

Working Group Outputs

By the end of 2017, the Working Group is to produce:

- “A compendium of policies that promote up-skilling and re-skilling through adult workplace learning;
- A report analysing how existing policies support continuous training in the workplace;
- Policy guidance for Member States on how coherent and effective policies can promote career-long learning in the workplace, address skills shortages, maintain or improve workforce skills and facilitate occupational transition;
- A community of practice.”

Meeting Outcomes

To make progress towards these outputs, by the end of the meeting the Working Group will have:

1. adopted the report from the second peer learning activity in Reims;
2. defined the theme of the next peer learning activity in Poland in September;
3. identified remaining issues and information required in order for the Working Group to achieve its expected outputs.

19.06.2017 (11:00 – 17:30)
