Activity Report

The group "Expert group on follow up activities related to Corporate Responsibility in the field of Pharmaceuticals" serves as a follow up and is based on the work and outcomes of "The process on corporate responsibility in the field of pharmaceuticals". European Commission facilitates the same model of multistakeholders volunteer collaboration initiated during the process on corporate responsibility in the field of pharmaceuticals with the aim to foster the exchange of views between the participating parties. The main objective of these exchanges is to promote access to medicines while taking into consideration the sustainability of Member States healthcare systems and the competitiveness of the European based pharmaceutical industry.
