## ROSACE

### Road Safety in cities: change road safety education in europe

| Project details |   |
|-----------------|---|
| Domain          | Training, education and campaigns   |
| Duration        | from 01/04/2007 until 31/03/2009  |
| Website         | <a href="http://www.rosace-europe.net/">http://www.rosace-europe.net/</a> |
| Other sources   |   |

RoSaCe aims to create a new educative approach based on the concept of Street Safety Education to improve safety and quality of life.

RoSaCe provides guidelines and material for specific health-promoting actions in and out of school. At the same time, each local community is invited to produce its own material to make RoSaCe a reality in each one of the participating cities.
