

INFORMAL COMMISSION EXPERT GROUP
FOREST AND FORESTRY STAKEHOLDER PLATFORM
TERMS OF REFERENCE

1. BACKGROUND

The new EU Forest Strategy for 2030 (COM(2021)572 final¹) proposes a new inclusive and coherent EU forest governance framework.

In the new EU Forest Strategy for 2030 the Commission took the view that the wider contribution of forests to the European Green Deal objectives, as presented in the Strategy, including for climate, biodiversity and sustainable bioeconomy, necessitates a more inclusive and better coordinated EU forest governance structure, reflecting all the objectives of the new EU Forest Strategy and their interlinkages. Reinforced coordination of different policies should be ensured and a multidisciplinary exchange should be facilitated, with the involvement of a wide variety of experts and stakeholders. Given the increasing interest of the European public in the future of EU's forests, transparency of the governance should also be guaranteed so that everyone can follow how the Commission is assisted in delivering on the objectives of the new EU Forest Strategy.

In this spirit, the Commission proposes an EU forest governance system that promotes policy coherence and synergies to ensure healthy and resilient forests.

As part of this new governance, it is of outmost importance to ensure the active involvement of forest owners and managers, environmental non-governmental organisations, industry, academia, and broader civil society representatives to discuss forest policy matters. Building on the experience of the existing Civil Dialogue Group on Forestry and Cork and the Working Group on Forest and Nature, the Commission aims to create a single stakeholder platform (expert group called 'Forest and Forestry Stakeholder Platform') to assist the Commission's services (DG Agriculture and Rural Development, DG Environment, and DG Climate Action) in the implementation of the EU Forest Strategy for 2030. The present Terms of Reference relate to this latter group.

The group is expected to operate as long as needed for the implementation of the EU Forest Strategy for 2030.
