<b>IMPORTANT NOTICE</b> ( <a href="#">available in all EU languages</a> )
<b>Please also read the information on the <a href="#">dedicated web page</a></b>
<p>The list below is drawn up for the purpose of determining whether products may be eligible for preferential tariff treatment under the EU-Israel Association Agreement <sup>(1)</sup>. It applies as of 1/6/2015 and replaces the previous list which remains available on the webpage for consultation purposes.</p>
<p>Preferential tariff treatment will be refused to products for which the proof of origin indicates that the production conferring originating status has taken place in a locality within the territories brought under Israeli administration since June 1967, the postal code of which appears in <u>Part I</u> of the list.</p>
<p>For postal codes of localities appearing in <u>Part II</u> of the list, importers are invited to consult the customs office where they intend to lodge the relevant declaration for release for free circulation in order to verify the exact position, and thus eligibility for preference, of the place of production conferring originating status.</p>
<p>PO boxes are not a sufficiently reliable indication of the place where production conferring origin takes place.</p>
<p>A 7-digit code ending with '00' covers a locality in its entirety. A code with the format XXXXX01-99 covers the codes XXXXX01 to XXXXX99 <sup>(2)</sup>. To search a code, please enter the first 5 digits of the 7-digit code in the 'find' box of Adobe Reader.</p>

<sup>(1)</sup> See notice to importers published in the Official Journal of the European Union [No C 232 of 3/8/2012](#)

<sup>(2)</sup> Please note that the use of this format in Part I of the table does not necessarily mean that the full range of codes between 1 and 99 is actually in use. The existing range may vary between 01-02 and 01-99. The format 01-99 is used for simplification purposes.

## Part I – LIST OF NON ELIGIBLE LOCATIONS

	The names of the localities appearing in this column have been converted from the Hebrew alphabet into the Latin one with all possible care but their transliteration has no legal value. They are thus of an indicative nature and only given in order to facilitate the clear designation of the locality indicated by the exporter as "the place where production conferring originating status to the product has taken place".	
Postal code	Name - locality or industrial zone	Comments, additional localities
