

EU reference laboratories

Medical Devices Coordination Group meeting

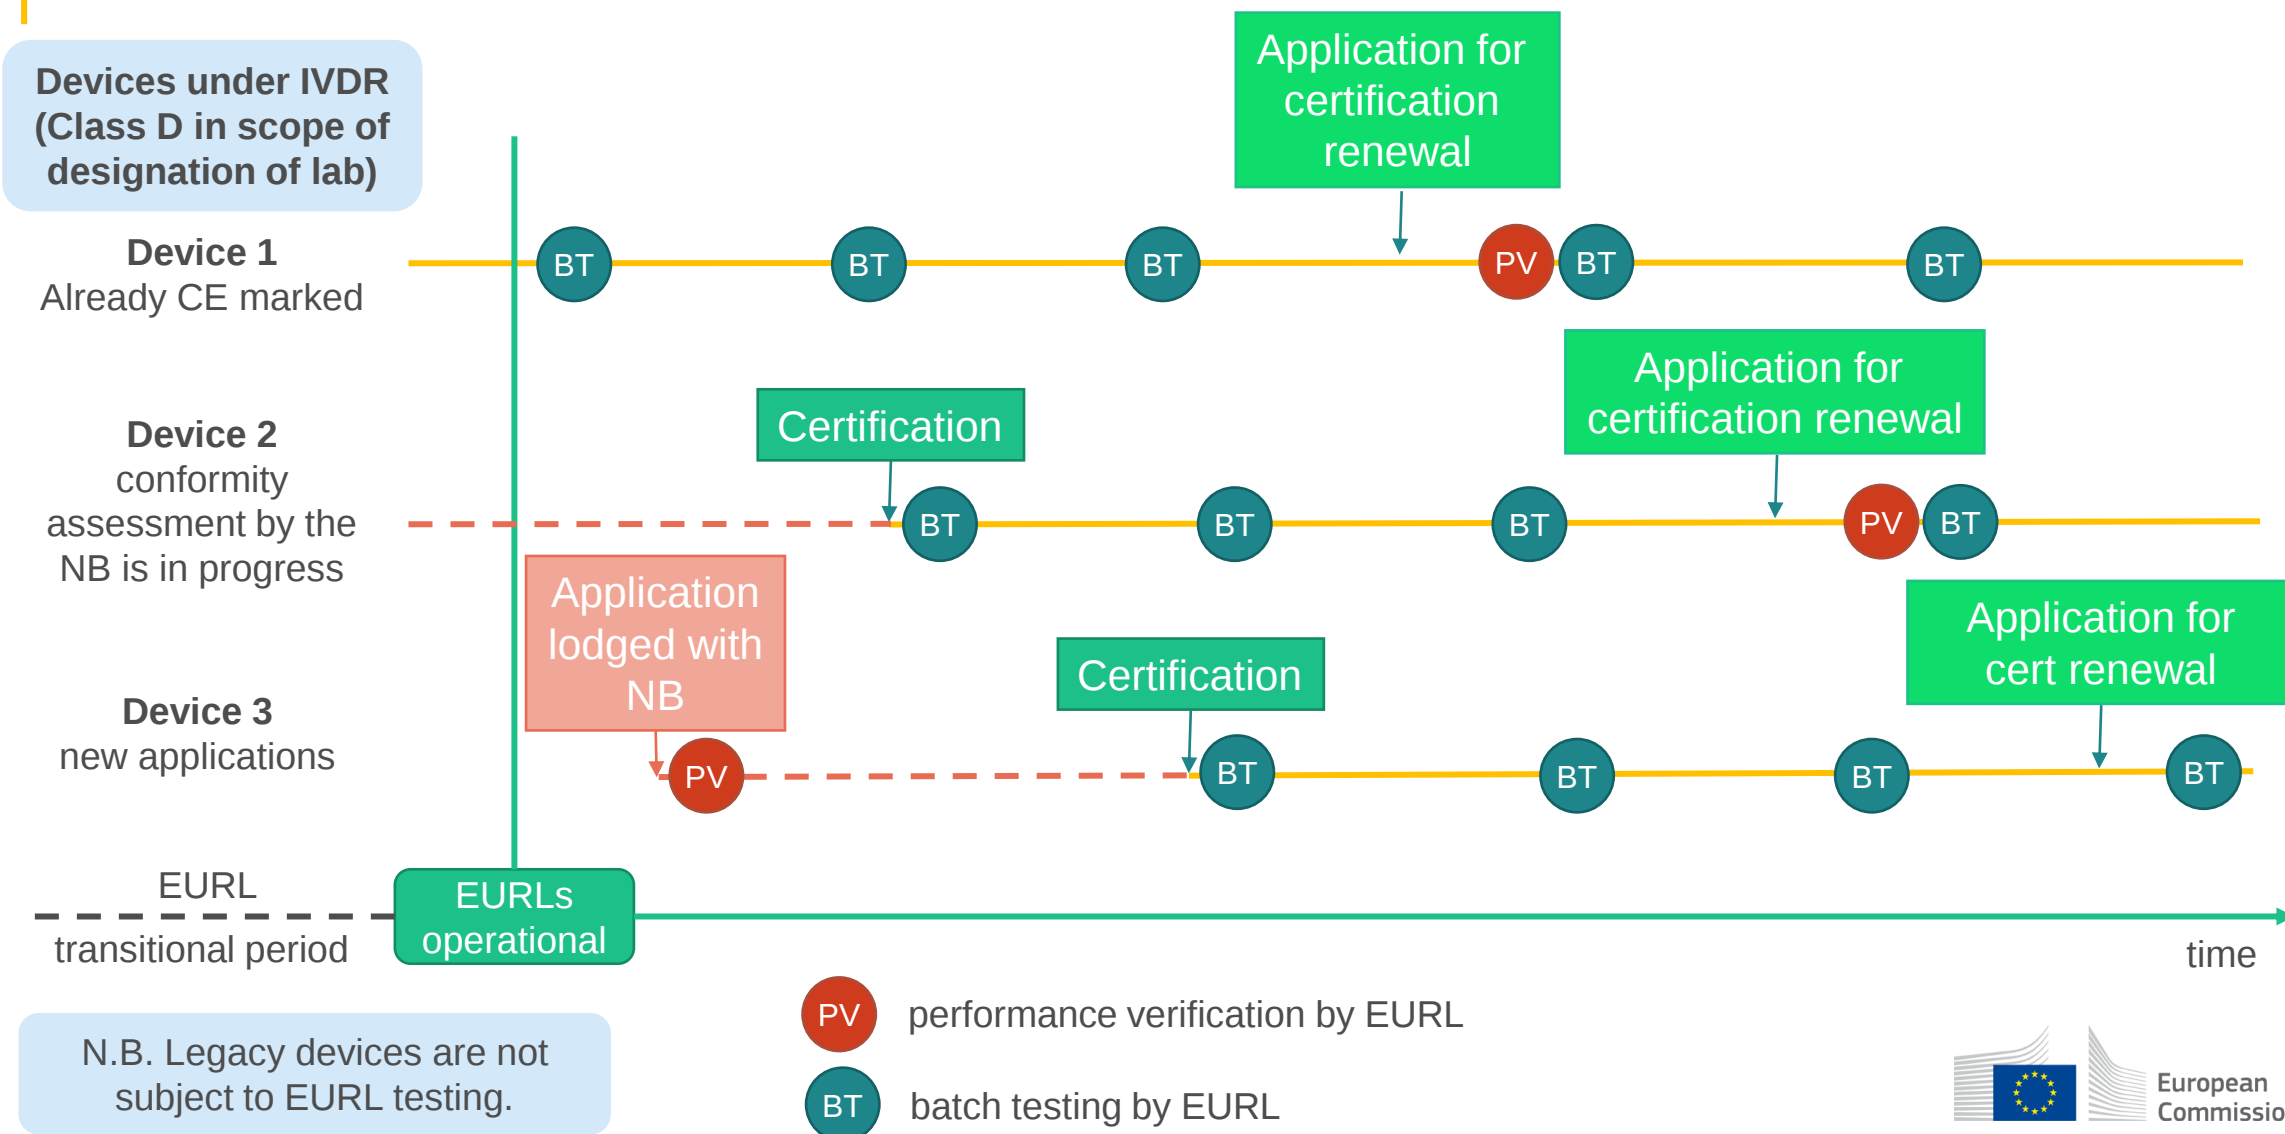

10 October 2023

*DG Health and Food Safety (SANTE)
Joint Research Centre (JRC)*

Candidate EURLs nominated for designation

- 5 laboratories are shortlisted for designation, together covering the following 4 categories:
 - ✓ Hepatitis and retroviruses
 - ✓ Herpesviruses
 - ✓ Bacterial agents
 - ✓ Respiratory viruses that cause life-threatening diseases
- The laboratories are expected to be designated by a European Commission implementing act in late October/early November 2023.
- The designating act will include transitional arrangements.

Proposed transitional arrangements for EURL testing
