

Proposed roadmap for second call for IVD-EURLs

MDCG meeting

14-15 October 2024

European Commission – DG Joint Research Centre (JRC)

Key points for second EURL call

- Agreed in May 2024 MDCG to have a second call for EURLs in two additional scopes: parasites and blood grouping
- Based on MS feedback, it would be important to give more time to candidate laboratories to prepare their applications (up from 6 to 9-12 months)
- It is important to fit the evaluation and designation with the timing of the Union contribution funding cycle for the already existing EURLs, so that the newly designated ones can join

Roadmap second call for IVD EURLs (2026)

Thank you
