

List of the TEN-T related projects presented in May 2017\* in the framework of the Expert Group on Investment and Financing of the EU-China Connectivity Platform

Disclaimer:

*The TEN-T related projects\*\* included in the attached list have been presented by the Member States concerned on a voluntary basis, in order to explore solutions to cover a potential financing gap, without prejudice of the final decision on financing which could be taken. The importance of a level-playing-field among investors and project promoters, of a geographically balanced list of projects, reciprocity and compliance with applicable EU rules and standards was recalled during the Pilot Expert Group meetings*

- 1) Genoa Port breakwater project (Italy)
- 2) Trieste Integrated Rail Hub (Italy)
- 3) Adjusting Odra River Waterway (E30) to the international waterway standards (Poland)
