Questions that could be dealt with:

- *Where do you see your port in the year 2030?*
- *Is your port connected to rail and/or inland waterways? If yes, which quality has the intermodal trans-shipment site? If not, is it planned to connect your port and ensure its intermodality?*
- *Which projects in your own and shared responsibility will you implement in the forthcoming years to overcome the identified bottlenecks, improve the port's efficiency and foster cross-border transportation along the Baltic-Adriatic corridor?*
- *Do you see a need for a continued (after 2014) collaboration between the ports along the Baltic-Adriatic corridor? Or do you have other collaboration platforms, e.g. by naval area? If you wish a Baltic-Adriatic collaboration, what would be the objectives and the themes to be treated?*

End of meeting: at the latest by 18h00

Meeting place: Room BERL S5, Berlaymont building (EC), Rond Point Schuman, Brussels
