that he/she is unable to recover it according to the applicable national legislation. VAT paid by public bodies is not an eligible cost.

It should be noted that VAT paid by a public body¹⁶ to operators who are subject to VAT (when purchasing goods or supplying services within the framework of the implementation of the co-financed action) is not eligible. The VAT thus collected by operators liable for tax will in fact be returned to accounts of the Member State of the public body. Considering this VAT as an eligible cost would lead to double financing (by the EU and by the fiscal revenue).

- excessive or reckless expenditure;
- costs declared by the beneficiary and covered by another action or work programme receiving an EU grant.

3.3 Income

Total income must be identical to total expenditure. The income side of the budget must show:

- The beneficiary's contribution in cash: the direct monetary contribution from the applicant's own resources and/or the contribution from any other fund providers. This means an effective expenditure, i.e. a financial flow that can be traced in the written accounts. Placing a civil servant remunerated by a public administration, or an employee of a company or organisation, at the disposal of the project is treated as a cash contribution since this gives rise to an expense that can be identified in the accounts of these administrations or organisations.
- By way of another example, if a meeting room is made available paying the cost of rental, then this is treated as a cash contribution, which can be included in the direct eligible costs of the project and on the income side.

¹⁶ In accordance to Council Directive 2006/112/EC of 28/11/06, states, regional and local government authorities and other bodies governed by public law shall not in theory be regarded as taxable persons in respect of the activities or transactions in which they engage as public authorities.

- The revenue generated by the action: any income expected to be generated by the implementation of the action should be detailed (such as the yield from sales of publications or conference registration fees).
- The EU grant: the grant requested from the Commission.

4 How the grant will be calculated

If the proposal is selected for a grant, the Commission will calculate the EU contribution as a percentage of the total eligible costs as shown in the estimated budget for the implementation of the action.

The Commission reserves the right to reduce the grant requested if the proposal is acceptable but considered too expensive, and to reduce individual unit costs if these are estimated to be too high.

Determination of the final amount of the grant

The EU final grant is calculated on the basis of the **actual** eligible expenditure by applying the "double ceiling" rule and verifying compliance with the non-profit rule.

- Application of the **"double ceiling" rule** limiting the grant both to the percentage of the eligible costs and to the maximum amount mentioned in the grant agreement

The EU final grant is calculated by applying the percentage for the co-financing of the eligible costs laid down in the grant agreement to the total of the actual eligible costs. This amount must not exceed the maximum amount for the EU grant laid down in the grant agreement.

As a result, if the actual expenditure turns out to be lower than the expenditure you budgeted, the actual grant will also be reduced in application of the percentage contribution which will remain the same. If the actual expenditure turns out to be higher than the expenditure budgeted, the EU grant will not be increased. It is therefore in the applicant's interest to submit a realistic estimate of expenses.

- Verification of compliance with the **non-profit rule**

The grant may not have the purpose or effect of producing a profit for the beneficiary¹⁷.

On the basis of the above rule if the total income of the action is higher than the total costs, the final grant amount will be reduced accordingly so that it will not produce a profit.

A mere forecast of expenditure does not give entitlement to a grant. This is why the exact amount of the final grant cannot be calculated until the Commission has received the final activity report and the final statement of expenditure. The expenditure that is committed to the implementation of the action must be justified by invoices or equivalent supporting documents, in order to be accepted as actual expenditure. It must also relate to actual rather than inputted costs.

¹⁷ Art. 109(2) FR

5 Agreement governing the grant

Should the Commission award a grant, a grant agreement setting out the conditions and maximum level of funding will be concluded with the beneficiary.

Successful applicants will receive two original copies of the grant agreement for acceptance and signature. Both of these copies must be sent back to the Commission, which will then return one of them once it has been signed by both parties.

6 Payment procedures

The payment procedures will be laid down in the grant agreement.

Payment of the grant will be made in two instalments (a pre-financing payment and a final payment under the following conditions:

- A pre-financing payment of 60% at the signature of the grant agreement.
- The balance will be paid upon acceptance by the Commission of the final technical implementation report and final financial statement.

7 Guarantee¹⁸

The Commission may require the beneficiary to provide a guarantee in advance, in order to limit the financial risk linked to the payment of the pre-financing.

This guarantee shall be denominated in euro and shall be valid for a period sufficiently long to allow it to be activated. The guarantee shall be provided by an approved bank or financial institution established in one of the Member States.

The guarantee shall be released as the pre-financing is gradually cleared against interim payment(s) or payment of the balance to the beneficiary in accordance with the conditions laid down in the grant agreement or, in the absence of such clearing, three months after a recovery is notified to the beneficiary by which the Commission asks him to repay the pre-financing. The Commission undertakes to release the guarantee within the following month.

In exceptional cases, the guarantee may be replaced by a joint and several guarantee by a third party or by the irrevocable and unconditional joint guarantee of the beneficiaries of an action who are parties to the same grant agreement.

¹⁸ Compulsory in the case of pre-financing, representing over 80% of the total amount of the grant and exceeding EUR 60 000. However, this requirement may be waived for public-sector bodies and international organisations or for beneficiaries who have signed a framework partnership agreement with the Commission. (Art.118 FR and 182(1) IR).

8 Bank account and interest generated by pre-financing payments¹⁹

Payment shall be made to the beneficiary's bank account or sub-account denominated in Euro. The account or sub-account indicated by the beneficiary must make it possible to identify the funds transferred by the Commission and the interest yielded by the pre-financing payments.

If the funds paid into the account yield interest or equivalent benefits under the law of the State on whose territory the account is opened, such interest or benefits, if they have been generated by pre-financing payments which remain the property of the European Union, shall not be treated as a receipt for the action.

The beneficiary shall, as specified in the grant agreement, inform the Commission of any interest or equivalent benefits yielded by pre-financing payments higher than EUR 50 000, it has received from the Commission. Notification must be made when the request is introduced for interim payment or for payment of the balance that clears the pre-financing.

Interests yielded by pre-financing payments between EUR 50 000 and EUR 750 000 will be directly deducted from payments. Interests generated by pre-financing payments higher than EUR 750 000 will be recovered through a recovery order.

Interests shall not be due to the EU on pre-financing paid to Member States, that is to say, not only the central structure of the State, but also, on the one hand, the regional or local authorities and, on the other hand, the public bodies acting on behalf, under the control or the responsibility of the Member State, or paid in the framework of joint management with international organisations.

All costs related to these requirements (such as the cost for opening and closing accounts) are eligible and may be submitted in the budget estimate.

9 Submission of reports and other documents

Within three months after the closing date of the action, the beneficiary must submit to the Commission the final report on the implementation of the action, along with a final financial statement of all actual expenditure and actual revenue. Both reports must be submitted on-line via SWIM as well as in paper version (see section 13). The final implementation report must be completed using the template announced in the call that will also be annexed to the grant agreement.

Should the final report be deemed to be inadequate or of low quality, the Commission reserves the right to request additional information within 60 days of reception of the final report, and, if necessary, to suspend the final payment until the requested information is provided.

In addition to these requirements, other documents as indicated in the text of the call for proposals VP/2012/006 (Implementing Guide, sections 9 and 10) must also be provided.

¹⁹ Art. 5(a) FR, Art. 3, 4, 4(a) IR

10 Publicity

All grant beneficiaries are required to mention clearly the fact that they have received funding from the EU in any publication, in other materials, and during activities (conferences or seminars, etc.), for which the grant is used, using the following wording: "**With financial support from the European Union**". The logo of the EU, given at the following web address: http://europa.eu/abc/symbols/emblem/index_en.htm should also be visible.

Any communication or publication by the beneficiary, in any form and medium, including the Internet, shall indicate that sole responsibility lies with the author and that the Commission is not responsible for any use that may be made of the information contained therein.

In addition to these minimum requirements, references specified in the text of the call for proposals must also be indicated.

All grants awarded in the course of a financial year shall be published on the Internet site of the EU institutions during the first half of the year following the closure of the budget year in respect of which they were awarded.

By signing the grant agreement for an action, the beneficiary authorises the Commission to publish the following information in any form and medium, including via the Internet site of the EU²⁰:

- the beneficiary's name and the address
- the subject of the grant,
- the amount awarded and the rate of funding of the costs of the action.

In order to increase the visibility of partnerships and to facilitate networking between organisations, the Commission intends to publish the name and address of partners together with the name and address of the beneficiary. To that purpose, the beneficiary will be asked to seek the partners' agreement to authorise the Commission to publish this data. This written agreement should be included in the letters of commitment sent to the Commission with the application form.

With a view to disseminate all results obtained and outputs delivered under the grant agreement, the Executive Summary sent with the Implementation Report will be posted on the website of the Directorate-General for Employment, Social Affairs and Inclusion.

Upon a duly substantiated request by the beneficiary, publication of this data can be waived if it threatens the safety of the beneficiary or harms his business interests.

11 Evaluation

If the proposal should include a specific evaluation component for on-going monitoring and final evaluation of the action, these costs can be taken into account as eligible in the budget estimate.

²⁰ Art. 110(2) FR, 169(2) IR

Successful proposals could be the subject of an on-going and ex-post evaluation led by the Commission and/or by independent experts selected by the European Commission. Therefore, the beneficiaries of the grant undertake to make available to the Commission and/or persons authorised by it, all necessary documents or information as will allow the evaluation to be successfully completed and give these persons the rights of access required.

12 Checks and audits

An external audit report is required in the following cases:

12.1 Audit report in support of grant applications²¹.

Organisations' proposals for an action for which the grant exceeds EUR 500 000, shall be accompanied by an external audit report produced by a certified auditor. That report shall certify the accounts for the last financial year available.

12.2 Audit report in support of requests for payment²²

An external audit report produced by an approved auditor or in case of public bodies, by a competent and independent public officer may be required by the authorising officer in respect of any interim or final payment request, depending on his assessment of the management risk.

It is compulsory in the case of a grant for an action over EUR 750 000, when the cumulative amounts per financial year of requests for interim payments and for payment of the balance is at least EUR 325 000. The purpose of the audit report is to certify that the submitted accounts comply with the financial provisions of the agreement, that the costs declared by the beneficiary in the financial statements on which the request for payment is based are real, accurately recorded and eligible according to the grant agreement and that all receipts have been declared.

The obligation to provide such a certification of the financial statements and underlying accounts may be waived in the cases of grant beneficiaries that are public bodies or international organisations. If an external audit of the action's accounts is not required, the beneficiary himself shall certify on his honour that information contained in requests for payments is full, reliable and true. He shall also certify that the costs incurred can be considered eligible in accordance with the grant agreement and that requests for payment are substantiated by adequate supporting documents that can be checked.

The beneficiary undertakes to provide any detailed information requested by the Commission or by another qualified outside body chosen by the Commission for the purposes of checking that the action and the provisions of the agreement are being properly implemented. The beneficiary must enable the Commission and/or the Court of Auditors to verify the organisation's accounting documents, if they deem this appropriate. To this end, documentation justifying items of expenditure must be retained by the applicant's organisation for five years following final payment by the Commission.

²¹ Art. 173(4) IR

²² Art. 180(2) IR

13 Procedure: Electronic means of submission - SWIM

The Internet Web application called "SWIM" (SAGA Web Input Module) allows applicants/beneficiaries to introduce, edit, validate, submit and print grant applications, as well as requests for payments and modifications on the budget estimate. SWIM can be accessed in the following web address²³: <https://webgate.ec.europa.eu/swim>

The final financial statement and the final implementation report will also be submitted via SWIM.

13.1 Introduction of grant applications

The grant application form has to be filled in electronically as follows: first, access the system at the address mentioned above and select the number of the call for proposals you wish to apply for in the box "New grant application", enter your e-mail address and then fill in your application. Once your application is completed, click on the "submission" button in order to finalise the submission procedure. Please note that after submitting your application form electronically no changes to the application are possible.

After electronic submission, the application form must also be printed out, signed by the legal representative of the organization submitting the proposal and sent by post to the responsible Unit, as specified in the text of the call for proposals.

Failure to respect this procedure will render the application ineligible.

13.2 Requests for payments and budgetary modifications

In addition to the documents specified in the grant agreement, financial documents required in support of requests for further pre-financing payments (if applicable) and for payment of the balance, as well as requests for modifications of the budget estimate to be made by addendum must also be submitted electronically using SWIM, as well as by post duly signed by the legal representative.

To be allowed to log on to SWIM and to access its grant file, the beneficiary will be asked to enter the same application reference number and password assigned by the system to the grant application when it was created.

13.3 Final reports

As mentioned in section 9, the final report on the implementation of the action and the final financial statement of the actual expenditure and actual revenue must be submitted on-line via SWIM as well as by post duly signed by the legal representative.

14 Data Protection

The grant application will be processed by computer. All personal data (such as names, addresses, CVs, etc.) will be processed in accordance with Regulation (EC) No 45/2001 of the European Parliament and of the Council of 18 December 2000 on the protection of individuals with regard to the processing of personal data by the

²³ For more technical details on using SWIM, a user's manual is available on-line

Community institutions and bodies and on the free movement of such data.²⁴ Replies to the questions in the application form are necessary in order to assess the grant application and they will be processed solely for that purpose by the department responsible for the EU grant programme concerned. On request, applicants may be sent personal data to correct or complete. For any question relating to these data, please contact the Commission department to which the form must be returned.

Beneficiaries may lodge a complaint against the processing of their personal data with the European Data Protection Supervisor at any time.

15 Early Warning System and Central Exclusion Database

Grant applicants and, if they are legal entities, persons who have powers of representation, decision-making or control over them, are informed that, should they be in one of the situations mentioned in:

- the Commission Decision 2008/969 of 16.12.2008 on the Early Warning System (EWS) for the use of authorising officers of the Commission and the executive agencies (OJ, L 344, 20.12.2008, p. 125) (for more information see the Privacy Statement on http://ec.europa.eu/budget/contracts_grants/info_contracts/legal_entities/legal_entities_en.cfm), or

- the Commission Regulation 2008/1302 of 17.12.2008 on the Central Exclusion Database – CED (OJ L 344, 20.12.2008, p. 12) (for more information see the Privacy Statement on http://ec.europa.eu/budget/explained/management/protecting/protect_en.cfm#BDCE),

their personal details (name, given name if natural person, address, legal form and name and given name of the persons with powers of representation, decision-making or control, if legal person) may be registered in the EWS only or both in the EWS and CED, and communicated to the persons and entities listed in the above-mentioned Decision and Regulation, in relation to the award or the execution of a procurement contract or a grant agreement or decision.
