Whereas Article 129b (2) of the Treaty is aimed at promoting the interconnection and interoperability of national networks as well as access to such networks and must take account in particular of the need to link island, landlocked and peripheral regions with the central regions of the Community;

Whereas Article 129c of the Treaty provides that the Community shall establish a series of guidelines covering the objectives, priorities and broad lines of measures envisaged in the sphere of trans-European networks and that it may support the financial efforts of the Member States to establish trans-European networks;

Whereas general rules should be laid down for the Community financing of trans-European networks, thereby permitting implementation of this Article;

Whereas under Article 129c of the Treaty Community aid may be granted to projects of common interest which are identified in the framework of the guidelines;

Whereas the guidelines referred to in Article 129c (1) of the Treaty, proposed by the Commission, are under consideration by the European Parliament and the Council; whereas, should the decisions adopting these guidelines not have entered into force when this Regulation enters into force, provision should be made on a transitional basis for a possible Community contribution to specific priority projects within the limits of the appropriations available for the financial year 1995 and at the latest until 31 December 1995;

Whereas Community aid may take the form in particular of feasibility studies, loan guarantees or interest rate subsidies; whereas these subsidies and guarantees relate in particular to financial support from the European Investment Bank or other public or private financial bodies; whereas in certain duly justified cases direct grants to investments may be considered;

Whereas loan guarantees will be granted on a commercial basis by the European Investment Fund or by other financial organizations; whereas Community financial aid may cover all or part of the premiums paid by the beneficiaries of these guarantees;

Whereas Community aid is chiefly intended to overcome any financial obstacles which may arise during the start-up phase of a project;

Whereas it is necessary to set a limit for Community aid in relation to the total cost of investment;

Whereas Community aid is to be granted to projects on the basis of how much they contribute to the objectives of Article 129b of the Treaty and the other objectives and priorities covered by the guidelines referred to in Article 129c of the Treaty; whereas account should also be taken of other aspects such as the stimulative effect on public and private finance, the direct and indirect socio-economic effects of projects, in particular on employment, and the consequences for the environment;

Whereas provision should be made for suitable methods of evaluation, follow-up and control of Community aid;

Whereas there should be suitable information, publicity and transparency regarding the activities financed;

Whereas a financial reference amount, within the meaning of point 2 of the Declaration by the European Parliament, the Council and the Commission of 6 March 1995, is included in this Regulation for its implementation, without thereby affecting the powers of the budgetary authority as they are defined by the Treaty;

Whereas an assessment should be made before the end of the financial perspective for the period 1994-99 whether and to what extent the action provided for in this Regulation meets the Community's needs,

HAS ADOPTED THIS REGULATION:

Article 1

Definition and Scope

This Regulation defines the conditions and procedures for granting Community aid to projects of common interest in the field of trans-European networks for transport, telecommunications and energy infrastructures under Article 129c (1) of the Treaty.

▼B*Article 2***Eligibility**

1. Community aid may be granted only to projects of common interest (hereinafter referred to as 'projects') identified within the framework of the guidelines referred to in Article 129c (1) of the Treaty.

Parts of projects within the meaning of the first subparagraph shall also be eligible in so far as they form technically and financially independent units.

▼M1*Article 4***Forms of aid**

1. Community aid for projects may take one or several of the following forms:

- (a) co-financing of studies related to projects, including preparatory, feasibility and evaluation studies, and other technical support measures for these studies. Community participation may in general not exceed 50 % of the total cost of a study.

In exceptional, duly substantiated cases, at the initiative of the Commission and with the consent of the Member States concerned, Community participation may exceed the limit of 50 %;

- (b) subsidies of the interest on loans granted by the European Investment Bank or other public or private financial bodies. As a general rule, the duration of subsidy shall not exceed five years;
- (c) contributions towards fees for guarantees for loans from the European Investment Fund or other financial institutions;
- (d) direct grants to investments in duly justified cases;
- (e) risk-capital participation for investment funds or comparable financial undertakings with a priority focus on providing risk capital for trans-European network projects and involving substantial private-sector investment; such risk-capital participation shall not exceed 1 % of the budgetary resources under Article 18. In accordance with the procedure specified in Article 17, this limit may be increased up to 2 % as from 2003 in the light of a review, to be presented to the European Parliament and the Council by the Commission, of the functioning of this instrument.

Further modalities of implementation of this risk-capital participation are laid down in the Annex.

The participation may be made directly into the fund or comparable financial undertaking or into an appropriate coinvestment vehicle managed by the same fund managers;

- (f) Community assistance under points (a) to (e) shall be combined where appropriate, in order to maximise the stimulus provided by the budgetary resources deployed, which shall be used in the most economical way.
2. The forms of Community aid referred to under points (a) to (e) shall be used selectively to take account of the specific characteristics of the various types of network involved and to ensure that such aid does not cause distortions of competition between undertakings in the sector concerned.
3. The funding for transport infrastructure projects throughout the period referred to in Article 18 should be used in such a way that at least 55 % is devoted to railways (including combined transport) and a maximum of 25 % to roads.
4. The Commission shall specifically promote recourse to private sources of financing for projects funded under this Regulation where

▼M1

the multiplier effect of Community financial instruments can be maximised in public-private partnerships. Each case shall be examined individually by the Commission, with account taken where appropriate of a possible alternative financed solely with public resources. The support of each member State concerned shall be required for each project in accordance with the Treaty.

▼B*Article 5***Conditions for Community aid**

1. Community aid shall be granted, in principle, only if achievement of a project meets financial obstacles.
2. Community aid shall not exceed the minimum considered necessary for the launch of a project.

▼M3

3. Regardless of the form of intervention chosen, the total amount of Community aid under this Regulation shall not exceed 10 % of the total investment cost. However, the total amount of Community aid may exceptionally reach 20 % of the total investment cost in the following cases:

- (a) projects concerning satellite positioning and navigation systems, as provided for in Article 17 of Decision No 1692/96/EC of the European Parliament and of the Council of 23 July 1996 on Community guidelines for the development of the trans-European transport network ⁽¹⁾;
- (b) priority projects on the energy networks;
- (c) sections of the projects of European interest, provided that the projects are started before 2010, identified in Annex III to Decision No 1692/96/EC with the aim of eliminating bottlenecks and/or filling in missing sections, if such sections are cross border or cross natural barrier, and contribute to the integration of the internal market in an enlarged Community, promote safety, ensure the interoperability of the national networks and/or strongly contribute to the reduction of imbalances between modes of transport, in favour of the most environment-friendly modes. This rate shall be differentiated according to the benefits to other countries, in particular neighbouring Member States.

▼B

4. The financial resources provided for under this Regulation shall not, in principle, be assigned to projects or stages of projects which benefit from other sources of Community funding.

▼M3

5. In the case of the projects referred to in paragraph 3, within the limits of this Regulation, the legal commitment shall be multiannual and the budgetary commitments shall be met in annual instalments.

▼M1*Article 5a***Community indicative multiannual programme**

1. Without prejudice to the application of Article 6 and in order to improve the efficiency of the Community's action, the Commission may, in accordance with the procedure set out in Article 17, elaborate by sector an indicative multiannual programme (hereinafter called 'programme') on the basis of the guidelines referred to in Article 155 of the Treaty. The programme will be based on applications for financial aid under Article 8 and reflect *inter alia* information provided by Member States, in particular the information set out in Article 9.

⁽¹⁾ OJ L 228, 9.9.1996, p. 1. Decision as amended by Decision No 1346/2001/EC (OJ L 185, 6.7.2001, p. 1).

▼M1

2. The programme shall exclusively be composed of projects of common interest and/or coherent groups of projects of common interest, as previously identified within the framework of the guidelines referred to in Article 155(1) of the Treaty, in specific fields having substantial financial needs over a long period.

3. For each project or group of projects referred to in paragraph 2 the programme will establish the indicative amounts for the granting of financial aid subject to the annual decisions of the budgetary authority. No more than 75 % of the budgetary resources under Article 18 shall be used for the purposes of indicative multiannual programmes.

4. The programme shall serve as a reference for the annual decisions allocating Community aid for projects within the annual budgetary appropriations. The Commission shall regularly inform the Committee referred to in Article 17 of the progress of programmes and any decisions taken by the Commission in allocating Community aid for projects. The supporting documents accompanying the Commission's preliminary draft budget shall include a report concerning progress in the implementation of each multiannual indicative programme in accordance with the Financial Regulation.

The programme must be reviewed, at least at mid-term or in the light of the effective progress of the project(s) or groups) of projects, and if necessary revised, in accordance with the procedure set out in Article 17.

The programme shall also give an indication of other sources of financing for the projects concerned, in particular from other Community instruments and the European Investment Bank.

5. In case substantial changes in the implementation of the project(s) or the groups) of projects take place, the Member State concerned will inform the Commission without delay.

Modifications to the indicative global amounts established by the programme for the project(s) or groups) of projects, which may be necessary following these changes, shall be decided in accordance with the procedure of Article 17.

▼B*Article 6***Project selection criteria**

1. Projects shall be assisted according to their degree of contribution to the objectives set out in Article 129b of the Treaty and to the other objectives and priorities defined in the guidelines referred to in Article 129c (1) of the Treaty.

▼M1

1 a. In its implementation of this Regulation, the Commission shall ensure the conformity of its decisions on granting Community aid with the priorities laid down in the guidelines for the different sectors established pursuant to Article 155(1) of the Treaty. This shall include their conformity with any requirements which may be laid down in those guidelines in terms of a percentage of total Community aid.

▼B

2. Community aid shall be assigned to projects that are potentially economically viable and for which the financial profitability at the time of application is deemed insufficient.

3. The decision to grant Community assistance should also take account of:

- the maturity of the project,

- the soundness of the financial package,

▼M1*Article 10***Grant of financial aid**

In accordance with Article 274 of the Treaty, the Commission shall decide to grant financial aid under this Regulation according to its assessment of the application in accordance with the selection criteria. In the case of projects identified in the relevant indicative multiannual programme established pursuant to Article 5a, the Commission shall take the annual decisions to grant aid within the indicative financial amounts provided for in that programme. In the case of other projects, measures shall be adopted in accordance with the procedure specified in Article 17. The Commission shall notify its decision directly to the beneficiaries and to the Member States.

▼B*Article 11***Financial provisions**

2. Expenditure incurred before the date on which the Commission received the application for financial aid shall not be covered.

3. Decisions to grant financial aid taken by the Commission under Article 10 shall be binding as commitments to incur expenditure authorized by the Budget.

4. As a general rule, payments shall be made in the form of advances, intermediate payments and a final payment. The advance, which shall not normally exceed 50 % of the first annual tranche, shall be paid once the application for aid has been approved. Intermediate payments shall be made on the basis of requests for payment, taking account of the progress made in implementing the project or study and, if necessary taking account of revised financial plans in a rigorous and transparent manner.

5. The payments must take account of the fact the infrastructure projects will be implemented over a period of years and that provision must therefore be made for multiannual financing.

6. The Commission shall make the final payment after approval of the final report on the project or study, submitted by the beneficiary and itemizing all the expenditure actually incurred.

▼M1

5. Before carrying out an on-the-spot check, the Commission shall give notice to the Member State concerned with a view to obtaining all the assistance necessary. If the Commission carries out on-the-spot checks without giving notice, it shall be subject to agreements reached in accordance with provisions of the Financial Regulation. Officials or agents of the Member State concerned may take part in such checks.

The Commission may require the Member State concerned to carry out an on-the-spot check to verify the correctness of payment applications. Commission officials or agents may take part in such checks, and must do so if the Member State concerned so requests.

The Commission shall ensure that any checks that it carries out are performed in a coordinated manner so as to avoid repeating checks in respect of the same subject matter during the same period. ▼B*Article 13***Reduction, suspension and cancellation of assistance**

1. If the implementation of an operation appears not to justify, in whole or in part, the financial aid allocated to it, the Commission shall conduct an appropriate examination of the case, in particular requesting the Member State, or the authorities or bodies designated by it to carry out the operation, to submit their comments within a specified period of time.

2. Following the examination referred to in paragraph 1 above, the Commission may reduce, suspend or cancel aid in respect of the operation in question if the examination reveals an irregularity or a failure to comply with one of the conditions laid down in the decision to grant assistance, and in particular any significant change affecting the nature of, or conditions for carrying out, the project for which the Commission's approval was not sought.

Any undue cumulation shall give rise to the recovery of sums unduly paid.

▼M1

2 a. Except in cases duly justified to the Commission, aids granted to projects which have not started within two years following the date of their expected start, as indicated in the decision granting assistance, will be cancelled by the Commission.

3. On receipt of an application for aid, and before approving it, the Commission shall carry out an appraisal in order to assess the project's conformity with the conditions and criteria laid down in Articles 5 and 6. Where necessary, the Commission shall invite the European Investment Bank or other appropriate bodies to contribute to this appraisal.

4. The Commission and the Member States shall assess the manner in which the projects and the programmes have been carried out and evaluate the impact of their implementation, in order to assess whether the original objectives can be, or have been, achieved. This evaluation

▼M1

The Commission may, after consultation of the Member State concerned, also require the beneficiary to provide a specific evaluation on projects or groups of projects supported under this Regulation, or to provide it with the information and the assistance required to evaluate such projects.

5. Monitoring shall be carried out, where appropriate, by reference to physical and financial indicators. The indicators shall relate to the specific character of the projects and its objectives. They shall be arranged in such a way as to show:
