ROSACE

Road Safety in cities: change road safety education in europe

Project details	
Domain	Training, education and campaigns
Duration	from 01/04/2007 until 31/03/2009
Website	
Other sources	 Final report  Methodological guidelines

RoSaCe aims to create a new educative approach based on the concept of Street Safety Education to improve safety and quality of life.

RoSaCe provides guidelines and material for specific health-promoting actions in and out of school. At the same time, each local community is invited to produce its own material to make RoSaCe a reality in each one of the participating cities.
