RoadSafetyWeb is a website centralising data of awareness raising campaigns in the field of road safety. Its aim is to create a platform promoting the different campaigns and facilitating the exchange of information about them. The participating organisations can use the campaigns in the database as a source of inspiration for new campaigns. Moreover, RoadSafetyWeb constitutes a forum for exchanging knowledge and experiences between the participating organisations.

RoadSafetyWeb does not only allow for the centralisation of campaign data using a common structure, it also facilitates searching and looking into these data. By using a single template for organising the data, it is for example possible to have a quick and extensive overview of what is done in the different countries.

Coordinator

- [Belgian Road Safety Institute](http://www.roadsafetyweb.net/) (BE)

Partners

- [3VO - Verenigde Verkeersveiligheidsorganisatie](http://www.roadsafetyweb.net/) (NL)
