CALL FOR PROPOSALS – EAC/S15/2018

Exchanges and mobility in sport

This call for proposals serves to implement the Preparatory action "Exchanges and mobility in sport" in accordance with the Commission Decision C(2018)1602/1 of 21 March 2018 on the adoption of the 2018 annual work programme for the implementation of pilot projects and preparatory actions in the area of education, sport and culture.

Sport is a powerful tool for bringing people together, reaching them at international, national, regional and local levels, and developing people-to-people contacts. Cooperation, partnerships and exchanges at the grassroots level inside the EU as well as with non-EU countries can contribute to the development of new skills and positively influence societal changes. Moreover, sport organisations at all levels are by nature open to international cooperation.

Sport creates a stronger sense of belonging to society among its vulnerable members and encourages active citizenship. It can be used to help integrate the rising migrant population, to combat social exclusion, to increase solidarity between generations, and to contribute to gender equality within societies. In other words, sport plays an integral part in creating social cohesion and inclusive communities.

This preparatory action aims to contribute to the efforts of sport organisations by supporting the learning mobility of their staff. Exchanges of people, ideas and good practices can be beneficial for the individuals, for their organisations and for sport as a whole.

In this context, learning mobility should be understood as occurring when individuals move to a country other than their country of residence in order to undertake training or other learning modalities, including traineeships, non-formal learning, teaching, and participating in transnational professional development activities. The objective of such experiences is to allow individuals to acquire new skills that will strengthen their future employability as well as their personal development.

Sport staff members such as coaches, managers or instructors play a key role in sport: by leading and guiding participants, they have an impact on their knowledge, skills, health, well-being and values. They are in a unique position to advance social inclusion, protect integrity, infuse respect for common values, and promote physical activity in all social groups.

1. Objectives– Theme(s) – Priorities – Outcomes

The general objective of this action is to give the opportunity to staff of sport organisations (athletes entourage) to improve their competences as well as qualifications and acquire new skills through learning mobility by spending a period of time in a foreign country (in and outside of the EU). Learning mobility should be seen as an investment in human capital and a contribution to the capacity building of various sport organisations.

Opportunities for learning mobility in this context should be addressed to:

- Coaches and other 'staff' of sport organisations (including volunteers) – linked to professional sport;
- Coaches and other 'staff' of sport organisations (including volunteers) – linked to grassroots sport.

The action seeks to have an impact in two major fields:

- Improving the knowledge and know-how of sport staff;
- Developing international cooperation in the field of learning mobility in sport.

The expected outcomes include:

- Regular exchange scheme for sport staff;
- Establishment of European networks of coaches and sport staff.

The specific objective of this action is to support learning mobility and exchanges while promoting the international dimension of sport. The latter aspect should be developed in the form of cooperation between at least 3 organisations established in 3 different EU Member States (the applicant organisation and 2 other organisations established in different EU Member States) and at least one organisation established in a non-EU country in one of the following regions: the Western Balkans, Eastern Partnership, Latin America and Asia.
